Who is this fund for?

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fund has other series of securities. The fees and expenses are different for each series. You should ask about other series that may be suitable for you.

1. Sales charges- You have to choose a sales charge option when you buy the fund. Ask about the pros and cons of each option.

Trailing commission

NEI Investments pays your dealer a trailing commission for as long as you own the fund. It is for the services and advice your dealer provides to you. Dealers may pay a part of the trailing commission to their representatives. The trailing commission is paid out of the management fee. The rate depends on the sales charge option you choose:

- Front load – 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.
- Low Load 1 – 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.
- Low Load 2 – up to 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.
