Part A: General disclosure

Introduction

This simplified prospectus (the “prospectus”) contains selected important information to help you make an informed investment decision about all of the funds listed on the front cover of this prospectus (collectively the “Funds” and individually a “Fund”), and to help you understand your rights as an investor.

This prospectus contains information about the Funds and the risks of investing in mutual funds generally, as well as the names of the firms responsible for management of the Funds.

This prospectus is divided into two parts:

- Part A, the first part, from pages 4 to 73, contains general information about all of the Funds.
- Part B, the second part, from pages 74 to 253, contains specific information about each of the Funds described in this prospectus.

Additional information about each Fund is available in the following documents:

- the most recently filed Fund Facts document;
- the most recently filed annual financial statements;
- any interim financial report filed after those annual financial statements;
- the most recently filed annual management report of fund performance; and
- any interim management report of fund performance filed after that annual management report of fund performance.

These documents are incorporated by reference into this prospectus, which means they legally form part of this prospectus just as if they were printed as a part of this prospectus.

You can get a copy of these documents, at your request, and at no cost by calling toll-free 1-888-809-3333 or by asking your Mutual Funds Investment Dealer or representative at your dealer.

These documents are available on our designated website at www.neiinvestments.com or by contacting us at neiclentservices@neiinvestments.com.

These documents and other information about the Funds are also available at www.sedar.com.

Throughout this prospectus:

- *we, us, the Manager, NEI Investments* and our refer to Northwest & Ethical Investments L.P., the manager of the Funds, acting through its general partner, Northwest & Ethical Investments Inc.;
- *you* and *unitholders* refer to everyone who invests in the Funds;
- *NEI Funds* refers to the Funds listed on the front cover of this prospectus;
- *NEI Private Portfolios* refers to NEI Income Private Portfolio, NEI Income & Growth Private Portfolio, NEI Balanced Private Portfolio and NEI Growth Private Portfolio;
- *units* refers to units of a Fund;
- *Pools* refers to the following Funds: NEI Fixed Income Pool, NEI Canadian Equity Pool, NEI Global Equity Pool and NEI Managed Asset Allocation Pool;

- *RS* means “Responsible Screens” which refers to the Manager’s process of excluding certain companies from the investments of many of its Funds. More information about this is available at pages I to I of this prospectus; and
- *Specified Funds* refers to the following funds: The NEI Select Maximum Growth RS Portfolio, NEI Select Growth & Income RS Portfolio, and NEI ESG Canadian Enhanced Index Fund that were formed under the laws of Ontario pursuant to an amended and restated master declaration of trust dated October 26, 2018, as amended from time to time.

Responsibility for Mutual Fund Administration

Manager

As manager for the Funds, we manage the overall business of the Funds, including providing administration services, promoting sales of the Funds’ units and making provisions for fund accounting.

Each of the Funds, including those titled as Portfolios or Pools, is organized as a trust. When you invest in any of the Funds, you are buying units of a trust. In our capacity as the Funds’ Trustee, we hold actual title to the property in the Funds - the cash, securities, and other property - on your behalf (although physical custody of such property is held by the Funds’ custodian, as described below).

The general partner of the Manager, Northwest & Ethical Investments Inc., is a wholly-owned subsidiary of Aviso Wealth Inc. (“Aviso”). Aviso is the sole limited partner of the Manager. Aviso is a wholly-owned subsidiary of Aviso Wealth LP (“Aviso Wealth LP”), which in turn is owned 50% by Desjardins Financial Holding Inc. (“Desjardins”) and 50% by a limited partnership owned by the five Provincial Credit Union Centrals (the “Centrals”) and The CUMIS Group Limited. Desjardins is a wholly-owned subsidiary of the Fédération des caisses Desjardins du Québec (“Fédération”).

The head office and the principal address of the Manager is Northwest & Ethical Investments L.P., 151 Yonge Street, 12th Floor, Toronto, Ontario, M5C 2W7. The Managers telephone numbers are 416-594-6633 or toll free: 1-888-809-3333, website address is www.neiinvestments.com and email address is neiclientservices@neiinvestments.com.

Directors and Executive Officers

| Name and Municipality of Residence | Municipality of Residence | Position and Office Held |
|------------------------------------|-----------------------------------|--|
| Rodney Ancrum | West Vancouver, British Columbia | Director and Senior Vice-President (“SVP”), Chief Financial Officer and Chief Administrative Officer |
| Sherri Evans | Hamilton, Ontario | Director and SVP, Head of People & Client Experience |
| Wanda Frisk | Surrey, British Columbia | Director and SVP, Head of Credit Union Wealth Management |
| Raymond Hori | North Vancouver, British Columbia | Director and SVP, Chief Information Officer |

| Name and Municipality of Residence | Municipality of Residence | Position and Office Held |
|---|-----------------------------------|---|
| Yasmin Lalani | North Vancouver, British Columbia | Director and SVP, Chief Legal Officer and Chief Governance Officer |
| William Packham | Thornhill, Ontario | Director and President, Chief Executive Officer, and Ultimate Designated Person |
| Christine Zalzal | Oakville, Ontario | Director and SVP, Head of Online Brokerage and Digital Wealth |
| Timothy Prescott | Orangeville, Ontario | Director and SVP, Head of Asset Management. |
| Endu Gentles | Toronto, Ontario | Director and SVP, Strategy and Chief Transformation Officer |
| Mark Nicholson | Stouffville, Ontario | Director and SVP, Marketing, Communications and Client Experience |
| Shelley Whitney | Port Moody, British Columbia | VP, Corporate Compliance and Chief Compliance Officer |

The Manager is responsible for providing all management and administrative services required by the Funds, which includes arranging for the distribution of the Funds' units and arranging for all investment management services of the Funds, pursuant to an amended and restated management agreement dated January 1, 2015, as amended (the "Management Agreement"). In that capacity, it makes available to the Funds its accounting facilities and clerical staff. The Manager also acts as trustee of the Funds.

The Management Agreement may be terminated on 60 days' prior written notice.

The Manager also provides investment management services for certain Funds.

Certain Funds may invest some or all of their assets in underlying funds that are managed by us or by a third-party investment manager. Where an underlying fund is managed by us, we will not vote the units of the underlying fund.

Portfolio Advisers

Northwest & Ethical Investments L.P., the manager of the Funds, is the portfolio manager (the "Portfolio Manager") of all the Funds, except where other portfolio managers, sub-advisors or portfolio sub-advisors (each a "Portfolio Sub-Advisor") are identified in the following pages. Many of the Funds use Portfolio Sub-Advisors appointed by us to provide portfolio advice for a portion of, or for the entire portfolio.

The Manager has been appointed portfolio manager of the Funds pursuant to an amended and restated portfolio management contract dated June 4, 2004, as amended (the “Portfolio Management Agreement”), and as assigned to the Manager by a contribution agreement among Northwest Mutual Funds Inc. and Northwest & Ethical Investments L.P. made as of December 28, 2007 (the “Contribution Agreement”).

The services provided by the Portfolio Sub-Advisors include the provision of investment analysis and recommendations and the implementation of investment decisions, in accordance with the fundamental investment objectives of the applicable Funds, as described in this simplified prospectus.

Each of the Portfolio Sub-Advisors have been appointed under a portfolio advisory agreement (together the “Sub-Advisor Agreements”) as described below.

Other than Desjardins Global Asset Management Inc. which is a member of the Fédération, a shareholder of our ultimate parent Aviso Wealth LP, the Portfolio Sub-Advisors are not related to us.

The Manager is responsible for the advisory fees payable to the Portfolio Sub-Advisors.

The table below describes individuals employed by the Portfolio Manager for each Fund who make investment decisions, their titles, and their role in the investment decision-making process.

Northwest & Ethical Investments L.P. Toronto, Canada

The name, title and role in the investment decision-making process for funds directly managed by the Manager are shown in the table below:

| Name and Title | Fund | Role in Investment Decision-Making Process |
|------------------------------------|---|--|
| John Bai, Chief Investment Officer | NEI Conservative Yield Portfolio | Leads the asset allocation and manager research functions at NEI. | | NEI Impact Growth Portfolio | |
| | NEI Income Private Portfolio | |
| | NEI Income & Growth Private Portfolio | |
| | NEI Balanced Private Portfolio | |
| | NEI Growth Private Portfolio | |
| | NEI Managed Asset Allocation Pool | |

The investment decisions of the individuals listed in the table above made on behalf of NEI Investments are not subject to the oversight, approval or ratification of any committee. The investment decision-making process is supported by research, analysis and internal investment committees. Investment decisions for all NEI Funds are overseen by John Bai, Chief Investment Officer and Will Benton, VP and Portfolio Manager.

The Portfolio Management Agreement may be terminated by either the Portfolio Manager or the Manager on 60 days' prior notice to the other party, unless a shorter notice period is acceptable to the party receiving the notice. The Manager also has the right to terminate the agreement immediately if the Portfolio Manager commits certain acts or fails to perform its duties under the agreement.

Portfolio Sub-Advisors

The tables below describe the Portfolio Sub-Advisors and their respective principal location and, the lead portfolio managers for each Fund, their titles, and their role in the investment decision making process.

Addenda Capital Inc. Montreal, Quebec

Addenda Capital Inc. ("Addenda Capital") has been appointed as Portfolio Sub-Advisor to provided investment management services to the Manager in respect of NEI International Equity RS Fund pursuant to a Sub-Advisor Agreement dated July 25, 2014 and in respect of NEI Canadian Impact Bond Fund pursuant to Amendment No.2 thereto dated June 29, 2023.

| Name and Title | Fund | Role in Investment Decision-Making Process |
|---|-------------------------------|--|
| Diane Young, CFA, Vice-President, Fixed Income and Co-Head, Corporate Bonds | NEI Canadian Impact Bond Fund | Diane developed and leads the NEI Canadian Impact Bond Fund. She also co-leads the firm's corporate bond strategy and has primary responsibility for the management of corporate core bond portfolios. |

| Name and Title | Fund | Role in Investment Decision-Making Process |
|----------------|------|--|
|----------------|------|--|

He also analyzes and monitors the various industries and securities held in the portfolios.

The investment decisions of the individuals listed above made on behalf of Addenda Capital are not subject to the oversight, approval or ratification of any committee.

The Sub-Advisor Agreement between NEI Investments and Addenda Capital provides that it may be terminated on 60 days' prior written notice given by NEI Investments or 60 days' prior written notice given by Addenda Capital. NEI Investments also has the right to terminate the agreement immediately if Addenda Capital commits certain acts or fails to perform its duties under the agreement.

AllianceBernstein Canada, Inc. Toronto, Canada

AllianceBernstein Canada Inc. ("AB") has been appointed Portfolio Sub-Advisor to provide investment management services to the Manager in respect of NEI U.S. Equity RS Fund pursuant to a Sub-Advisor Agreement dated July 21, 2016; and in respect of the NEI Global Equity Pool pursuant to Amendment No. 2 thereto dated May 30, 2019.

| Name and Title | Fund | Role in Investment Decision-Making Process |
|----------------|------|--|
|----------------|------|--|

Kent Hargis, Co-Chief Investment Officer, Strategic Core Equities

NEI U.S. Equity RS Fund
NEI Global Equity Pool

He has been managing the Global, International and US portfolios since their inception in September 2011, and the Emerging Markets Strategic Core Portfolio since January 2015. Hargis was named Head of Quantitative Research for Equities in 2009, with responsibility for overseeing the research and application of risk and return models across the firm's equity portfolios.

Sammy Suzuki, Co-Chief Investment Officer, Strategic Core Equities; Head, Emerging Markets Equities

NEI U.S. Equity RS Fund
NEI Global Equity Pool

He is Head of Emerging Markets Equities, responsible for overseeing AB's emerging markets equity business. Suzuki is also Co-Chief Investment Officer of Strategic Core Equities and was a key architect of the Strategic Core Platform where he has been managing the Emerging Markets portfolio since its inception in 2012 and the

| Name and Title | Fund | Role in Investment Decision-Making Process |
|----------------|------|--|
|----------------|------|--|

Global, International and US portfolios since 2015.

The investment decisions of the individuals listed above made on behalf of AB are not subject to the oversight, approval or ratification of any committee.

The Sub-Advisor Agreement between NEI Investments and AB provides that it may be terminated on 30 days' prior written notice given by NEI Investments or 120 days' prior written notice given AB. NEI Investments also has the right to terminate the agreement immediately if AB commits certain acts or fails to perform its duties under the agreement.

Amundi Canada Inc., Montreal, QC
Amundi Asset Management (“Amundi AM”) Paris, France
Amundi (UK) LTD, London, United Kingdom

Amundi Canada Inc. (“Amundi Canada”) was appointed Portfolio Sub-Advisor to provide investment management services and Amundi AM was appointed as commodity futures portfolio manager to the Manager in respect of NEI Global Total Return Bond Fund pursuant to a Sub-Advisor Agreement and portfolio manager agreement dated August 29, 2013. Amundi Canada has been appointed Portfolio Sub-Advisor to provide investment management services in respect of NEI Global Dividend RS Fund pursuant to a Sub-Advisor Agreement dated July 21, 2016. Amundi Canada is the Portfolio Sub-Advisor with respect to securities, excluding commodity futures contracts, for each of NEI Global Total Return Bond Fund and NEI Global Dividend RS Fund. Amundi Canada has, in turn, delegated responsibility for investment management of securities, excluding commodity futures contracts, to Amundi AM. Amundi (UK) Ltd is the portfolio manager for commodity futures contracts for NEI Global Total Return Bond Fund. Amundi (UK) Ltd. (the “Commodity Futures Portfolio Manager”) was appointed as the Commodity Futures Portfolio Manager to provide investment management services to NEI Global Total Return Bond Fund in respect of commodity futures pursuant to a novation agreement dated September 11, 2019.

Amundi AM is Portfolio Sub-Advisor on the securities portion of the NEI Global Dividend RS Fund. Amundi AM is a joint stock company (Société Anonyme) incorporated under the laws of France and has its registered office at 91-93, boulevard Pasteur, 75015 Paris, France. Amundi (UK) Ltd and Amundi AM are not subject to a variety of requirements contained in Canadian securities legislation applicable to registrants. In certain circumstances, it may be difficult to enforce legal rights against them because they are incorporated in London and France and all or substantially all of their assets are located outside Canada.

Baillie Gifford Overseas Limited (“Baillie Gifford”) has been appointed as Portfolio Sub-Advisor to provide investment management services to the Manager in respect of NEI Global Growth Fund pursuant to a Sub-Advisor Agreement dated August 5, 2021.

| Name and Title | Fund | Role in Investment Decision-Making Process |
|---|------------------------|---|
| Toby Ross, Investment Manager, Partner | NEI Global Growth Fund | A member of the dedicated Sustainable Growth investment team, and one of two ultimate Decision Makers for the Fund. |
| Katherine Davidson, Investment Manager | NEI Global Growth Fund | A member of the dedicated Sustainable Growth investment team, and one of two ultimate Decision Makers for the Fund. |

The investment decisions of the individuals listed above made on behalf of Baillie Gifford are not subject to the approval or ratification of any committee. Broad oversight of portfolio construction is provided by the Investment Risk, Analytics and Research team. This oversight includes the monitoring of unintentional thematic concentrations and adherence to the Fund’s portfolio construction guidelines.

The Sub-Advisor Agreement between NEI Investments and Baillie Gifford provides that it may be terminated on not less than 30 days’ prior written but not more than 90 days after delivery of the notice given by NEI Investments or 90 days’ prior written notice given by Baillie Gifford. NEI Investments also has the right to terminate the agreement immediately if Baillie Gifford commits certain acts or fails to perform its duties under the agreement.

Columbia Management Investment Advisers, LLC Boston, MA, U.S.A

Columbia Management Investment Advisers, LLC (“Columbia”) has been appointed as Portfolio Sub-Advisor to provide investment management services to the Manager in respect of NEI Emerging Markets Fund pursuant to a Sub-Advisor Agreement among Northwest & Ethical Investments L.P., Columbia and NEI Emerging Markets Fund dated April 26, 2013.

| Name and Title | Fund | Role in Investment Decision-Making Process |
|---|---------------------------|---|
| Dara J. White, CFA®, Global Head of Emerging Markets Equity | NEI Emerging Markets Fund | Senior portfolio manager and global head of Emerging Market Equities at Columbia Threadneedle Investments. He has acted as lead portfolio manager of Emerging Market equities since 2008. |

| Name and Title | Fund | Role in Investment Decision-Making Process |
|--|---------------------------|---|
| Robert B. Cameron, Senior Portfolio Manager | NEI Emerging Markets Fund | Senior portfolio manager on the Emerging Markets Equity team at Columbia Threadneedle Investments and has held this position since joining one of the Columbia Threadneedle Investments legacy firms in 2008. |

The investment decisions of the individuals listed above made on behalf of Columbia Management Investment Advisers, LLC are subject to the oversight, approval or ratification of a committee.

Columbia Threadneedle maintains an Investment Oversight Committee (IOC) which is an independent committee responsible for creating and adopting practices and procedures required for effective oversight of our investment management activities. The IOC provides a comprehensive assessment of investment risk, return and risk-adjusted return across products and funds to help fulfill the firm's fiduciary responsibility and to help protect existing clients from exposure related to unexpected volatility in investment performance.

The Sub-Advisor Agreement between NEI Investments and Columbia provides that it may be terminated on 60 days' prior written notice given by NEI Investments or 60 days' prior written notice given by Columbia. NEI Investments also has the right to terminate the agreement immediately if Columbia commits certain acts or fails to perform its duties under the agreement.

Desjardins Global Asset Management Inc. Montréal, Quebec

Desjardins Global Asset Management Inc. ("DGAM") has been appointed as Portfolio Sub-Advisor to provide investment management services to the Manager in respect of NEI Money Market Fund pursuant to a Sub-Advisor Agreement dated June 7, 2004 between Northwest Asset Management Inc. and DGAM and assigned to the Manager effective December 28, 2007, and has been appointed as Portfolio Sub-Advisor of NEI Fixed Income Pool pursuant to an amendment dated May 17, 2019 to the above noted Sub-Advisor Agreement.

| Name and Title | Fund | Role in Investment Decision-Making Process |
|---|--|---|
| Christian Duceppe, Vice-President and Chief Investments Officer, Public Markets | NEI Money Market Fund NEI Fixed Income Pool | Oversees fixed income, global equity and tactical asset allocation mandates. He draws on the expertise and experience of Desjardins Global Asset Management's portfolio managers and analysts to develop investment processes to help clients meet their investment objectives. |
| Marie-Claude DesRoches, Manager, Fixed Income | NEI Money Market Fund NEI Fixed Income Pool | Responsible for managing all the fixed-income mandates and |

| Name and Title | Fund | Role in Investment Decision-Making Process |
|---|--|--|
| | | leads a team of managers specializing in asset and liability matching, indexing strategies, and active mandates. Ms. DesRoches also oversees the team of sector-based credit analysts and ensures the adherence to the investment process in achieving clients' investment objectives. |
| Mathieu Bouthot, Portfolio Manager | NEI Money Market Fund NEI Fixed Income Pool | Works closely with his colleagues in active management to seize short and medium-term opportunities that add value for clients |
| Anthony Salvatore, Portfolio Manager and Trader | NEI Money Market Fund NEI Fixed Income Pool | Responsible for managing all money market mandates and treasury management for both bond and equity mandates. Additionally, he is responsible for executing orders on the currency and derivatives markets and bond orders on the primary and secondary markets |

The investment decisions of the individuals listed above made on behalf of DGAM are not subject to the oversight, approval or ratification of any committee.

The Sub-Advisor Agreement between NEI Investments and DGAM provides that it may be terminated on 90 days' prior written notice given by NEI Investments or 90 days' prior written notice given by DGAM. NEI Investments also has the right to terminate the agreement immediately if DGAM commits certain acts or fails to perform its duties under the agreement.

Ecofin Advisors Limited London, United Kingdom

Ecofin Advisors Limited ("Ecofin") has been appointed as Portfolio Sub-Advisor to provide investment management services to the Manager in respect of NEI Clean Infrastructure Fund pursuant to a Sub-Advisor Agreement dated February 18, 2022.

| Name and Title | Fund | Role in Investment Decision-Making Process |
|--|-------------------------------|---|

Portfolios. Mr. McIntosh holds equity in the firm.

The investment decisions of the individuals listed above made on behalf of River Road are not subject to the oversight, approval or ratification of any committee.

The Sub-Advisor Agreement between NEI Investments and River Road provides that it may be terminated on 90 days' prior written notice given by NEI Investments or 90 days' prior written notice given by River Road. NEI Investments also has the right to terminate the agreement immediately if River Road commits certain acts or fails to perform its duties under the agreement.

Wellington Management Canada ULC Toronto, ON

Wellington Management Canada ULC ("Wellington Management") has been appointed as Portfolio Sub-Advisor to provide investment management services to the Manager in respect of NEI Global Impact Bond Fund pursuant to a Sub-Advisor Agreement dated May 25, 2020.

| Name and Title | Fund | Role in Investment Decision-Making Process |
|----------------|------|--|
|----------------|------|--|

Campe Goodman, Senior
Managing Director, Partner

NEI Global Impact Bond Fund

Fixed Income Portfolio Manager on the Broad Markets Team and lead portfolio manager on the Multi Sector Credit and Impact Bond portfolios. His focus is sector rotation — asset allocation across the major fixed income sectors — and he leads the specialist team responsible for the development of the top-down sector rotation strategy that is utilized in the Core Bond, Core Bond Plus, Impact Bond, Intermediate Bond, Long Bond, and Multi Sector Credit portfolios

The investment decisions of the individuals listed above made on behalf of Wellington Management are not subject to the oversight, approval or ratification of any committee.

The Sub-Advisor Agreement between NEI Investments and Wellington Management provides that it may be terminated on 90 days' prior written notice given by NEI Investments or 90 days' prior written notice given by Wellington Management. NEI Investments also has the right to terminate the agreement immediately if Wellington Management commits certain acts or fails to perform its duties under the agreement.

Brokerage Arrangements

The policy of the Manager is that the purchase and sale of portfolio securities for the Funds are transacted through a number of registered brokers and dealers on the basis of the assessment of the following factors:

1. The ability of the registered broker or dealer to execute transactions promptly and on favourable terms.
2. The quality and value of investment decision making goods and services provided to the Funds by the registered broker or dealer. Investment decision making services include the provision of advice, valuations, research, and related data and software used in assessing potential investments.
3. The Manager receives from each Portfolio Manager and Portfolio Sub-Advisor to the Funds, at least annually, disclosure of any brokerage transactions that may have been directed to a dealer in return for the provision of any good or service provided by the dealer as prescribed by National Instrument 23-102 Use of Client Brokerage Commissions.
4. Brokerage decisions are made by the respective Portfolio Manager or Portfolio Sub-Advisor.

The process for allocation of brokerage business is the same as described above for dealers that are affiliated entities.

Since June 29, 2022, the following types of goods or services, other than order execution, have been provided to the Portfolio Manager or Portfolio Sub-Advisors: advice, valuations, research, and related data and software used in assessing potential investments.

Desjardins Global Asset Management receives goods and services from an affiliated firm, Desjardins Securities Inc.

The names of the dealers which have provided such goods or services are available by contacting the Manager at 1-888-809-3333 if you are outside the Toronto area or 416-594-6633 in the Toronto area, or by e-mail at clientservices@neiinvestments.com.

Principal Distributor

The principal distributor for NEI Investments is Credential Asset Management Inc. located at Suite 700, 1111 W Georgia St, Vancouver, British Columbia, V6E 4T6. The principal distributor markets the Funds and sells them through Mutual Funds Investment Dealers at credit unions across the country. Credential Asset Management Inc. and NEI Investments are wholly-owned subsidiaries of Aviso. Aviso is a wholly-owned subsidiary of Aviso Wealth LP, which in turn is owned 50% by Desjardins and 50% by a limited partnership owned by the Centrals and The CUMIS Group Limited. Aviso Wealth GP Inc. is the general partner of Aviso Wealth LP. For more details about the master distributorship agreement, please see the “*Material Contracts*” section on pages 35 to 36.

Directors, Executive Officers, & Trustee

The Manager is the trustee of the Funds and is located in Toronto. Details about the directors and executive officers of the Manager are listed under the sub-heading “Directors and Executive Officers” above.

Custodian

Desjardins Trust Inc. is the custodian (the “Custodian”) of the portfolio of each of the Funds pursuant to a custodian agreement dated April 19, 2004 as amended originally between Northwest Mutual Funds Inc. and Desjardins Trust Inc. and assigned to the Manager by the Contribution Agreement (the “Custody Agreement”). Pursuant to the Custody Agreement, the cash and securities of the Funds are held at the Custodian’s principal place of business situated at 1 Complexe Desjardins, Montréal, Québec, H5B 1E4, except for securities held by a domestic or foreign depository or clearing agency authorized to operate a national or transactional book-based system.

If the portfolio securities are acquired in any foreign market, they are kept at the offices of the sub-custodian appointed in the jurisdiction in which such market is situated. The sub-custodian for securities acquired in any foreign market is State Street Trust Company Canada, 770 Sherbrooke Street West, Montréal, Québec, Canada.

Any other foreign sub-custodian will be appointed by or under the authority of the Custodian, based upon a variety of factors, including reliability as a custodian, financial stability and compliance with applicable regulatory requirements.

Either party may at any time terminate the Custody Agreement without penalty by giving at least 60 days’ notice to the other party of such termination; provided that the Custody Agreement may be terminated immediately by a party by notice in writing to the other if:

- a. the other party ceases to carry on business, becomes bankrupt or insolvent, resolves to wind up or liquidate or if a receiver of its assets is appointed and is not discharged within 30 days, or proceedings of a receiver for that party are commenced and not discontinued within 30 days;
- b. or if the Custodian ceases to be qualified to act as a custodian of mutual fund assets under the provisions of NI 81-102

Auditor

The auditor of the Funds is Ernst & Young LLP, in Toronto, Ontario. The auditor is independent of the Funds in accordance with the rules of professional conduct of the Chartered Professional Accountants of Ontario.

Registrar

The Manager is the Funds’ registrar. The register of securities is kept at the offices of the Manager’s agent, Fiducie Desjardins Trust, 1 Complexe Desjardins, Montreal, H5B 1E4, CA.

The registrar keeps track of the owners of units of each of the Funds and processes purchase, switch, conversion and redemption orders, issues investor account statements and issues annual tax reporting information, if applicable. Northwest & Ethical Investments L.P. may outsource these registrar services.

Securities Lending Agent

Desjardins Trust Inc. has physical custody of the Funds’ property and acts as the Funds’ securities lending agent. The principal office of Desjardins Trust Inc. is 1 Complexe Desjardins, Montreal, H5B 1E4, CA. For more details about the securities lending agreement, please see the “*Material Contracts*” section on pages 35 to 36.

Certain Funds may enter into securities lending transactions to generate additional income from securities held in that Fund’s portfolio, in a manner that is consistent with the Fund’s investment strategies and as permitted by securities law. In a securities lending transaction, a Fund will loan securities it holds in its

portfolio to a borrower in exchange for a fee. A Fund may lend securities held in its portfolio to qualified borrowers who provide adequate collateral. The borrower of the securities must provide collateral permitted by the Canadian Securities Administrators worth at least 102% of the value of the securities loaned. If the borrower to these transactions becomes insolvent or otherwise cannot fulfill its agreement, the applicable Fund may suffer losses. For example, a Fund risks losing securities it lends to a borrower if the borrower is unable to fulfill its promise to return the securities or settle the transaction and the collateral that has been provided is inadequate. To the extent the Fund accepts cash collateral and invests such cash collateral, such Fund assumes any market or investment risk of loss with respect to the investment of such cash collateral. If the value of the cash collateral so invested is insufficient to return any and all amounts due to the borrower, the Fund is responsible for such shortfall.

Please refer to each individual Fund description in Part B of this simplified prospectus to see if a Fund may engage in securities lending.

The securities lending agent of the Funds is identified above. Please see “*Custodian*” section above for further details.

Independent Review Committee and Fund Governance

Independent Review Committee

In accordance with National Instrument 81-107 Independent Review Committee for Investment Funds (“NI 81-107”) an independent review committee (“IRC”) has been appointed for the Funds. The IRC mandate is to review and provide recommendations or approval, as required, on conflict of interest matters referred to it by the Manager on behalf of the Funds. The IRC is responsible for overseeing the Manager’s decisions in situations where the Manager is faced with any present or perceived conflicts of interest, all in accordance with NI 81-107. The IRC is composed of three members, Marie Rounding (Chair), W. William Woods, and Michele McCarthy who are independent of the Manager, the Funds and entities related to the Manager.

The Manager has established policies and procedures that it must follow before proceeding with a conflict of interest matter or any other matter, that securities legislation requires regarding its duties under securities legislation and refer such policies and procedures to the IRC for its review and input.

The IRC reviews conflict of interest matters referred to it by the Manager relating to the operations of the Funds.

Before the Manager may proceed with a matter related to a Fund giving rise to a conflict of interest, the IRC must provide a recommendation to the Manager as to whether the proposed action provides a fair and reasonable result for the Fund. The Manager must consider the recommendation of the IRC and in the event that the Manager intends to proceed with the matter, in circumstances where the IRC has not given a favourable recommendation, the Manager must notify the IRC in writing of this intention before proceeding with the action. In such circumstances the IRC can require the Manager to notify the Fund’s unitholders of its decision.

For recurring conflict of interest matters the IRC can provide the Manager with standing instructions. The Manager must report to the IRC at least annually and provide information to the IRC with respect to each instance in which it acted in reliance on a standing instruction.

The IRC may also approve certain reorganizations between a Fund and other funds, and any change of the auditor of a Fund. Subject to any corporate and securities law requirements, no unitholder approval will be obtained in such circumstances, but you will be sent a written notice at least 60 days before the effective date of any such transaction or change of auditor. In certain circumstances, unitholder approval may be required to approve certain reorganizations. Please see “*Matters Requiring Unitholder Approval*” section below for further details.

The IRC has adopted a written charter that includes its mandate, responsibilities and functions, and the policies and procedures it will follow when performing its functions.

The IRC is composed of persons who are independent of the Manager, the Funds and entities related to the Manager. The costs associated with the IRC will form part of the operating expenses of the Funds.

The IRC prepares at least annually a report of its activities for unitholders which is available on the Funds' designated website at www.neiinvestments.com, or at a unitholder's request at no cost by contacting the Manager at neiclientservices@neiinvestments.com or by calling 1-888-809-3333.

Fund Governance

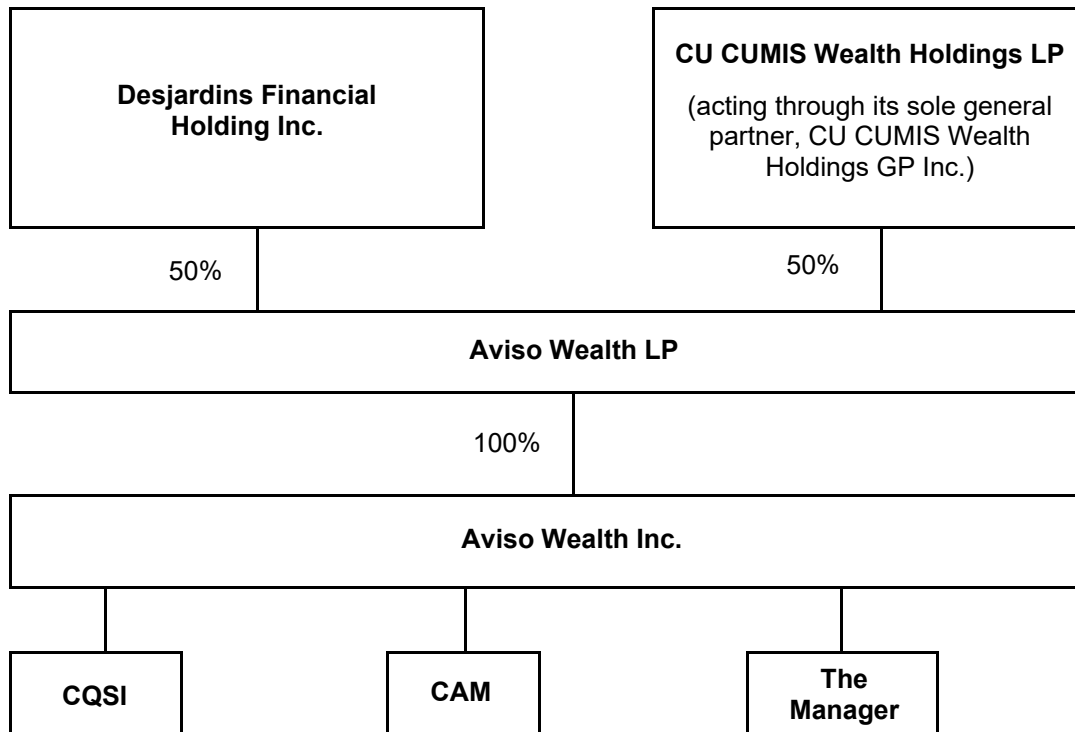

The Manager is ultimately responsible for fund governance, which is the responsibility of the board of directors of the Manager's general partner. Currently, the board of directors of the general partner of the Manager consists of ten individuals. None of the members of the board are independent as each is a member of the management of the general partner of the Manager. Details of the members of the board of the general partner of the Manager are described on page 5.

Code of Conduct

Aviso has a Code of Business Conduct (the "Code") which applies to all of its employees (including those of the Manager) and which has been provided to all of the Portfolio Sub-Advisors with the request that their employees comply therewith. The Code is in place to ensure that all employees of the Manager and the Portfolio Sub-Advisors are working with the sole purpose of doing what is best for the clients with no real or perceived conflicts of interest. The Code provides mandatory policies in respect of the conduct of business including conflicts of interest, privacy and confidentiality.

Affiliated Entities

Northwest & Ethical Investments Inc., the general partner of NEI Investments, is a wholly-owned subsidiary of Aviso Wealth Inc. ("Aviso"). Aviso is the sole limited partner of the Manager. Aviso is a wholly-owned subsidiary of Aviso Wealth LP, which in turn is owned 50% by Desjardins and 50% by a limited partnership owned by the five Provincial Credit Union Centrals and The CUMIS Group Limited ("CU CUMIS Wealth Holdings LP"). Aviso Wealth GP Inc. is the general partner of Aviso Wealth LP. Credential Asset Management Inc. ("CAM") and Credential Qtrade Securities Inc. ("CQSI") are affiliated entities of the Manager. The relationship between the Manager and its affiliates is shown below. The amount of fees received from a Fund by these entities each year is disclosed in the Fund's audited annual financial statements.

In addition to acting as directors and officers of the Manager, Mr. Packham, Mr. Ancrum, Ms. Evans, Ms. Lalani, Ms. Frisk, Mr. Hori, Ms. Zalzal, Mr. Prescott, Mr. Nicholson, and Ms. Gentles are all officers of Aviso, and directors and officers of CQSI* and CAM (*Ms. Evans, Ms. Zalzal, Mr. Hori, Mr. Nicholson, and Ms. Gentles are not directors or officers of CQSI).

Policies and Practices

Derivatives Practices

To the extent that the Funds use derivatives, the Portfolio Managers and Portfolio Sub-Advisors will be responsible to ensure that derivatives used will be consistent with the applicable investment objectives and restrictions of the Funds and conform to the requirements of NI 81-102. Derivative transactions for the Funds may be initiated only by authorized investment personnel approved by senior management who ensure that these individuals have the necessary proficiency and experience to use derivatives. As in the case of other portfolio transactions, all derivative transactions for the Funds must be recorded on a real time basis and immediately reflected in the Funds' portfolio management records. Derivative positions will be monitored daily to ensure compliance with all regulatory requirements, including cash cover requirements.

Short Selling Practices

To the extent that a Fund engages in short selling, the Portfolio Manager or Portfolio Sub-Advisor will be responsible to ensure that the use of short selling is consistent with the applicable investment objectives and restrictions of the Fund, follows controls and restrictions as per the Manager's written policies and procedures and conforms to the requirements of NI 81-102. The risks involved in short selling and the applicable Fund's investment strategies regarding short selling are disclosed in the simplified prospectus.

Short selling transactions for the Funds may be initiated only by authorized investment personnel approved by senior management who ensure that these individuals have the necessary proficiency and

experience to engage in short selling. As in the case of other portfolio transactions, all short selling transactions for the Funds must be recorded on a real time basis and immediately reflected in the Funds' portfolio management records. Short sale positions will be monitored daily to ensure compliance with all regulatory requirements, including cash cover requirements.

Securities Lending Practices

Securities lending transactions are subject to the requirements of the Canadian Securities Administrators and the agreement that we have entered into with our securities lending agent. These requirements are designed to minimize risk and they include the following:

- The Manager may lend Canadian and U.S. securities in a manner that is consistent with the Fund's investment strategies and as permitted by securities law, in which case it will aim to recall all loaned securities by the record date for the purpose of voting.
- The borrower of the securities must provide collateral permitted by the Canadian Securities Administrators worth at least 102% of the value of the securities loaned.
- The Funds will only deal with borrowers who have been approved by the Manager and the securities lending agent and the borrowers will be subject to transaction and credit limits.
- No more than 50% of a Fund's net asset value may be loaned in such transactions.
- The value of the securities and collateral will be monitored daily.
- The Fund may only invest the cash collateral in qualifying securities (such as Canadian and U.S. government debt securities and debt securities with a prescribed credit rating) having a remaining term to maturity of no more than 90 days.
- If a borrower fails to return securities, our securities lending agent will pay to the Fund the market value of those securities.
- Internal controls, procedures and records will be maintained.
- Securities lending transactions may be terminated at any time.

Proxy Voting Guidelines

The Manager believes that a core part of its mandate as a responsible investor is to diligently vote the proxies it holds on behalf of Fund unitholders. The Manager has established Proxy Voting Guidelines (the "Guidelines") which serve as the basis on which the voting rights related to securities held in the Funds' are to be exercised.

Although the Manager cannot foresee every proxy item, the Guidelines reflect general principles that will guide the Manager's voting decisions regarding typical ballot items such as director elections, ratification of auditors, executive compensation, as well as management and shareholder proposals. The Manager's voting decisions are intended to promote good corporate governance practices and to support proposals that, in the Manager's view, are likely to contribute to building long-term sustainable value for all stakeholders.

The Manager has staff dedicated to overseeing the proxy voting process (the "Proxy Voting Staff"). The Manager also retains an external proxy advisor to assist with proxy voting analysis and implementation. The external proxy advisor receives all proxy materials, formulates voting recommendations in accordance with the Guidelines and conveys these recommendations to the Manager for review. The Manager makes the final voting decision based on the Guidelines and its own internal analysis, which may differ from the external proxy advisor's recommendations. Portfolio Sub-Advisors retained by the Manager generally do not exercise proxy voting authority. However, for voting decisions on mergers and acquisitions, the Manager may consult with the relevant Portfolio Sub-Advisor(s) to ensure that the proposed transactions are in the best interest of the unitholders from both a financial and ESG

perspective. The final voting decision is then conveyed to the issuer via the external proxy advisor, which also provides the Manager with records of all votes.

The Guidelines describe the Manager's approach to actual, potential or perceived conflicts of interest that may arise from time to time in the process of voting. To address potential conflicts of interest, only Proxy Voting Staff make proxy voting decisions on behalf of the Manager. Proxy Voting Staff must disclose at regular proxy voting meetings if they have a potential personal conflict of interest, in which case they must recuse themselves from voting the securities of that company. Where the Manager holds shares in a company to which the Manager provides or from which it receives portfolio-management related services (including ESG services or sub-advisory services), Proxy Voting Staff will either vote according to the recommendations of the external proxy advisor based on its interpretation of the Guidelines, or abstain if there are reasons to believe the Guidelines have been misinterpreted or misapplied by the external proxy advisor.

The Guidelines are used to inform voting decisions in any market, but they are explicitly and most often applied to voting proxies in Canada and the U.S. In other markets, the Manager generally aligns its international voting with its understanding of local good governance practices that are reflected in the market-specific guidelines of its external proxy advisor. The Manager may also address contentious items in international markets on a case-by-case basis.

In principle, all proxies are voted for Canadian and U.S. holdings. The Manager cannot guarantee the ability to always vote shares of companies domiciled outside Canada and the U.S. due to technical or practical restrictions on voting in various countries. For markets imposing shareblocking restrictions, the Manager may, after consulting the relevant Portfolio Sub-Advisor(s), abstain from voting proxies when retaining the ability to trade shares during the shareblocking period is deemed to be in the best interest of the unitholders.

The Guidelines are available on the Manager's designated website at www.neiinvestments.com or by request at no cost by calling 1-888-809-3333 or by writing to Funds Customer Service at Northwest & Ethical Investments L.P., 151 Yonge Street, 12th Floor, Toronto, Ontario, M5C 2W7.

The Funds' historical proxy voting records are accessible from the Manager's website. Voting rationale is made available shortly after votes are cast.

Remuneration of Directors, Officers and Trustees

The Funds do not have officers and directors. Northwest & Ethical Investments L.P., as trustee of the Funds, is not entitled to any remuneration.

The IRC was created effective May 1, 2007. The individual IRC members are compensated by way of an annual retainer fee as well as being reimbursed for expenses associated with IRC duties. These costs are allocated amongst the Funds in a manner that is fair and reasonable. For the financial year ended September 30, 2022 total compensation paid by the Funds to the IRC members was as outlined below. No expenses were reimbursed. The individual members were compensated as follows:

| Name | Total Compensation |
|------------------|--------------------|
| Marie Rounding | \$34,000 |
| Michele McCarthy | \$28,000 |
| W. William Woods | \$28,000 |
| Aggregate Amount | \$90,000 |

Material Contracts

The material contracts of the Funds are as follows:

- **Declarations of Trust**

The Funds, other than the Specified Funds, were formed under the laws of Ontario and are governed by an amended and restated master declaration of trust dated June 26, 2014, as amended from time to time bearing the formation dates set out below. The Specified Funds were formed under the laws of Ontario pursuant to an amended and restated master declaration of trust dated October 26, 2018, as amended from time to time. Each declaration of trust is referred to herein as a “Declaration of Trust”. Each Declaration of Trust permits the Funds to issue more than one series of units (the purpose of any multiple series of units being to provide various management fee structures, distribution payments, dealer compensation packages, or investment options to investors).

- **Management Agreement** (see page 5);

The amended and restated management agreement between the Trustee and the Manager dated January 1, 2015, and subsequent amendments, sets out the responsibilities of the Manager to the Funds.

The Management Agreement may be terminated by the Trustee or the Manager with at least 60 days’ prior written notice to the other party. Either party also has the right to terminate the agreement immediately if the other party commits certain acts or fails to perform its duties under the agreement.

- **Portfolio Management Agreement** (see pages 6 and 10);

The Manager has been appointed portfolio manager of the Funds pursuant to an amended and restated portfolio management contract between Northwest Asset Management Inc., Northwest Mutual Funds Inc. and the Funds dated June 4, 2004, as amended, and as assigned to the Manager by the Contribution Agreement sets out the responsibilities of the portfolio manager to the Funds. The Portfolio Management Agreement may be terminated by the Manager or the portfolio manager with at least 60 days’ prior written notice to the other party. The Manager also has the right to terminate the agreement immediately if the portfolio manager commits certain acts or fails to perform its duties under the agreement.

- **Sub-Advisor Agreements** (see pages 10 and 28);

The Sub-Advisor Agreements between the Manager and various Portfolio Sub-Advisors outline that the investment management services to the Manager in respect of certain Funds. For more details about each Sub-Advisor Agreement see pages 10 and 28.

- **Custody Agreement** (see page 29).

The Custody Agreement between the Funds, the Manager and the Custodian dated 19 April 2004, and subsequent amendments, sets out the custodial services to be performed by the Custodian. The Custody Agreement may be terminated by each party with at least 90 days’ prior written notice to the other party. Each party also has the right to terminate the agreement immediately if the other party commits certain acts or fails to perform its duties under the agreement.

- **Master Distributorship Agreement**

The master distributorship agreement between the Manager and Credential Asset Management Inc. dated 31 March 2013, and subsequent amendments, sets out the appointment of Credential Asset Management Inc. as principal distributor of the Funds and the distribution services to be performed by Credential Asset Management Inc. The master distributorship agreement may be terminated by each party with 90 days’ prior written notice to the other party. Each party also has the right to terminate the agreement immediately if the other party commits certain acts or fails to perform its duties under the agreement.

- **Unitholder Recordkeeping and Administration Services Agreement**

The Unitholder Recordkeeping and Administration Services Agreement between the Funds, the Manager and Fiducie Desjardins Trust Inc. dated 11 April 2009, and subsequent amendments, sets out the recordkeeping and administration services relating to the unitholders of the Funds to be performed by

Fiducie Desjardins Trust Inc. The Unitholder Recordkeeping and Administration Services Agreement may be terminated by each party with at least 180 days' prior written notice to the other party. Each party also has the right to terminate the agreement immediately if the other party commits certain acts or commits a material breach under the agreement and fails to remedy such breach within 60 days after written notice to remedy such breach has been provided.

- **Fund Accounting, Valuation and Reporting Agreement**

The Fund Accounting Agreement between the Funds, the Manager and Fiducie Desjardins Trust Inc. dated 1 January 2009, and subsequent amendments, sets out the accounting services in relation to the Funds to be performed by Fiducie Desjardins Trust Inc. The Fund Accounting Agreement may be terminated by each party with at least 180 days' prior written notice to the other party. Each party also has the right to terminate the agreement immediately if the other party commits certain acts or commits a material breach under the agreement and fails to remedy such breach within 60 days after written notice to remedy such breach has been provided.

- **Securities Lending Agreement**

The Agreement for Participation in Desjardins Trust's Securities Lending Program between the Manager and Desjardins Trust Inc. dated 1 June 2020 sets out the terms of the participation of the Funds in the securities lending program offered by Desjardins Trust Inc. The agreement may be terminated by each party with at least 30 days' prior written notice to the other party.

Copies of these agreements may be inspected at the head office of the Funds during normal business hours by prospective and existing unitholders.

Legal Proceedings

There are no material legal proceedings to which the Funds, Northwest & Ethical Investments L.P. or Credential Asset Management Inc. is a party.

Designated Website

A mutual fund is required to post certain regulatory disclosure documents on a designated website. The designated website(s) of the mutual fund(s) this document pertains to can be found at www.neiinvestments.com.

Valuation of Portfolio Securities

The net asset value per unit of each series of a Fund, for all purposes other than financial statements, is calculated using the valuation principles below. For financial reporting purposes, the Funds apply International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board to prepare their annual and interim financial statements. The valuation principles used to determine the NAV for purchases and redemptions by unitholders may differ in some respects from the requirements of IFRS. As a result, the Series NAV per Unit presented in the financial statements may differ from the Series NAV per Unit for the purpose of purchases and redemptions of units of the Funds.

The following principles are applied in the valuation of the portfolios securities of the Funds:

1. Cash on hand or on deposit, bills, notes, accounts receivable and prepaid expenses are valued at their full face value amount unless the Manager has determined that any of these assets is not worth the full amount, in which event the value shall be determined to be the value the Manager reasonably deems to be the fair value;
2. Bonds, debentures, notes and other such instruments are valued by taking the average between the bid and ask quotation or the bid quotation, depending on the circumstances, as of the valuation date;

3. Stocks listed on a recognized stock exchange are valued at the closing sale price applicable to a board lot as of the applicable valuation date; in the event that no sale has taken place, the last published sale price or the average between the bid and ask prices is used, whichever, in the opinion of the Manager, most fairly reflects the actual market value. Stocks not listed on any stock exchange are valued at the average of bid and ask quotations as of the applicable valuation date. The value of securities not so traded is determined on the basis of over-the-counter quotations, if available, or by such other method as is deemed by the Manager to reflect fair market value;
4. If securities are traded on more than one exchange, the Manager must determine which exchange constitutes the principal market for the trading of those securities and must use the trading prices on that exchange or market for their valuation; if no bid or sale price is available, the Manager must take into consideration the last sale price and make a valuation which is fair and reasonable;
5. Amounts of interest accrued but not yet received, dividends having an ex-dividend date prior to the applicable valuation date but not yet received as well as other sums which a Fund will receive are added to the assets;
6. For options written by the Fund:
 - a. The premium received by the Fund for these options shall be reflected as a deferred credit that shall be valued at an amount equal to the current market value of the options that would have the effect of closing the position;
 - b. Any difference resulting from revaluation shall be treated as an unrealized gain or loss on investment;
 - c. The deferred credit shall be deducted in arriving at the net asset value for each series of units of the Fund; and
 - d. Any securities that are the subject of a written option shall be valued at their current market value in the manner described above for listed securities;
7. Securities which a Fund has agreed to buy or sell are included or excluded, as the case may be, as if the transaction had effectively been completed;
8. Discounted securities issued without interest are appraised according to the market. The difference between the cost and the amount to be received at maturity is amortized using the declining balance amortization method at a fixed rate at each valuation date. This amortization is credited directly to the income of the Fund. The difference between the cost and the value at maturity is allotted amongst the unitholders in the form of income;
9. The value of any security, the resale of which is restricted or limited by reason of a representation, undertaking or agreement by the Fund or by the Fund's predecessor in title, shall be the value which the Manager considers fair and reasonable in the circumstances;
10. A long position in an option or a debt-like security is valued at the current market value of the position;
11. The value of any derivative, the investment in which or the use of which is permitted by Canadian securities legislation together with any premium received or margin paid or deposited with respect thereto, shall be determined in accordance with Canadian securities legislation;
12. If an investment cannot be valued under the foregoing rules or under any other valuation rules adopted under securities legislation or if any rules adopted by the Manager but not set out under securities legislation are at any time considered by the Manager to be inappropriate under the circumstances, then the Manager shall use a valuation which it considers fair and reasonable in the interests of investors of the Fund;
13. Values calculated in accordance with the foregoing principles in foreign currencies are translated into Canadian dollars at the prevailing rate of exchange on the applicable valuation date;

14. Values of the securities of other investment funds other than exchange-traded funds will be the series net asset value per security on that day or, if the day is not a valuation day of the mutual fund, the series net asset value per security on the most recent valuation day for the mutual fund; and
15. The liabilities of the Funds shall include:
 - a. all bills, notes and accounts payable of which the Fund is an obligor;
 - b. all administrative or operating expenses payable or accrued or both (including management fees);
 - c. all contractual obligations for the payment of money or property, including the amount of any unpaid distribution credited to unitholders of the Fund on or before Valuation Date;
 - d. all allowances authorized or approved by the Manager for taxes (if any) or contingencies; and
 - e. all other liabilities of the fund of whatsoever kind and nature, except liabilities represented by outstanding units of the Fund.

For greater certainty, if at any time the foregoing rules conflict with the valuation rules adopted under securities legislation, the Manager shall use the valuation rules required under securities legislation. The Manager has not exercised its discretion to deviate from the valuation principles set forth above in the preceding three years.

Calculation of Net Asset Value

The net asset value per unit for all purposes other than financial statements (the “Unit Value”) for each series of units of a Fund is calculated by the Manager after 4:00 p.m. (Eastern time) on each day that the Toronto Stock Exchange is open for trading, but in some circumstances we may calculate it at another time. The net asset value of the Funds and the Unit Value for each series of units of a Fund is available, at no cost, on our designate website at www.neiinvestments.com or by contacting the Manager by calling toll-free 1-888-809-3333 or by e-mail at neiclientservices@neiinvestments.com.

It is the Manager’s intention to maintain the Unit Value of units of the NEI Money Market Fund as near as possible at \$10. The Manager seeks to achieve this by calculating and allocating realized net income daily, distributing realized net income on a monthly basis to investors, distributing capital gains, if any, prior to the end of the year to investors, and by investing in short-term securities to seek only minor price fluctuations in portfolio securities.

The net asset value for each series of units is calculated by taking the series’ proportionate share of a Fund’s common assets less common liabilities and deducting from this amount all liabilities that relate solely to a specific series. The Unit Value for each series of units is derived by dividing the net asset value for each series of units by the total number of series units outstanding. The Unit Value so determined at any time will remain in effect until the next such determination. The price used for purchases, conversions, switches (which include both a redemption and a purchase) or redemptions (before deduction of any redemption fee payable by an investor as described under “*Purchases, Switches, and Redemptions*”) of each unit of each series will be the Unit Value of the series, determined in the manner described below, as of the applicable valuation date.

Purchases, Switches, and Redemptions

How to Purchase, Switch, Convert and Redeem Units of the funds

You can purchase, switch, convert and redeem units of the Funds by contacting your Mutual Funds Investment Dealer or representative at your dealer. NEI Investments is not liable for the recommendations given to you by your Mutual Funds Investment Dealer or representative at your dealer.

NEI Investments does not monitor the appropriateness of any series of Funds for any investor and makes no determination as to the appropriateness of any series of Funds for any investor, including investors who hold Funds in a discount brokerage account. Once you place your order to purchase, switch, convert or redeem units, your Mutual Funds Investment Dealer or representative at your dealer will transmit the order to us as soon as possible.

All Funds are offered for sale in Canadian dollars only.

Under exceptional circumstances, a mutual fund may suspend redemptions of units. Please see “Redemptions” on pages 47 to 48

Series Eligibility

Each of the Funds has multiple series of units and is permitted to issue an unlimited number of units of each series as indicated in the table below. Each series is intended for different kinds of investors and has different fees and expenses. It is the responsibility of the dealer to recommend the most suitable series for you. See “Fees and Expenses” on pages 50 to 59 and “Dealer Compensation” on pages 59 to 63.

Series A units, Series F units, Series I units, Series O units, Series P units, Series PF units, Series W units, and Series WF units are each targeted to a specific type of investor, as described below. All new units that you receive on reinvestment of distributions or which are purchased under this prospectus will have the attributes described below. In certain cases, investors that fail to meet certain criteria associated

with a particular Series may be asked or required to switch to a more appropriate Series of the same Fund.

| Series | Description |
|----------------|---|
| Series A units | Investors purchasing on a front-end sales charge option basis. |
| Series F units | <p>Investors participating in programs that do not require the payment of sales charges by investors and do not require the payment of trailing commissions to investment professionals or dealers from us and whose dealer has entered into a Dealer Agreement with us. For these investors, we are able to charge a lower management fee.</p> <p>Potential investors of this type include clients of discount brokerage platforms; clients of “fee-for-service” financial advisors, clients invested in dealer-sponsored “wrap accounts”; and any other clients who pay a fee to their dealer or investment professional instead of transactional sales charges, and whose advisor firm does not receive trailing commissions from the manufacturer.</p> |
| Series I units | <p>Institutional or other high net worth investors who meet any criteria we may establish from time to time and negotiate and pay management fees directly to the Manager. Investors who purchase Series I units must enter into an agreement with us which identifies the management fee negotiated with the investor and payable by the investor directly to us. The Series I management fee will in no circumstances be higher than the management fee payable on Series A units of the Fund.</p> <p>These investors may also pay fees to their dealer, which they negotiate directly with their dealer.</p> |
| Series O units | <p>Investors, which may include dealer-sponsored wrap-programs or portfolios that make large initial allocations to the Funds and are approved by us from time to time, who make large investments in a Fund and meet any eligibility criteria which we may establish from time to time. Investors who purchase Series O units must enter into an agreement with us which identifies the management fee negotiated with the investor and payable by the investor directly to us. The Series O management fee will in no circumstances be higher than the management fee payable on Series A units of the Fund. No sales commissions or trailing commissions are payable by us to a dealer for investments in Series O units.</p> <p>These investors may also pay fees to their dealer, which they negotiate directly with their dealer.</p> |
| Series P units | Investors or discretionary managed accounts of an advisor holding individually or in aggregate (in the case of discretionary managed accounts only) at least \$100,000 investment in NEI Funds and whose dealer has entered into a Dealer Agreement with us. Series P units may only be purchased on a front-end sales charge option basis. |

| Series | Description |
|-----------------|--|
| Series PF units | <p>Investors or discretionary managed accounts of an advisor holding individually or in aggregate (in the case of discretionary managed accounts only) at least \$100,000 investment in NEI Funds, participating in programs that do not require the payment of sales charges by investors and do not require the payment of trailing commissions to investment professionals or dealers from us and whose dealer has entered into a Dealer Agreement with us. For these investors, we are able to charge a lower management fee.</p> <p>Potential investors of this type include clients of discount brokerage platforms; clients of “fee-for-service” financial advisors, clients invested in dealer-sponsored “wrap accounts”; and any other clients who pay a fee to their dealer or investment professional instead of transactional sales charges, and whose advisor firm does not receive trailing commissions from the manufacturer.</p> |
| Series W units | <p>Investors making an initial investment in Series W units of an NEI Private Portfolio of at least \$100,000 and whose dealer has entered into a Dealer Agreement with us that provides for distribution of Series W units. Series W units may only be purchased on a front-end sales charge option basis. We may vary the initial investment criteria from time to time.</p> <p>Series W units are only available for NEI Private Portfolios.</p> |
| Series WF units | <p>Investors making an initial investment in Series WF units of an NEI Private Portfolio of at least \$100,000, participating in programs that do not require the payment of sales charges by investors and do not require the payment of trailing commissions to investment professionals or dealers from us and whose dealer has entered into a Dealer Agreement with us that provides for distribution of Series WF units. For these investors, we are able to charge a lower management fee. We may vary the initial investment criteria from time to time.</p> <p>Series WF units are only available for NEI Private Portfolios.</p> |

Although the money you and other investors pay to purchase units is tracked on a series by series basis in each Fund’s administrative records, the assets of each series of a Fund are combined into a single pool to create one portfolio for investment purposes for such Fund.

How We Process Your Purchase, Switch, Conversion or Redemption Order

The purchase, switch, conversion and redemption price of the units of a Fund is based on their NAV per series unit next determined after receipt by the Fund of your order. If we receive your order before 4:00 p.m. (Eastern time), your transaction will be processed at that day’s closing NAV per series unit. If we receive your order after 4:00 p.m. (Eastern time), your transaction will be processed at the NAV per series unit at the close of the next business day.

In the event that we determine that the NAV per series unit will be calculated at a time other than 4:00 p.m. (Eastern time) on a day that the Toronto Stock Exchange is open for business, the NAV per series unit that will be used to process the transaction will be determined relative to that time. Currently, all orders are processed within two business days (one business day for the NEI Money Market Fund).

We may accept or reject a purchase order within one business day of receiving it. If we accept your order, we or your dealer will send you a confirmation within seven days, which is your proof of the transaction. If you sign up for a pre-authorized payment plan (as described below under “Optional Services”), you will generally only receive confirmation of the first transaction made under the plan. If we reject your order, we will return any money we have received immediately, without interest.

If settlement of your transaction fails for any reason (for example, your cheque does not clear or your cheque is returned), we will cancel your order and sell the units. If we sell the units for more than you paid, the difference will go to the Fund. If we sell the units for less than you paid, you or your dealer may have to make up the difference, including any additional costs, expenses and lost interest.

We do not issue a certificate when you purchase units of a Fund, but you will receive a confirmation of the transaction. The account statement will be issued by us or by your dealer if your account is held in nominee name. A record of the number and series of units you own and their value appears on your account statement.

For the NEI Money Market Fund, we will enter an order for the purchase of units only upon receipt of cash, a cheque, a wire transfer, an official bank cheque or money order or an electronic funds transfer or other consideration acceptable to us. Units of the NEI Money Market Fund purchased will be entered and confirmed to the purchaser as credited to such purchaser’s account at the NAV per series unit next determined after receipt of payment. Please see “

Purchases” below.

Your initial investment in the Funds must be at least \$500 for all Funds, except for Series P, Series PF, Series W and Series WF units where the minimum initial purchase is \$100,000 by an investor or in the case of the Series P or Series PF units, discretionary managed accounts of an advisor.

Any subsequent purchase must be at least \$25 for any of the Funds. We may, at our sole discretion, waive or change the minimum purchase or subsequent purchase amounts from time to time without notice.

Where Series F and Series PF Securities of a fund are available and you currently hold another series of securities of the same fund, that pays trailing commissions, in an account at a discount brokerage, your existing securities will not be automatically switched into Series F or Series PF Securities. Should you wish to switch your existing series of securities of a fund into Series F or Series PF Securities, it is your sole responsibility to instruct your discount brokerage to do so.

Purchases

Your choice of purchase option affects the fees and sales charges you, or we, will pay to your dealer and the trailing commission we will pay to your dealer. See “*Fees and Expenses*” on pages 50 to 59 and “*Dealer Compensation*” on pages 59 to 63.

Series A units

Series A units are offered under a front-end sales charge option under which you pay a sales charge or commission to your dealer when you buy the units. You negotiate the rate of commission directly with your dealer, up to a maximum of 5%.

Previously, Series A units may have been offered under deferred sales charge, low load, low load 2 or low load 3 sales charge options. As many investors that made purchases under such options may still be subject to redemption charges under those options, the redemptions section of this prospectus contains

information relevant to those sales charge options. However, for a complete summary of those sales charge options, please refer to the prospectus under which those units were originally purchased for details about the dealer compensation and fees and expenses applicable to the relevant purchase option. If you no longer meet the requirement for holding Series A units, you may be asked or required to switch your investment into a more appropriate Series of the same Fund.

Series F units

No sales or redemption charges are payable by you to us on the purchase or sale of Series F units and we do not pay your dealer compensation on the purchase or sale of Series F units.

We are able to reduce our management fee rate on the Series F units for investors who participate in a dealer-sponsored program that does not require the unitholder to pay a sales or redemption charge on the purchase or redemption of Series F units, and that does not require us to pay a trailing commission to the dealer for assets held in Series F accounts. If we become aware that you are no longer eligible to hold Series F units because you no longer participate in such a program, we may convert your Series F units to Series A units of the same Fund after giving you 30 days' notice. We will not make this change if you or your dealer notifies us during the notice period that you are once again eligible to hold Series F units. When converting from Series F units to Series A units, your dealer may charge you a front-end sales charge or change your units into those which are subject to deferred sales charges.

We may also issue Series F units to other investors for whom we do not incur any distribution costs. If you no longer meet the requirement for holding Series F units, you may be asked or required to switch your investment into a more appropriate Series of the same Fund.

Series I units

Series I units are designed for institutional and other high net worth investors who are entitled to reduced management fees and operating expenses because of the lower cost of servicing large dollar investments in the Funds. We will negotiate the terms of purchase of Series I units directly with each investor, including any management fee. No sales or redemption charge is payable to us when you purchase or redeem Series I units; you will negotiate any sales charges directly with your dealer. We may, if requested by your dealer and agreed to by you in writing, agree to collect this fee on your dealer's behalf. You or your dealer are required to negotiate a contract for the purchase of Series I units before making an investment in such units. If you no longer meet the requirement for holding Series I units, you may be asked or required to switch your investment into a more appropriate Series of the same Fund.

Series O units

Series O units are designed for institutional and other investors who are eligible for reduced management fees because of the lower cost of servicing large dollar investments in the Funds. We will negotiate the terms of purchasing Series O units directly with investors, including any management fee. No sales or redemption charge is payable to us when you purchase or redeem Series O units; you will negotiate any sales charges directly with your dealer. You or your dealer are required to negotiate a contract for the purchase of Series O units before making an investment in such units. If you no longer meet the requirement for holding Series O units, you may be asked or required to switch your investment into a more appropriate Series of the same Fund.

Series P units

Series P units have a reduced overall cost, including a reduced management fee, compared to Series A units and are designed for investors or discretionary managed accounts of an advisor holding individually or in aggregate (in the case of discretionary managed accounts only) at least \$100,000 investment in NEI Funds and whose dealer has entered into a Dealer Agreement with us. Your Mutual Funds Investment Dealer is responsible to recommend the series most suitable to you. We will convert your Series A units

purchased or held under the front-end sales charge option and Series P units as described under “Preferred Pricing Program – Conversions Between Retail Series and Preferred Pricing Series”.

Series P units may only be purchased under the front-end sales charge option. If you no longer meet the requirement for holding Series P units, you may be asked or required to switch your investment into a more appropriate Series of the same Fund.

Series PF units

Series PF units have a reduced overall cost, including a reduced management fee, compared to Series F units and are designed for investors or discretionary managed accounts of an advisor holding individually or in aggregate (in the case of discretionary managed accounts only) at least \$100,000 investment in NEI Funds, participating in programs that do not require the payment of sales charges by investors and do not require the payment of trailing commissions to investment professionals or dealers from us and whose dealer has entered into a Dealer Agreement with us. Your Mutual Funds Investment Dealer is responsible to recommend the series most suitable to you. We will convert your Series F units and Series PF units as described under “Preferred Pricing Program – Conversions Between Retail Series and Preferred Pricing Series”.

No sales or redemption charges are payable by you to us on the purchase or sale of Series PF units and we do not pay your dealer compensation on the purchase or sale of Series PF units.

We are able to reduce our management fee rate on the Series PF units for investors who participate in a dealer-sponsored program that does not require the unitholder to pay a sales or redemption charge on the purchase or redemption of Series PF units, and that does not require us to pay a trailing commission to the dealer for assets held in Series PF accounts. If you no longer meet the requirement for holding Series PF units, you may be asked or required to switch your investment into a more appropriate Series of the same Fund.

Series W units

Series W units may be subject to a front-end sales charge under which you pay a sales charge or commission to your dealer when you buy the units. You negotiate the rate of commission directly with your dealer, up to a maximum of 5%. Series W units require an initial investment in NEI Private Portfolios of at least \$100,000. Should your investment in the NEI Private Portfolios fall below the amount of your initial investment due to a redemption, we reserve the right to redeem all of your Series W units on thirty (30) days written notice. We will not make this change if, during that thirty day period, you give us notice that you will take steps to ensure you continue to qualify to hold Series W units.

Series W units may only be purchased if we have entered into an agreement with your dealer to distribute such units. If you no longer meet the requirement for holding Series W units, you may be asked or required to switch your investment into a more appropriate Series of the same Fund.

Series WF units

No sales or redemption charges are payable by you to us on the purchase or sale of Series WF units and we do not pay your dealer compensation on the purchase or sale of Series WF units. Series WF units require an initial investment in NEI Private Portfolios of at least \$100,000. Should your investment in the NEI Private Portfolios fall below the amount of your initial investment due to a redemption, we reserve the right to redeem all of your Series WF units on thirty (30) days written notice. We will not make this change if, during that thirty day period, you give us notice that you will take steps to ensure you continue to qualify to hold Series WF units.

We are able to reduce our management fee rate on the Series WF units for investors who participate in a dealer-sponsored program that does not require the unitholder to pay a sales or redemption charge on the purchase or redemption of Series WF units, and that does not require us to pay a trailing commission to the dealer for assets held in Series WF accounts.

Series WF units may only be purchased if we have entered into an agreement with your dealer to distribute such units. If you no longer meet the requirement for holding Series WF units, you may be asked or required to switch your investment into a more appropriate Series of the same Fund.

Sales are effected through a principal distributor. For more details about the master distributorship agreement, please see the “*Material Contracts*” section on pages 35 to 36.

Switches

You can redeem units of one Fund to buy units of another Fund as long as you meet the minimum initial investment and minimum account balance requirements, as the case may be. The other Fund may not offer the same series as the Fund units of which you redeemed and the requirements to invest and costs of investing may vary between the Funds offered by us. This is called a switch. When we receive your order to switch, we will sell your units in the original Fund and use the proceeds to buy units of the other Fund.

You can switch from one Fund to another Fund (provided that your dealer is authorized to sell units of those Funds) or to any new mutual fund, which is created and offered by us after the date of this prospectus (provided that units of the new mutual fund have been qualified for sale in your province or territory of residence and your dealer is authorized to sell units of that fund) through your dealer who may charge you a switch fee. The switch fee is paid by a redemption of units of a Fund by the Manager immediately before the switch is made. In addition, if you switch units in excess of \$10,000 within 29 days of your original purchase, you may be subject to a short-term trading fee. Please see “*Fees And Expenses*” for details.

In some circumstances, you may switch units purchased under the deferred sales charge option, low load, low load 2, or low load 3 sales charge option for the same sales charge option units of another mutual fund managed by us without paying the applicable deferred sales charge; units acquired under one of these options cannot be switched for units with a different sales charge option, either of the same Fund or a different Fund. The deferred sales charge on the new units is based on the date and original purchase price of the units before the switch. Switching between mutual funds is a taxable event and will generally result in a capital gain or loss for tax purposes.

Conversions

You can convert from one series of units to another series of units of the same Fund, as long as you meet the minimum initial investment and minimum account balance requirements and your dealer is authorized to deal in those units, as the case may be. This is called a conversion.

You can convert from one series of units to another series of units of the same Fund through your dealer. Units originally acquired under the deferred sales charge option, low load, low load 2, or low load 3 sales charge option cannot be converted to another series while subject to a deferred sales charge. Units received on a conversion of units originally acquired under the deferred sales charge option, low load, low load 2 or low load 3 sales charge option which are converted following the expiration of the applicable deferred sales charge schedule will be held on the same terms as the units which were converted. When converting from Series F or Series PF units to Series A or Series P units, your dealer may charge you a front-end sales charge, and a similar charge may arise if you are converting between Series W and WF of the same Fund.

However, you may convert your annual free redemption amount (described under “*Fees And Expenses*” below) to the front-end sales charge option of a Fund in order not to lose that entitlement, since the free redemption amount cannot be carried forward to succeeding years. The self-regulatory organization your dealer belongs to has rules that apply to these types of conversions; your dealer must comply with the applicable rules. Your dealer is paid a higher trailing commission on units converted to the front-end sales charge option. Please see “*Dealer Compensation*” for details.

Your dealer may charge you a conversion fee which is paid by a redemption of units of a Fund by the Manager immediately before the conversion is made. Please see “*Fees And Expenses*” for details. However, you will not pay a conversion fee on NEI initiated conversions.

A conversion of units from one series to another series of the same Fund is generally not a disposition for tax purposes and consequently should not result in a capital gain or loss or other cost to a converting unitholder, except to the extent that units of the Fund are redeemed to pay any conversion fees owing by the unitholder.

Please note that provided the conditions set out below are met, we may, in our discretion or in response to regulatory requirements, convert your units of a Fund into units of another series of the same Fund.

We may only convert your units in this circumstance if all the following conditions are satisfied:

- You receive units of the same Fund of the same aggregate value;
- The management fee and fixed administration fee of the new series are not more than that of the series that you previously owned;
- The conversion is done at no cost to you;
- The conversion is not, in our reasonable determination, a disposition for tax purposes; and
- The trailing commissions payable to registered dealers, if any, remain the same or lower.

Redemptions

You may request a Fund to redeem (or sell) any or all of your units at any time. Redemption orders in respect of a Fund will be implemented based on the NAV per series unit determined as of the close of business on the day on which such orders are deemed received provided the order is received before the cut off time. If we receive your order after the cut off time, it will be processed on the following business day.

Payment for any units redeemed (including by reason of a mandatory redemption as described below), less all taxes required to be withheld and all applicable redemption charges will be made by the applicable Fund within two business days of the determination of the redemption price. If you redeem units in excess of \$10,000 within 29 days of your original purchase, you may be subject to a short-term trading fee. Please see “*Fees And Expenses*” for details.

Unless you request otherwise, your redemption proceeds will be sent to your dealer. If you so request, we will wire the redemption proceeds to a designated bank account on the day on which the redemption proceeds are made available by the applicable Fund to us.

If we do not receive all the documents required to complete your sale in ten business days, we will buy the same number of units you sold. If the purchase price is less than the sale price for the units, the applicable Fund is required by securities regulation to keep the difference. If the purchase price is greater than the sale price for the units, we are required to pay the Fund the difference, and will collect the difference from your dealer, who may then collect from you.

We reserve the right to redeem your units, in whole or in part, in certain circumstances. In most cases, we will provide you with advance notice before we take any action. The situations in which we may take this action are:

1. If the total you have invested in the Funds in a single account is less than \$500 dollars for any reason other than market movement, we may decide to redeem your holdings. We may not do this if you have other balances invested in the Funds in another accounts. We will only do this after providing you thirty (30) days advance notice.

2. If the total amount of your investment in one Fund is less than \$25 dollars, even if you have a larger investment in other NEI Funds, we may decide to redeem your holdings. We will only do this after providing you thirty (30) days advance notice.
3. If the total you have invested in the Funds in a single account is less than \$50 for any reason (whether due to market movements or other reasons), we may decide to redeem your holdings without any advance notice to you.

We also intend to observe all redemption policies that may be implemented from time to time by industry participants such as Fundserv, the provider of the transaction processing system used by most mutual funds in Canada.

Under exceptional circumstances, we may be unable to process your redemption order. This would most likely occur if market trading were suspended on stock exchanges where the Funds hold their investments. Payment of the redemption price of the units of a Fund that is subject to a redemption order may be postponed.

A Fund may suspend the calculation of the NAV per series unit and the redemption of its units in the following cases:

- For any period when normal trading is suspended on any stock exchange, options exchange or futures exchange on which securities are listed and traded, or on which derivatives are traded, which represent more than 50% in value or underlying market exposure of the total assets of the Fund, without allowance for liabilities (provided that such securities or derivatives are not traded on any other exchange that represents a reasonably practical alternative for the Fund); or
- If the Ontario Securities Commission authorizes such suspension.

If the right of redemption is suspended, a unitholder may either withdraw his or her redemption request or receive payment based on the NAV per series unit next determined after the end of the suspension. Such Fund will not be permitted to issue units during any period when the right to redeem units is suspended.

Short-Term Trading

Investors are discouraged from short-term trading. Short-term trading can harm a Fund's performance and the value of other investors' holdings in a Fund except in funds that are designed to be short term funds, such as NEI Money Market Fund, because such trading can increase brokerage and other administrative costs of a Fund and interfere with the investment decision making of the Fund's portfolio manager. Short-term trading may be particularly problematic when large sums are involved. Short-term trading can include purchasing and then redeeming or switching units of a Fund soon after purchasing or switching them.

We have policies and procedures to detect and deter short-term trading that include the ability to refuse your present or future order(s) to purchase or switch units.

If you switch or redeem units in excess of \$10,000 within 29 days of a purchase or switch, you may be subject to a short-term trading fee to be paid directly to the Fund out of your redemption proceeds, reducing the amount otherwise payable to you on the redemption or switch (please see "*Fees And Expenses*"). We have the ability to waive or change this penalty at any time.

The restrictions imposed on short-term trading, including the short-term trading fees, will generally not apply in connection with redemptions or switches for the NEI Money Market Fund, systematic withdrawal plans and in respect of redemptions made by other mutual funds managed by the Manager, as those are circumstances that do not constitute inappropriate trading activity.

Despite these restrictions and our procedures to detect and deter short-term trading, we cannot ensure that such trading will be completely eliminated.

Preferred Pricing Program - Conversions Between Retail Series and Preferred Pricing Series

Under our preferred pricing program (the “Preferred Pricing Program”), we will initiate a conversion of your Series A units purchased or held under the front-end sales charge option and Series F units (the “Retail Series”) of NEI Funds into Series P and Series PF units (where such series are available), respectively, (the “Preferred Pricing Series”) of NEI Funds once you have an aggregate \$100,000 investment in NEI Funds in your eligible accounts (the “Eligibility Criteria”), as outlined below. These conversions will occur so that you will be invested in the Preferred Pricing Series with the lowest combined management and administration fees for which you are eligible.

Not all NEI Funds participate in the Preferred Pricing Program. The Preferred Pricing Program will only be available for those NEI Funds which have a Preferred Pricing Series available for purchase. If you have any questions about whether your investments in NEI Funds qualify for the Preferred Pricing Program, please speak with your dealer.

Once you meet the Eligibility Criteria through a purchase or another transaction, your Retail Series units will be converted by us into the applicable Preferred Pricing Series on the same business day. In addition, we will initiate a conversion of your units into the applicable Preferred Pricing Series on or about the last business day of each month if positive market movement has caused you to meet the Eligibility Criteria. Please note you will never be moved out of a Preferred Pricing Series because of a decrease solely due to market movement. However, if you no longer meet the Eligibility Criteria due to redemptions or partial redemptions of your investments in NEI Funds, we will initiate a conversion of your units back into the appropriate Retail Series on the same business day.

If you are an existing investor in Series P or Series PF units of a Fund prior to June 18, 2018, your existing units in Series P and Series PF will be exempt from the Preferred Pricing Program and will not be converted by us into Series A and Series F units, respectively, if the value of your investment drops below \$100,000 due to a redemption or partial redemption.

Please note that your eligible accounts for the purposes of calculating your investment of at least \$100,000 across all NEI Funds only include accounts, including accounts which are registered plans (as defined below), which are registered under the exact same name and address. If you think you may generally meet the Eligibility Criteria, however your accounts may include detail or identifier differences, you are responsible for ensuring your advisor or dealer is aware of all Eligible Accounts that should be linked in order to qualify for the Preferred Pricing Program. We will link your accounts only after your advisor or dealer has communicated your information to us. Generally, neither we nor your Mutual Fund Investment Dealer or representative at your dealer have the ability to independently determine which similar accounts should be linked.

Optional Services Provided by the Mutual Fund Organization

Registered Plans

Units of the Funds, other than units of the Pools, are, or are expected to be at all relevant times, qualified investments for trusts governed by registered retirement savings plans (“RRSPs”), registered retirement income funds (“RRIFs”), deferred profit sharing plans (“DPSPs”), registered education savings plans (“RESPs”), registered disability savings plans (“RDSPs”), first home savings accounts (“FHSAs”) and tax-free savings accounts (“TFASAs”) (as defined below, and collectively “registered plans”). We offer RRSPs, RRIFs, life income funds, locked-in retirement income funds, locked-in retirement accounts, retirement savings fixed term annuities (in Québec only), RESPs (including some provincial programs tied to

educational savings), TFSAs, locked-in RRSPs, prescribed retirement income funds, restricted life income funds and restricted locked-in savings plans.

The trustee of our registered plans is Concentra Trust. Concentra Trust is a wholly-owned subsidiary of Concentra Bank, previously operated as Concentra Financial Services Association (“CFSA”). The change results from the continuation of CFSA to Concentra Bank, under the Bank Act (Canada).

Pre-authorized Payment Plan

Under a pre-authorized payment plan you can indicate a regular amount of investment (not less than \$25) per Fund, to be made on a periodic basis, the Fund or Funds and series of units in which the investment is to be made, and the chequing or savings account from which the investment amount is to be debited. You may modify, suspend or terminate such a plan on ten days’ prior written notice.

Automatic Withdrawal Plan

You can establish an automatic withdrawal plan, provided you are not investing through a retirement savings plan. Under an automatic withdrawal plan, you can indicate a regular amount of cash redemption (not less than \$100 monthly) to be made on a periodic basis, the Fund or Funds and series of units from which the investment is to be withdrawn and the chequing or savings account to which the withdrawn amounts are to be credited. Withdrawals will be made by way of redemption of units. If withdrawals are in excess of dividends and distributions and net capital appreciation, they will result in encroachment on, or possible exhaustion of, your original capital. If you choose the automatic withdrawal plan, all distributions declared on units held under such a plan in respect of a Fund must be reinvested into additional units of the Fund. To establish an automatic withdrawal plan in respect of a Fund, your account must have a minimum value of \$5,000 invested in our Funds. You may modify, suspend or terminate an automatic withdrawal plan on ten days’ prior written notice. There is no administration fee for the automatic withdrawal plan; however, units redeemed may be subject to a redemption fee payable at the time of redemption if such units were purchased under the deferred sales charge option or one of the low load sales charge options.

Electronic Funds Transfer

You can arrange to have money moved electronically when you buy or redeem your units, just ask your Mutual Funds Investment Dealer or representative at your dealer.

Fees and Expenses

This section sets out the fees and expenses related to investments in our Funds.

The first part of this section shows the fees and expenses the Funds may pay. Although you do not pay these directly, they will reduce the value of your investment.

The second part of this section shows the fees and expenses you may have to pay directly.

In certain circumstances the Manager is not required to seek unitholder approval for the introduction of, or a change in the basis of calculating, a fee or expense that is charged to a Fund, a series of a Fund or charged directly to unitholders of the Fund in a way that could result in an increase in charges to a Fund, a series of a Fund or unitholders, provided any such introduction, or change, will only be made if notice is sent to unitholders at least 60 days before the effective date of the change. Please see “*Matters Requiring Unitholder Approval*” section below for further details.

Underlying Fund Management Fee

The Funds may invest in units of other mutual funds and exchange-traded funds including any affiliated Funds. You should note that in addition to the fees and expenses paid by the Funds, these other funds have their own operating expenses to pay. The Funds will effectively bear the operating expenses of the other funds in proportion to their holdings in the other funds. However, the Funds will not invest in units of other funds if the Funds would be required to pay any management fees or incentive fees in respect of such investments that to a reasonable person, would duplicate a fee payable to us by the Funds (or, in the case of Series I or Series O units, a unitholder directly) for the same service. In addition, the Funds will not make investments in other funds if the Funds would be required to pay any sales or redemption fees in respect of such investments that a reasonable person would find to duplicate a fee payable by unitholders of the Funds. Further, the Funds will not invest in units of any affiliated Funds if any sales or redemption fees are payable in respect of such investments.

Fees and Expenses Payable by the Funds

Management Fees

Each Fund pays us a management fee which is subject to applicable taxes, including but not limited to GST/QST/HST. The fee covers the costs for services such as managing the Funds, arranging for investment advisory services, recommendations and investment decision making for the Funds including the selection of Portfolio Sub-Advisors and portfolio managers, arranging for distribution, marketing and promotion of the Funds. The fee is calculated daily based on the NAV per series from the previous trading day and paid weekly. The table below shows the annual management fee rates charged for Series A, Series F, Series P, Series PF, Series W and Series WF units of each Fund (exclusive of applicable taxes, including but not limited to GST/QST/HST). The annual management fee charged for Series I and Series O units is negotiated directly with each investor but will not exceed the annual management fee charged in respect of Series A units of the same Fund.

Annual Management Fees

| Name and Title | Series A | Series F | Series P | Series PF | Series W | Series WF |
|--|----------|----------|----------|-----------|----------|-----------|
| Fixed Income Funds | | | | | | |

Operating Expenses

We pay all of the operating expenses (the “Operating Expenses”) of the Funds, except for:

- Costs and expenses associated with taxes, including income and sales taxes;
- Borrowing costs incurred by the Funds from time to time;
- The costs associated with the independent review committee (“IRC”);
- The costs of compliance with any regulatory changes imposed following July 27, 2018 (together the “Fund Expenses”); and
- Costs associated with portfolio transactions, including brokerage commissions and research and execution costs (“Portfolio Transaction Costs”).

The Operating Expenses include, but are not limited to, audit fees, fund accounting costs, transfer agency and recordkeeping costs, custodian costs, administration costs and trustee services relating to registered tax plans, costs of printing and disseminating prospectuses, fund facts, continuous disclosure materials including financial reporting and other periodic investor communications, legal fees, bank charges, and regulatory filing fees. The Fund Expenses, Portfolio Transaction Costs and any expenses of the Fund outside of Operating Expenses are paid directly by each Fund.

In return for assuming the obligation to pay the Funds’ Operating Expenses, we are paid a fixed annual administration fee (the “Administration Fee”), which is subject to applicable taxes, including but not limited to HST. The Administration Fee payable by Series A, Series F, Series O, Series P, Series PF, Series W and Series WF units of a Fund is equal to a specified percentage of the NAV of the series, calculated and accrued daily and paid periodically.

Each Fund will be subject to a blended rate of HST based on the jurisdictions of residence of its unitholders. Each Fund will calculate and pay HST on an aggregate basis, such that the cost of the HST will be borne by all investors, regardless of their individual province or territory of residence.

The Administration Fee varies between Funds and series. No Administration Fee is charged to Series I units of the Funds because of the fee structures associated with such series.

The Administration Fee paid to the Manager in respect of a series may, in any particular period, be less than or exceed the Operating Expenses that the Manager incurs for the series.

The following table shows the Administration Fee applicable to Series A, Series F, Series O, Series P, Series PF, Series W and Series WF units of each Fund:

Administration Fees

| Fund | Series A | Series F | Series O | Series P | Series PF | Series W | Series WF |
|------|----------|----------|----------|----------|-----------|----------|-----------|
|------|----------|----------|----------|----------|-----------|----------|-----------|

The Manager may, in some years and in certain cases, absorb a portion of a series' management fees, Administration Fees or Fund Expenses. The decision to absorb the management fees, Administration Fee or Fund Expenses, or a portion thereof, is reviewed annually and determined at the discretion of the Manager, without notice to unitholders.

Independent Review Committee

The Funds pay the fees and expenses associated with the IRC, including annual fees and meeting fees, if any, payable to members of the IRC and the payment of any other expenses related to the operation of the IRC which could include travel expenses, educational amounts or legal fees. IRC fees are allocated to the Funds on a pro-rata basis of net assets less the net assets of any underlying funds managed by NEI Investments. The Chair of the IRC is paid an annual retainer of \$34,000 plus expenses and the other members are each paid an annual retainer of \$28,000 plus expenses. The Manager does not reimburse the Funds for any of the costs associated with the IRC. For amounts allocated to a particular Fund please refer to the Fund's financial statements.

Fees and Expenses Payable Directly by You

Sales Charges

Under the front-end sales charge option, there is a maximum charge of 5% of the original cost of your investment in Series A, Series P or Series W units of a Fund. The amount of the fee is a matter between you and your dealer. There are no sales charges on Series F, Series I, Series O, Series PF or Series WF units. For these series, you may be required to pay your dealer an advisory or asset-based fee in addition to the Series F, Series PF or Series WF management fee payable by the Fund or the Series I or Series O management fee paid directly by you.

Switch/Conversion Fees

Up to 2% of the amount you wish to switch or convert, as applicable. The amount of the fee is a matter between you and your dealer. However, you will not pay a conversion fee on NEI initiated conversions.

Redemption Fees

Investors holding Series A units purchased in 2020 or earlier (or units received on certain subsequent switch transactions) may be subject to certain redemption fees if they purchased those units under a deferred sales charge, low load, low load 2 or low load 3 option as set out below:

Deferred Sales Charge Option:

Under the deferred sales charge option, there is no sales charge until you redeem your Series A units. A redemption charge of 6% of the original cost (i.e., the Series A NAV per series unit at the time of your purchase) of the Series A units you wish to redeem is payable if redeemed in the first year. The redemption charge declines to 0% after six years.

The following table sets out the applicable deferred sales charge payable in respect of Series A units.

| Redemption of Deferred Sales Charge Units During the Following Periods After Date of Issue | Deferred Sales Charge as a Percentage of the Original Purchase Price |
|--|--|
| During the first year | 6.0% |
| During the second year | 5.5% |
| During the third year | 5.0% |
| During the fourth year | 3.5% |
| During the fifth year | 2.5% |
| During the sixth year | 1.5% |
| After the end of the sixth year | 0% |

Low Load Sales Charge Option:

If you chose the low load sales charge option, you paid no sales charge or commission at the time of purchase, and you paid no deferred sales charge thereafter unless low load sales charge units are redeemed within two years of purchase, in which case a deferred sales charge of 1.5% of the original cost (i.e., the Series A NAV per series unit at the time of your purchase) of the Series A units you wish to redeem will be payable by you at the time of redemption.

Low Load 2 Sales Charge Option:

If you chose the low load 2 sales charge option, you paid no sales charge or commission at the time of purchase, and you paid no deferred sales charge thereafter unless low load 2 sales charge units are redeemed within three years of purchase, in which case a deferred sales charge of 3% of the original cost (i.e., the Series A NAV per unit at the time of your purchase) of the Series A units you wish to redeem will be payable by you at the time of redemption if redeemed in the first year. The redemption charge declines to 0% after three years.

The following table sets out the applicable deferred sales charges payable in respect of Series A units under the low load 2 sales charge option.

| Redemption of Low Load 2 Sales Charge Units During the Following Periods After Date of Issue | Low Load 2 Sales Charge as a Percentage of the Original Purchase Price |
|--|--|
| During the first year | 3.0% |
| During the second year | 2.5% |
| During the third year | 2.0% |
| After the end of the third year | 0% |

Low Load 3 Sales Charge Option:

If you chose the low load 3 sales charge option, you paid no sales charge or commission at the time of purchase, and you will pay no deferred sales charge thereafter unless low load 3 sales charge units are redeemed within three years of purchase, in which case a deferred sales charge of 4.5% of the original cost (i.e., the Series A NAV per series unit at the time of your purchase) of the Series A units you wish to redeem will be payable by you at the time of redemption if redeemed in the first year. The redemption charge declines to 0% after three years.

The following table sets out the applicable deferred sales charges payable in respect of Series A units under the low load 3 sales charge option.

| Redemption of Low Load 3 Sales Charge Units During the Following Periods After Date of Issue | Low Load 3 Sales Charge as a Percentage of the Original Purchase Price |
|--|--|
| During the first year | 4.5% |

| Redemption of Low Load 3 Sales Charge Units During the Following Periods After Date of Issue | Low Load 3 Sales Charge as a Percentage of the Original Purchase Price |
|---|---|
| During the second year | 3.5% |
| During the third year | 2.0% |
| After the end of the third year | 0% |

Free Redemption Amount:

In any calendar year, you may redeem, without paying the deferred sales charges, including, Low Load, Low Load 2 and Low Load 3 sales charges, that would otherwise be applicable, such number of deferred sales charge units of a Fund as is equal to:

- 10% of the number of deferred sales charge units of such Fund held by you as of December 31 of the previous calendar year
- Plus 10% of the number of deferred sales charge units of such Fund purchased by you during the current calendar year
- Less the number of units redeemed by you prior to the redemption date during the current calendar year

This free redemption amount is not cumulative. If you do not take advantage of the free redemption amount (or any part of the free redemption amount) in any calendar year, you cannot carry it forward to future years.

Short-Term Trading Fee

Units of Funds, other than NEI Money Market Fund, may be subject to a short-term trading fee payable to the relevant Fund on redemptions and switches of units in excess of \$10,000 on the following basis:

- 2% of the redemption proceeds otherwise payable if a redemption or switch occurs within 1 to 7 days of a purchase or switch.
- 1% of the redemption proceeds otherwise payable if a redemption or switch occurs within 8 to 29 days of a purchase or switch.

In certain circumstances, we may at our discretion elect to waive or change this penalty at any time.

Returned Cheques

There will be a \$25 fee for Non-Sufficient Funds cheques returned or if there are insufficient funds in your account to pay for your units.

Registered Plans/Pre-authorized Payment Plans/Electronic Funds Transfers

We do not apply any registered plan fees in respect of the Funds, or charge any fees in connection with the establishment of pre-authorized payment plans or use of electronic funds transfers.

Account Closing or Transfer Fees

We do not apply any account closing or transfer fees in respect of the Funds.

Any new fee or expense or a change in the basis for the calculation of a fee or expense that is charged to a Fund, or to unitholders of a Fund in connection with the holding of units of the Fund, that could result in an increase in charges to the Fund or its unitholders must be approved by a majority of the votes cast at a meeting of the unitholders of the Fund called for such purpose.

If the change or new fee or expense described above is a result of a change made by a third-party at arm's length to the Fund, or if unitholder consent is not required by securities regulation, we will give you 60 days' written notice of the change before the effective date of the change if such notice is required by securities regulation.

Dealer Compensation

Sales Commissions and Switch and Conversion Fees

For Series A, Series P, or Series W units purchased under the front-end sales charge option, you will pay your dealer a sales commission at the time of your purchase, such commission being up to 5% of the original cost. The actual percentage is a matter between you and your dealer.

For Series A units purchased under the deferred sales charge purchase option, you were not required to pay your dealer a commission at the time of your purchase. We, however, had paid your dealer 5% of the amount you purchased under this option (other than for units of NEI Canadian Bond Fund, NEI Global Total Return Bond Fund and NEI Global High Yield Bond Fund for which we paid your dealer 4% and units of NEI Money Market Fund, NEI Canadian Impact Bond Fund, NEI Global Impact Bond Fund, NEI Conservative Yield Portfolio, NEI Clean Infrastructure Fund, NEI Impact Conservative Portfolio, NEI Impact Balanced Portfolio, and NEI Impact Growth Portfolio which were not available for sale under this option).

For Series A units purchased under the low load sales charge purchase option, you were not required to pay your dealer a commission at the time of your purchase. We, however, had paid your dealer 1% of the amount you purchased under this option (other than units of NEI Money Market Fund, NEI Canadian Impact Bond Fund, NEI Global Impact Bond Fund, NEI Conservative Yield Portfolio, NEI Clean Infrastructure Fund, NEI Impact Conservative Portfolio, NEI Impact Balanced Portfolio, and NEI Impact Growth Portfolio, which are not available for sale under this option).

For Series A units purchased under the low load 2 sales charge purchase option, you were not required to pay your dealer a commission at the time of your purchase. We, however, had paid your dealer 2.5% of the amount you purchased under this option (other than units of NEI Money Market Fund, NEI Canadian Impact Bond Fund, NEI Global Impact Bond Fund, NEI Conservative Yield Portfolio, NEI Clean Infrastructure Fund, NEI Impact Conservative Portfolio, NEI Impact Balanced Portfolio, NEI Impact Growth Portfolio and Specified Funds, which were not available for sale under this option).

For Series A units purchased under the low load 3 sales charge purchase option, you were not required to pay your dealer a commission at the time of your purchase. We, however, had paid your dealer 3.5%

of the amount you purchased under this option (other than units of NEI Money Market Fund, NEI Canadian Impact Bond Fund, NEI Global Impact Bond Fund, NEI Conservative Yield Portfolio, NEI Clean Infrastructure Fund, NEI Impact Conservative Portfolio, NEI Impact Balanced Portfolio, NEI Impact Growth Portfolio and Specified Funds, which were not available for sale under this option).

Sales charges are not paid when you switch or convert your units, but a switch or conversion fee, as applicable of up to 2% may be charged to you and retained by your dealer. The amount of any switch or conversion fee is a matter between you and your dealer.

No sales commissions are paid when you receive units from reinvested distributions.

There is no sales charge to purchase Series F, Series I, Series O, Series PF, or Series WF units, but you may be required to pay your dealer an advisory or asset-based fee in addition to the Series F, Series PF or Series WF management fee payable by the Fund or the Series I or Series O management fee paid directly by you.

Trailing Commissions

We pay your dealer a trailing commission either at month or quarter end for the ongoing advice and/or service you receive from your dealer relating to Series A, Series P, or Series W units. Trailing commissions paid to a discount broker for units in your discount brokerage account are subject to applicable exemptive relief. The maximum trailing commission payable will depend on the payment option you have chosen and the Fund in which you have purchased units. Dealers receive this trailing commission based on the aggregate Series A, Series P, or Series W NAV of their clients' investments in the Funds at the annualized rates indicated below.

Trailing Commission Rate

*No longer available for sale

We may change or cancel the terms of trailing commissions that we pay at any time.

There are no trailing commissions paid to your dealer by us with respect to Series F, Series PF or Series WF units which you hold because you may pay an advisory or asset-based fee directly to your dealer. No trailing commissions are payable in respect of Series I and Series O units.

Discount Brokers

On September 17, 2020, the Canadian Securities Administrators published rule amendments that, effective June 1, 2022, prohibit the payment of trailing commissions to order execution only (“OEO”) dealers, which includes discount brokers and other dealers that do not make a suitability determination, in connection with an investor’s purchase and ongoing ownership of securities of a Fund in an OEO account. Effective June 1, 2022, series of Funds that pay trailing commissions are no longer be available to investors who hold units in an OEO account, which may result in changes to your account or to the Units of the Funds you own. If you no longer meet the requirement for holding OEO eligible Series, you may be asked or required to switch your investment into a more appropriate Series of the same Fund

Incentive Programs

We may provide additional monetary or non-monetary incentives and marketing support for dealers, as permitted by securities regulations governing sales practices. These incentives are not charged to the Funds.

Related Dealers

The general partner of the Manager, Northwest & Ethical Investments Inc., is a wholly-owned subsidiary of Aviso. Aviso is the sole limited partner of the Manager. Aviso is a wholly-owned subsidiary of Aviso Wealth LP, which in turn is owned 50% by Desjardins and 50% by a limited partnership owned by the Centrals and the CUMIS Group Limited. Aviso Wealth GP Inc. is the general partner of Aviso Wealth LP. Certain registered dealers through which units of the Funds may be purchased are related to us by way of ownership interests in such dealers by Desjardins or Aviso. The related dealers are: (i) Desjardins Securities Inc., (ii) Desjardins Financial Services Firm Inc., (iii) Desjardins Financial Security Investments

Inc. (each of (i), (ii) and (iii) being an indirect wholly-owned subsidiary of Desjardins), (iv) Credential Asset Management Inc., and (v) Credential Qtrade Securities Inc. (each of (iv) and (v) being a direct wholly-owned subsidiary of Aviso).

Our indirect owner, Aviso Wealth LP, may make annual profit sharing distributions to its partners which, subject to certain conditions, are based in part on the profits generated by us with respect to the market value of the Funds outstanding during the applicable annual period that were sold (either during or prior to the applicable annual period) by related dealers (see above for a description of these related dealers). These profit-sharing distributions are not charged to the Funds or the unitholders.

Income Tax Considerations

This section is a general summary of how Canadian federal income taxes affect your investment in the Funds. It is written for individual unitholders (other than trusts) who are residents of Canada, deal at arm's length with the Funds, and hold their units as capital property.

This section is based on the current provisions of the *Income Tax Act* (Canada) (the "Tax Act") and the regulations thereunder (the "Regulations") and our understanding of the current published administrative policies and assessing practices of the Canada Revenue Agency. This section also takes into account all specific proposals to amend the Tax Act and the Regulations publicly announced by, or on behalf of, the Minister of Finance (Canada) prior to the date of this simplified prospectus. However, there can be no assurance that these proposed amendments will be enacted in their current form, or at all. Except for any proposed amendments, this section does not take into account or anticipate any changes in law or administrative practice, whether by legislative, regulatory, administrative, or judicial action. Furthermore, this section is not exhaustive of all possible income tax considerations and, in particular, does not take into account provincial, territorial, or foreign income tax legislation or considerations.

This section is based upon the assumption that each of the Funds, other than the Pools, will qualify as a "mutual fund trust" under the Tax Act at all relevant times. We've tried to make this section as helpful and accurate as possible, but your situation may be different. **This section is not intended to be legal or tax advice to you or any other investor. Please consult a tax advisor about your own circumstances.**

How the Funds Are Taxed

A Fund can make money and be subject to income tax in two ways. First, it can earn income. Examples of income earned by a Fund are interest paid on bonds, dividends paid on stocks, and distributions of income from underlying funds. A Fund can also have capital gains if it realizes a gain on the sale of an investment or receives distributions treated as capital gains from underlying funds.

The tax treatment of derivatives used by the Funds will vary depending on the type of derivative instrument and purpose for using the derivative. The Funds may enter into derivatives that are considered speculative and are taxed in the same manner as ordinary income. The Funds may also use derivatives as a hedge to limit its gain or loss on capital assets held by the Fund, in which case the derivative will result in capital gains or capital losses to the Funds.

A Fund will generally not be subject to income tax on the portion of its net income and net realized capital gains that it pays or makes payable to its unitholders, either in cash or by way of reinvestment in additional units. Any losses realized by a Fund cannot be allocated to its unitholders.

How Your Mutual Fund Investment Is Taxed

The tax you pay on your mutual fund investment depends on whether you hold units directly in a non-registered account or indirectly through a registered plan.

Funds You Hold in a Registered Plan

If you hold your units in a registered plan (other than units of the Pools), generally you do not have to pay tax on distributions from the Funds or on any capital gains your plan realizes from redeeming or selling units, provided that the units are a qualified investment and are not a prohibited investment for your registered plan. If you take money out of your registered plan, you will generally have to pay tax on it; however, withdrawals from TFSA's are not subject to tax. Withdrawals from RESPs, RDSPs and FHSAs are subject to special rules.

Units of the Funds (other than the Pools) are expected to be a "qualified investment" for registered plans at all relevant times. However, if units of a Fund are a "prohibited investment" for your registered plan (other than a DPSP), the annuitant, holder or subscriber of that registered plan may be subject to a penalty tax. A unit of a Fund will be a prohibited investment if your registered plan has a "significant interest" in that Fund, which in general terms means the ownership, either alone or together with persons and partnerships with whom you do not deal at arm's length, of 10% or more of that Fund.

You should consult your own professional tax advisors regarding the tax treatment of acquiring and holding units of a Fund (other than the Pools) in a registered plan. Units of the Pools should not be acquired by or held in a registered plan.

Funds You Hold in a Non-Registered Account

If you hold units of a Fund directly in a non-registered account, we will send you a tax slip by the end of March each year. It shows your share of the Fund's distributions of income, net realized capital gains and return of capital for the previous year as well as any allowable tax credits. Income includes dividend income from taxable Canadian corporations, and foreign income. Each Fund intends to make the appropriate designations so that taxable dividends from taxable Canadian corporations (including the gross-up and dividend tax credit applicable to such dividends) and net realized capital gains distributed by the Fund, will retain their identity in your hands for tax purposes. In addition, if a Fund has paid foreign withholding tax, the Fund may make a designation to permit you to credit that withholding tax against your Canadian taxable income. You must include the income and capital gains shown on the tax slip as part of your annual income. This applies whether your distributions were reinvested in units of the Fund or were paid to you in cash. If you receive more in distributions in a year than your share of the Fund's income and net realized capital gains for the year, you will have a return of capital. You generally don't pay tax on a return of capital. Instead, it will reduce the adjusted cost base of your units of the Fund. If the adjusted cost base of your units is reduced to less than zero you will be deemed to have realized a capital gain equal to the negative amount.

When you buy units of a Fund for a non-registered account, you may end up paying tax on income and capital gains the Fund earned before you bought your units and that were reflected in the purchase price of the units. This is particularly relevant when a Fund makes a distribution in December of everything it earned for the whole year. You should consider how this tax cost might affect you when you buy a Fund, especially if you are considering buying units late in the year.

If you redeem or sell units, you'll have a capital gain if the redemption or sale price is more than the adjusted cost base of the units, after deducting any costs of redeeming or selling your units. You'll have a capital loss if the redemption or sale price is less than the adjusted cost base, after deducting any costs of redeeming or selling your units. One-half of a capital gain is a taxable capital gain and is generally included in computing your income, and one-half of a capital loss is an allowable capital loss and generally deducted against taxable capital gains for the year. If you have more allowable capital losses than taxable capital gains in a year the excess can generally be carried back up to three years or carried forward indefinitely and applied against taxable capital gains in those other years.

Converting units of one series of a Fund into units of another series of the same Fund will not trigger a capital gain or loss. However, a redemption to effect a transfer from one Fund to another may trigger a capital gain or loss.

In general, the adjusted cost base of your units in any series of units in a Fund equals your initial and any subsequent investment, plus reinvested distributions, less the adjusted cost base of units of such series that have been redeemed and any return of capital otherwise received in respect of the units. If you've bought units at various times, you will likely have paid various prices. The adjusted cost base of a unit is, generally, the average of the cost of all the units you hold in the Fund. That includes units you acquired through reinvestments of distributions or dividends.

Management fees paid by unitholders on Series I and Series O units will not be deductible for tax purposes.

In certain cases, individuals may have to pay alternative minimum tax on the capital gains or Canadian dividends they earn, including through the Funds.

Funds with a High Portfolio Turnover Rate

The higher a Fund's portfolio turnover rate, the greater the likelihood the Fund will incur capital gains or losses. In the event a Fund realizes net capital gains in a taxation year that cannot be sheltered with losses, the gains will, in most cases, be distributed to you and must be included in computing your income for tax purpose. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

Tax Records

The Funds will provide unitholders each year with income tax information necessary to complete their income tax returns. Individual unitholders should keep records of the original cost, along with any sales charges, of their units and any re-invested distributions so that any capital gain or loss on redemption or other disposition can be accurately determined for tax purposes.

What Are Your Legal Rights?

Securities legislation in some of the provinces and territories of Canada gives you the right to withdraw from an agreement to buy mutual funds within two business days of receiving the simplified prospectus or fund facts, or to cancel your purchase within 48 hours of receiving confirmation of your order.

Securities legislation in some provinces and territories also allows you to cancel an agreement to buy mutual fund units and get your money back, or to make a claim for damages, if the simplified prospectus, fund facts, or financial statements misrepresent any facts about the mutual fund. These rights must be exercised within certain time limits set by law in the applicable province or territory.

For more information, refer to the securities legislation of your province or territory or consult your lawyer.

Additional Information

Enhanced Tax Information Reporting

Pursuant to the Intergovernmental Agreement for the Enhanced Exchange of Tax Information under the Canada-US Tax Convention entered into between Canada and the U.S. (the "IGA"), and related Canadian legislation, the Funds and/or registered dealers are required to report certain information with respect to unitholders who are U.S. residents and U.S. citizens (including U.S. citizens who are residents or citizens of Canada), and certain other "U.S. Persons" as defined under the IGA (excluding registered plans such as RRSPs), to the CRA. It is expected that the CRA will then exchange the information with

the U.S. Internal Revenue Service. The Funds will endeavor to comply with the requirements imposed under the IGA and related Canadian legislation. However, if the Funds cannot satisfy the applicable requirements, they may be subject to U.S. withholding tax on U.S. and certain non-U.S. source income and gross proceeds. The Funds may also be subject to penalties under Canadian tax legislation. Any potential U.S. withholding taxes or penalties associated with such failure to comply would reduce the value of the Funds' assets.

In addition, to meet the objectives of the Organization for Economic Co-operation and Development Common Reporting Standard (the "CRS"), the Funds and/or registered dealers are required under Canadian legislation to identify and report to the CRA certain information relating to certain unitholders in the Funds (excluding registered plans such as RRSPs) who are residents in a country outside of Canada and the U.S. The CRA is expected to provide that information to the tax authorities of the relevant jurisdictions that have adopted the CRS.

Strategic Alliance with Invesco Canada Ltd.

Northwest and Ethical Investments L.P. (NEI) and Invesco Canada Ltd. (Invesco) have entered into a strategic agreement (the "Strategic Agreement") with regard to their mutual commitment to product development, distribution support and marketing of certain jointly developed environmental, social and governance ("ESG") focused index ETFs in Canada, including existing and future Invesco ETFs (collectively, the "Invesco ETFs"). The Strategic Agreement establishes a contractual strategic relationship without the establishment of a joint venture entity, pursuant to which Invesco will pay NEI an amount based on assets under management of the Invesco ETFs.

As consideration for mutual services provided under the Strategic Agreement, there may be limited underlying commercial arrangements wherein NEI earns fees in respect of the Strategic Agreement. For example, certain NEI Funds may hold Invesco ETFs where NEI also provides ESG-related sub-advisory services. As it relates to NEI Funds, where such arrangements apply, they will be disclosed in the applicable section of Part B of this simplified prospectus.

NEI Funds are reviewed regularly. As such, underlying investments may be altered from time to time as permitted by a particular Fund's investment objectives whereupon NEI Funds may become subsequently subject to or excluded from the terms of the Strategic Agreement. In such circumstances, the applicable Part B disclosures will be updated to reflect the changes upon the subsequent regulatory filing.

Exemptions and Approvals

The Funds have obtained exemptive relief from certain restrictions in NI 81-102 Investment Funds or National Instrument 81-101 Mutual Fund Prospectus Disclosure, as follows:

Investing in Fixed Income Securities of Foreign Governments

Pursuant to exemptive relief, NEI Global Total Return Bond Fund (and any other Fund that complies with the terms of the relief) is permitted to invest up to: (i) 35% of the Fund's net asset value at the time of the transaction in evidences of indebtedness of any one issuer if those evidences of indebtedness are issued, or guaranteed fully as to principal and interest, by supranational agencies or governments other than the government of Canada, the government of a jurisdiction in Canada, or the government of the United States of America and are rated "AAA" by Standard & Poor's, or have an equivalent rating by one or more other designated rating organizations; and (ii) 20% of the Fund's net asset value at the time of the transaction in evidences of indebtedness of any one issuer if those evidences of indebtedness are issued, or guaranteed fully as to principal and interest, by supranational agencies or governments other than the government of Canada, the government of a jurisdiction in Canada or the government of the United States of America and are rated "AA" by Standard & Poor's, or have an equivalent rating by one or more

other designated rating organizations (such evidences of indebtedness are collectively referred to as “Foreign Government Securities”). The Fund will only invest in Foreign Government Securities that are traded on a mature and liquid market and where the acquisition of such Foreign Government Securities is consistent with the fundamental investment objectives of the Fund.

Cash Cover Relief

Pursuant to exemptive relief, NEI Global Total Return Bond Fund (and any other Fund that complies with the terms of the relief) is permitted to use as cover a right or obligation to sell an equivalent quantity of the underlying interest for certain specified derivatives transactions. Specifically:

- a. When the Fund enters into or maintains a swap position for periods when the Fund would be entitled to receive fixed payments under the swap, the Fund is permitted to hold:
 - i. Cash cover in an amount that, together with margin on account for the swap and the market value of the swap, is not less than, on a daily mark-to-market basis, the underlying market exposure of the swap;
 - ii. A right or obligation to enter into an offsetting swap on an equivalent quantity and with an equivalent term and cash cover that, together with margin on account for the position, is not less than the aggregate amount, if any, of the obligations of the Fund under the swap less the obligations of the Fund under such offsetting swap; or
 - iii. A combination of the positions referred to in subparagraphs (i) and (ii) that is sufficient, without recourse to other assets of the Fund, to enable the Fund to satisfy its obligations under the swap;
- b. When the Fund opens or maintains a long position in a debt-like security that has a component that is a long position in a forward contract, or in a standardized future or forward contract, the Fund is permitted to hold:
 - i. Cash cover in an amount that, together with margin on account for the specified derivative and the market value of the specified derivative, is not less than, on a daily mark-to-market basis, the underlying market exposure of the specified derivative;
 - ii. A right or obligation to sell an equivalent quantity of the underlying interest of the future or forward contract, and cash cover that, together with margin on account for the position, is not less than the amount, if any, by which the market price of the future or forward contract exceeds the strike price of the right or obligation to sell the underlying interest; or
 - iii. A combination of the positions referred to in subparagraphs (i) and (ii) that is sufficient, without recourse to other assets of the Fund, to enable the Fund to acquire the underlying interest of the future or forward contract.

The Fund will not (i) purchase a debt-like security that has an option component or an option; or (ii) purchase or write an option to cover any position under section 2.8(1)(b), (c), (d), (e) or (f) of NI 81-102 if, immediately after the purchase or writing of such option, more than 10% of the net asset value of the Fund would be made up of (A) purchased debt-like securities that have an option component or purchased options, in each case, held by the Fund for purposes other than hedging, or (B) options used to cover any position under section 2.8(1)(b), (c), (d), (e) or (f) of NI 81-102.

Concentration Relief – Fannie Mae and Freddie Mac

The Manager, on behalf of the Funds, has been granted exemptive relief that permits the Funds to invest more than 10% of its net assets in each of Fannie Mae and Freddie Mac provided the debt obligations issued or guaranteed by either Federal National Mortgage Association (“Fannie Mae”) or Federal Home

Loan Mortgage Corporation (“Freddie Mac”) including, without limitation, bonds and mortgage-backed securities, maintain a U.S. Government Equivalent Rating and a rating not less than the Minimum Rating.

Delivery of Fund Facts Relief

The Manager, on behalf of the Funds, has been granted exemptive relief from the requirement to deliver fund facts at point of sale with the implementation of the Automatic Switch Program. This relief includes exemptive relief that permits the inclusion of multiple series (being Series A and P and Series F and PF respectively) in a single Fund Facts document.

ETF Relief – Leveraged, Inverse, Gold and Silver and Leveraged Gold and Silver

NEI Global Sustainable Balanced Fund obtained an exemption from Canadian securities regulatory authorities to invest in the following ETFs:

- ETFs that seek to provide daily results that replicate the daily performance of a specified widely-quoted market index (the ETF’s “Underlying Index”) by a multiple of up to 200% or an inverse multiple of up to 200% (“Leveraged ETFs”);
- ETFs that seek to provide daily results that replicate the daily performance of their Underlying Index by an inverse multiple of 100% (“Inverse ETFs”);
- ETFs that hold or seek to replicate the performance of gold or silver or specified derivatives of which the underlying interest is gold or silver on an unlevered basis (“Gold and Silver ETFs”) (after January 1, 2019 this relief is generally relevant only to ETFs listed in the United States); and
- Gold and Silver ETFs that are also Leveraged ETFs, by a multiple of up to 200% (“Leveraged Gold and Silver ETFs”).

(the ETFs described above are collectively referred to as the “Underlying ETFs”).

NEI Global Sustainable Balanced Fund will only invest in Underlying ETFs if certain conditions are met, including: (i) the investment by the Fund in securities of the Underlying ETFs is in accordance with the fundamental investment objective of the Fund; (ii) the Fund does not short sell securities of the Underlying ETFs; (iii) the securities of the Underlying ETFs are traded on a stock exchange in Canada or the United States; (iv) the securities of the Underlying ETFs are treated as specified derivatives for the purposes of Part 2 of NI 81-102; (v) the Fund may not purchase securities of an Underlying ETF if, immediately after the purchase, more than 10% of the net assets of the Fund in aggregate, taken at market value at the time of the purchase, would consist of securities of the Underlying ETFs; (vi) the Fund does not enter into any transaction if, immediately after such transaction, more than 20% of the net assets of the Fund, taken at market value at the time of the transaction, would consist of, in aggregate, securities of Underlying ETFs and all securities sold short by the Fund; (vii) the Fund does not purchase gold, silver, platinum or palladium (each a “permitted precious metal”) products if, immediately after such purchase, more than 10% of the net assets of the Fund, taken at market value at the time of such purchase, would consist of permitted precious metal products; and (viii) the Fund does not purchase permitted precious metal products if, immediately after the purchase, the market value exposure to permitted precious metal of the Fund is more than 10% of the net assets of the Fund.

ETF Relief – U.S. Listed Permitted Precious Metals

The Manager, on behalf of the Funds (including NEI Global Sustainable Balanced Fund), has been granted exemptive relief that permits each Fund to invest in ETFs (“Underlying PPM ETFs”) that: (a) are traded on a stock exchange in the United States that do not qualify as “index participation units” (being

securities of an issuer, the only purpose of which is to (i) hold the securities that are included in a specified widely quoted market index in substantially the same proportion as those securities are reflected in that index; or (ii) invest in a manner that causes the issuer to replicate the performance of that index); and (b) that seek to provide daily results that replicate the daily performance of one or more of gold, silver, platinum or palladium (“Permitted Precious Metals”) on an unlevered basis, and/or the value of a specified derivative the underlying interest of which is a Permitted Precious Metal on an unlevered basis.

Funds will only invest in Underlying PPM ETFs if certain conditions are met, including: (i) the investment by the Fund in securities of the Underlying PPM ETFs is in accordance with the fundamental investment objective of the Fund; (ii) the securities of the Underlying PPM ETFs are traded on a stock exchange in the United States; (iii) each Fund does not purchase securities of an Underlying PPM ETF if, immediately after the transaction, more than 10% of the net asset value of the Fund, taken at market value at the time of the transaction, would consist of securities of Underlying PPM ETF; and (iv) a Fund's market value exposure (whether direct or indirect, including through Underlying PPM ETFs or any investment permitted under NI 81-102 – *Investment Funds*) to all physical commodities (including gold) does not exceed 10% of the net asset value of the Fund, taken at market value at the time of the transaction.

FundGrade Ratings Relief

The Manager, on behalf of the Funds, has been granted exemptive relief that allows the Manager to reference Fundata Canada Inc.'s FundGrade A+ Awards and FundGrade Ratings in its sales communications, subject to conditions requiring specified disclosure, the requirements that the Fundata A+ Awards being referenced have not been awarded more than 365 days before the date of the sales communication, and certain required calculations.

Part B: Specific Information About Each of the Mutual Funds Described in this Document

Pages 74 through 253 of this prospectus contain specific information about the Funds, including particulars of their respective investment objectives, strategies and risks.

What Is a Mutual Fund?

A mutual fund is an investment vehicle created to permit money contributed by people with similar investment objectives to be pooled. People who contribute money become unitholders of the mutual fund. Mutual fund unitholders share the mutual fund's income, expenses, and the gains and losses the mutual fund makes on its investments. The value of an investment in a mutual fund is realized by redeeming the units held. Where a mutual fund has more than one series of securities, each series shares in the mutual fund's income, expenses and any gains and losses allocated to the series generally in proportion to the value of each series as of the date of calculation.

A mutual fund may own different types of investments, such as, stocks, debt instruments, cash, and derivatives - all depending upon its investment objectives. The value of these investments will change from day to day, reflecting changes in interest rates, economic conditions, and market and company news, with these and other factors affecting mutual funds with varying degrees of impact. For example, mutual funds that invest in equity securities will be directly affected by changes in the equity markets generally while a mutual fund investing solely in debt instruments would not be as directly affected. The value of a mutual fund may go up and down, and the value of your investment may be more or less when you redeem it than when you purchased it.

The specific investment objectives and strategies of the Funds are separately described in Part B of this prospectus under the heading "*What does the Fund Invest in?*".

We do not guarantee that the full amount of your original investment in any of the Funds will be returned to you. Unlike bank accounts or GICs, mutual fund units are not covered by the Canada Deposit Insurance Corporation or any other government deposit insurer.

Responsible Investing

The Manager defines responsible investing ("RI") as an investment approach that incorporates environmental, social and governance ("ESG") analysis of company performance into the investment decision-making process with the goal of generating sustainable value for investors, for other company stakeholders, and for society. The Manager executes this approach through an RI program that encompasses the following activities: exclusionary screening, ESG evaluation, ESG integration, thematic investing and impact investing, active ownership, headline risk assessment, and public policy work and research, each defined further below.

- **Exclusionary screening:** Certain Funds will seek to exclude companies with any direct revenue in the production or distribution of controversial weapons, which include cluster munitions, anti-personnel landmines, biological and chemical weapons and nuclear weapons. These Funds will also seek to exclude companies with any direct revenue in the manufacturing of automatic or semi-automatic weapons intended for civilian use and companies involved in the production of tobacco.

Additional exclusionary screening is applied to all Funds that either contain the designation "RS" in the Fund name or that note expressly in their investment objectives or strategies found in Part B of this prospectus that they will apply components of the Manager's responsible approach to investing. Companies in these Funds that derive a material portion of their revenue (as defined by the

Manager) from any of the following industries designated by the Manager are excluded: Distribution of tobacco and/ or tobacco-related products, nuclear power, gambling and distribution of automatic or semi-automatic weapons intended for civilian use. The precise exclusionary screening process utilized may vary from Fund to Fund. Exceptions with respect to the application of the nuclear power screen are explained in NEI's Responsible Investment Policy.

Exclusionary screening does not apply to third-party funds or derivatives, as the Manager does not have full discretion in managing those securities.

- **ESG evaluations:** The Manager and/or the Portfolio Manager(s) or Portfolio Sub-Advisor(s) of the Funds consider company efforts on ESG issues by conducting proprietary ESG evaluations of companies to determine permissible holdings for inclusion in certain Funds, and to ensure those companies are taking meaningful steps to manage the ESG risks they face.
- **ESG integration:** For certain Funds, ESG factors such as those described below and in Table 1 are identified and assessed along with traditional financial analysis to inform investment decisions.
 - **Environmental:** Environmental factors may affect the operations and value of an investment, especially in industries that are dependent on the presence or use of natural resources. Companies should have an understanding of environmental risks and an appropriate business strategy to address such risks. Climate change is an environmental factor that may have a significant near-term or long-term financial impact, presenting either a risk or opportunity, driven by physical and transition climate factors.
 - **Social:** When a company manages relationships, various stakeholders should be considered, including employees, communities, customers, suppliers and clients, to avoid reputational and operational risks to the business. Companies should actively uphold basic human rights, including health and safety of their workforce, and they should proactively work to prevent forced labour, child labour, or any other human rights abuses from occurring in their supply chains.
 - **Governance:** The effectiveness of governance structures may impact the long-term financial performance of a company. A competent and diverse independent board of directors, robust risk management, appropriately designed executive compensation practices and strong corporate governance should support the long-term growth of a company.

Where applicable, ESG factors are aligned with global frameworks and best practices. For example, climate change factors are generally aligned with the four pillars of the Task Force on Climate-related Financial Disclosures: governance, strategy, risk management, and metrics and targets. Human rights expectations are informed by the UN Guiding Principles on Business and Human Rights, which covers factors such as human rights policies, stakeholder engagement and due diligence. Governance factors are generally aligned with governance best practice guidance such as the Canadian Coalition for Good Governance's Building High-Performance Boards and the International Corporate Governance Network's Global Governance Principles.

Table 1 below lists some of the ESG factors considered. Factors are identified and evaluated based on a material risk assessment specific to a company's sector exposure and considered at a company-specific level. The assessment of the ESG factor may take a quantitative or qualitative approach. The weighting of the ESG factor will vary between sectors based on the assessed materiality of the factor for that sector. For example, performance against the climate change factor (and associated metrics) could have a higher weighting for an energy sector company than for a technology sector company.

Table 1: Examples of ESG Factors

| Environmental | Social | Governance |
|----------------|----------------|------------------------|
| Biodiversity | Data Privacy | Board Structure |
| Climate Change | Digital Rights | Bribery and Corruption |

| Environmental | Social | Governance |
|------------------|---|------------------------|
| Waste Management | Diversity and Inclusion | Cybersecurity |
| Water Management | Financial Inclusion | Executive Compensation |
| | Health and Safety | Shareholder Rights |
| | Human Rights | |
| | Indigenous Inclusion and Reconciliation | |
| | Labour Standards | |
| | Pay Equity | |

- **Thematic investing and impact investing:** Certain Funds may also employ thematic investing focused on sustainability themes, and/or impact investing strategies. Sustainability-themed investing strategies focus on specific ESG themes related to structural shifts and long-term trends. Impact investing is intended to provide positive and measurable environmental or social impacts, in addition to investment returns.

Table 2: Breakdown of RI Program Activities by Fund

| Fund | Exclusionary screening | ESG evaluations | ESG integration | Thematic investing and impact investing |
|--------------------------------------|------------------------|-----------------|-----------------|---|
| NEI Money Market Fund | ✓ | | | |
| NEI Canadian Bond Fund | ✓ | ✓ | ✓ | |
| NEI Canadian Impact Bond Fund | ✓ | ✓ | ✓ | ✓ |
| NEI Global Impact Bond Fund | ✓ | ✓ | ✓ | ✓ |
| NEI Global Total Return Bond Fund | ✓ | ✓ | ✓ | |
| NEI Global High Yield Bond Fund | ✓ | ✓ | ✓ | |
| NEI Conservative Yield Portfolio | ✓ | | | |
| NEI Balanced Yield Portfolio | ✓ | | | |
| NEI Global Sustainable Balanced Fund | ✓ | ✓ | ✓ | ✓ |
| NEI Growth & Income Fund | ✓ | | | |
| NEI Canadian Dividend Fund | ✓ | | | |

| Fund | Exclusionary screening | ESG evaluations | ESG integration | Thematic investing and impact investing |
|---|-------------------------------|------------------------|------------------------|--|
| NEI Canadian Equity RS Fund | ✓ | ✓ | ✓ | |
| NEI Canadian Equity Fund | ✓ | | | |
| NEI ESG Canadian Enhanced Index Fund | ✓ | ✓ | ✓ | |
| NEI U.S. Dividend Fund | ✓ | | | |
| NEI U.S. Equity RS Fund | ✓ | ✓ | ✓ | |

| NEI Canadian Equity Pool | ✓ | | | |
| NEI Global Equity Pool | ✓ | | | |

*Exclusionary screening does not apply to the NEI Managed Asset Allocation Pool held within NEI Private Portfolios.

The following RI activities are generally applicable to all NEI Funds, though each activity may vary in its applicability. For example, ESG-focused proxy voting would not be applicable to Funds that hold exclusively non-voting investments such as money market and debt instruments.

- **Active ownership:** The Manager uses its rights and position of equity ownership to influence corporate strategy related to material ESG issues with the goal of guiding companies held in the Manager's Funds toward sustainable value creation for all stakeholders. Three key activities make up the Manager's active ownership program: ESG-focused proxy voting, corporate dialogue, and shareholder resolutions.
 - ESG-focused proxy voting: The Manager takes seriously its responsibility as an investor to vote at annual general meetings and special meetings of companies held in the Manager's Funds. The Manager has staff responsible for overseeing the execution of its proxy voting and decisions are guided by the Manager's proprietary Proxy Voting Guidelines for North American markets. The Manager also utilizes its proxy advisor's ESG guidelines in international markets in order to reflect local best practices.
 - Corporate dialogue: The Manager may also use the special rights that come with shareholder status to engage in dialogue with companies to alert those companies to ESG risks, propose solutions to ESG challenges they face and encourage them to improve their ESG performance. When corporate dialogue is not advancing a specific issue facing a company, the Manager may seek the views of other shareholders by filing a shareholder proposal to be included in the management proxy circular and submitted to a vote at the company's annual general meeting.

The Manager's voting decisions are aimed to promote good corporate governance practices and to support proposals that, in the Manager's view, are likely to contribute to building long-term sustainable value for all stakeholders and provide higher risk-adjusted returns for shareholders.

- **Shareholder resolutions:** When corporate dialogue and proxy voting are not enough to alter the course of management on serious issues, the Manager may file a shareholder resolution, often in collaboration with other investors. A shareholder resolution, also called a shareholder proposal, is a non-binding resolution filed for a vote at a company's annual general meeting that encourages management to take a specific action.

The Manager tracks the progress of its corporate dialogues, proxy voting, and shareholder resolutions and provides a mix of summary and detailed information about those activities on a quarterly basis. In select cases, the Manager provides a narrative description of its conversation with companies. At the end of the calendar year, the Manager assesses the success of its dialogues against two key metrics: topic responsiveness and topic outcome. The Manager discloses the cumulative results of this assessment in its annual reporting.

- **Headline risk assessment:** The Manager monitors Fund holdings on an ongoing basis to identify any new controversies and emergent ESG risks. These risks are identified through monitoring media coverage and the use of third-party monitoring services. If material risks are uncovered through headline risk assessment, the Manager determines whether the risk can be mitigated through its active ownership program or whether the risk warrants divestment.
- **Public policy work:** Public policies and standards affect the rules by which all companies must operate. The Manager may undertake activities in this area such as participating in consultations and submitting response letters to promote change on a broader scale, beyond individual companies, to remove barriers to sustainability disclosure and improve corporate performance on an industry-wide basis.
- **Research:** The Manager conducts research into a range of RI issues to support and enhance company evaluations, active ownership practices and public policy work. This research may be shared publicly among companies, investors and other stakeholders and to help build collaborative efforts in the advancement of responsible investing.

The RI approaches above are applied in whole or in part across all Funds in the Manager's lineup with the exception of NEI Managed Asset Allocation Pool. For further information, see NEI's Responsible Investment Policy, annual Focus List of company engagements, quarterly Active Ownership Reports, and Proxy Voting Guidelines and results, all of which are available on the NEI website.

The Manager is a signatory to the Net Zero Asset Managers (NZAM) initiative, which supports the goal of net-zero greenhouse gas emissions by 2050 or sooner. Investors can read more about the Manager's NZAM commitment at <https://www.netzeroassetmanagers.org/signatories/nei-investments/>.

What Are the Risks of Investing in a Mutual Fund?

Everyone has a different tolerance for risk. Some individuals are significantly more conservative than others when making their investment decisions. It is important to take into account your own comfort with risk as well as the amount of risk suitable for your financial goals. In addition, you should carefully discuss your particular investment needs and goals with your financial advisor in order to determine the optimal risk levels for your investments generally and how these and other mutual funds would be consistent with such levels.

The risks associated with investing in a mutual fund are the risks associated with the securities in which the mutual fund invests. These risks are described further below. **To the extent that a Fund invests in underlying funds, it has the same risks as the underlying funds. Accordingly, any reference to a Fund in this section is intended to also refer to any underlying funds that a Fund may invest in.**

The specific risks applicable to each Fund are separately described in Part B of this prospectus for each Fund under the heading “What Are the Risks of Investing in the Fund?”.

Asset Allocation Risk

Funds that use a "fund of fund" structure allocate their assets among underlying funds with the goal of ensuring that the asset class, investment style, geographic and market capitalization allocation for each Fund is optimal. Balanced funds employ a similar asset allocation methodology through direct investment in underlying asset classes. There can be no guarantee that a Fund will allocate its assets successfully. Similarly, there can be no guarantee against losses resulting from the asset allocation.

Capital Erosion Risk

In periods of declining markets the net asset value of a Fund may be reduced. In situations where a Fund's or a series' fixed distributions exceed net income and realized capital gains of that Fund or series, the distributions may consist in whole or in part of a return of capital, which could diminish the ability to generate future earnings.

Commodity Risk

Certain Funds may invest in gold, silver, platinum or palladium or permitted precious metal certificates (“permitted precious metals”), or underlying funds including exchange traded funds, the investments of which includes permitted precious metals.

Mutual funds that invest in permitted precious metals will be affected by changes in commodity prices. Commodity prices tend to be cyclical and may experience significant price fluctuations over a short period of time as a result of supply and demand, speculation, government and regulatory activities, international monetary, and other macroeconomic factors.

Direct purchases of permitted precious metals may generate higher custody and transaction costs than other investments. Permitted precious metals do not generally provide an income stream. A Fund will only earn money on these investments to the extent that they are sold at a price higher than their cost.

Also, mutual funds that invest in companies engaged in the energy and/or natural resources industries, such as gold, silver, platinum, oil and gas, or other commodity-focused industries will be affected by changes in the price of commodities which can fluctuate significantly in short time periods.

Concentration Risk

If the holdings of a mutual fund in one issuer exceed 10% of the Fund's assets, it is possible that the Fund may experience reduced liquidity and diversification. Additionally, if the Fund holds significant investments in a few companies, changes in the value of the securities of those companies may increase the volatility of the net asset value of the Fund.

Credit Risk

The value of fixed income securities depends, in part, on the perceived ability of the government or company that issued the securities to pay the interest and to repay the original investments. Securities issued by issuers who have a low credit rating are considered to have a higher credit risk than securities issued by issuers who have a high credit rating.

Currency Risk

The value of securities denominated in a currency other than Canadian dollars will be affected by changes in the value of the Canadian dollar in relation to the value of the currency in which the security is denominated.

Cybersecurity Risk

With the increased use of technologies such as the Internet to conduct business, the Manager and each Fund has become potentially more susceptible to operational and information security risks through breaches in cybersecurity. In general, a breach in cybersecurity can result from either a deliberate attack or an unintentional event and may arise from external or internal sources. Cybersecurity breaches may involve, among other things, infection by computer viruses or other malicious software code or unauthorized access to the Manager's or a Fund's digital information systems, networks or devices through "hacking" or other means, in each case for the purpose of misappropriating assets or sensitive information (including, for example, personal unitholder information), corrupting data or causing operational disruption or failures in the physical infrastructure or operating systems that support the Manager or the Fund. Cybersecurity risks also include the risk of losses of service resulting from external attacks that do not require unauthorized access to the Manager's or a Fund's systems, networks or devices. Any such cybersecurity breaches or losses of service may cause the Manager or a Fund to lose proprietary information, suffer data corruption or lose operational capacity, which, in turn, could cause the Manager or the Fund to incur regulatory penalties, reputational damage, additional compliance costs associated with corrective measures and/or financial loss. While the Funds and the Manager have established business continuity plans and risk management systems designed to prevent or reduce the impact of cybersecurity attacks and have obtained insurance coverage for protecting against cybersecurity risks, there are inherent limitations in such plans and systems due in part to the ever-changing nature of technology and cybersecurity attack tactics, and there is a possibility that certain risks have not been adequately identified or prepared for. The Fund or its unitholders could be negatively impacted as a result.

In addition, cybersecurity failures by or breaches of the Manager's or the Funds' third-party service providers (including, but not limited to, a Fund's Portfolio Sub-Advisor, transfer agent, custodian, administrators and other financial intermediaries) may disrupt the business operations of the service providers and of the Manager or the Fund. These disruptions may result in financial losses, the inability of Fund unitholders to transact business with the Fund and inability of the Fund to process transactions, the inability of the Fund to calculate its net asset value, violations of applicable privacy and other laws, rules and regulations, regulatory fines, penalties, reputational damage, reimbursement or other compensatory costs and/or additional compliance costs associated with implementation of any corrective measures. A Fund and its unitholders could be negatively impacted as a result of any such cybersecurity breaches, and there can be no assurance that the Fund will not suffer losses relating to cybersecurity attacks or other informational security breaches affecting the Manager's or the Fund's third-party service providers in the future, particularly as the Manager and the Fund cannot control any cybersecurity plans or systems implemented by such service providers.

Cybersecurity risks may also impact issuers of securities in which a Fund invests, which may cause the Fund's investments in such issuers to lose value.

Derivative Risk

Securities legislation sets limits on the amount and types of derivative instruments that mutual funds can hold. Generally, it depends on whether the derivative is being used for hedging purposes (to seek to mitigate market or portfolio risk) or for non-hedging purposes (to seek to enhance returns). Either way, derivatives involve risk as mentioned below. Examples of derivatives that may be used include but are not limited to options, futures, swaps or forward contracts as follows:

- **Options:** An option gives the holder the right, but not the obligation, to buy an asset from, or sell an asset to, another party for a set price, during a set period of time. A call option gives the holder the right to buy; a put option gives the holder the right to sell. Fluctuations in the value of the underlying asset during the life of the option impact the value of the option. The other party to the contract generally receives a cash payment (a premium) for agreeing to provide the option.
- **Forward contracts:** In a forward contract, an investor enters into an agreement to buy or sell an asset, such as a security or currency, at an agreed price on a future date.
- **Futures contracts:** Futures contracts generally function in a similar manner as forward contracts, except that futures are traded on an exchange.
- **Swaps:** A swap is a commitment to exchange one set of payments for another set of payments. The payments the two parties make are based on an agreed underlying amount.

Non-Hedging Strategies - Although derivatives used for non-hedging purposes may offer the potential for increased returns, such as benefiting from lower transaction costs than would otherwise arise through direct investments, they also expose a Fund to risk. In addition to the risks described below, there is the risk that the underlying security or investment on which the derivative is based, and the derivative itself, may not perform the way it is expected to perform. If this happens, a Fund may lose money on its investments.

Hedging Strategies - A hedging strategy may be used by a mutual fund in an effort to reduce the overall risk of a Fund's portfolio or one or more positions within a Fund's portfolio such as currencies, foreign markets, or specific securities. However, there can be no assurance that a Fund's hedging transactions will be effective. There may be an imperfect historical correlation between changes in the market value or attribute of the investment being hedged and the instrument with which the investment or attribute is hedged, and any historical correlation may not continue for the period during which the hedge is in place. It also precludes the opportunity for gain if the value of the hedged investment should rise. Moreover, hedging may also be costly or difficult to implement.

Whether derivatives are used as part of either hedging or non-hedging strategies, there can be no assurance that a liquid exchange or Over The Counter ("OTC") market will exist to permit a mutual fund to realize its profits or limit its losses by closing out positions. A Fund is subject to the credit risk that its counterparty (whether a clearing corporation in the case of exchange traded instruments or other third-party in the case of OTC traded instruments) may be unable to meet its obligations. In addition, there is the risk of loss by a Fund of margin deposits in the event of bankruptcy of a dealer with whom the Fund has an open derivative position. Derivative instruments traded in foreign markets may offer less liquidity and greater credit risk than comparable instruments traded in North American markets. The ability of a Fund to close out its positions may also be affected by exchange-imposed daily trading limits on exchange-traded derivatives.

ESG Investment Strategies or Objectives Risk

Some Funds may have fundamental investment objectives based on certain environmental, social and governance ("ESG") criteria. Other Funds may employ ESG analysis as a component of their investment strategies. ESG criteria, like any other metric through which investments in securities may be measured, are subject to uncertainty, limitations, and discretion. ESG methodologies and strategies may limit the types and number of investment opportunities available to a Fund and, as a result, a Fund may deviate from a benchmark or the performance of comparable funds that do not have an ESG focus.

Further, a Fund that utilizes an Index to achieve an ESG-based investment objective or strategy will generally not be able to eliminate the possibility of an Index having exposure to companies that exhibit negative ESG characteristics and/or companies that are involved in severe controversies or materially involved in specified business activities that some may consider to be inconsistent with a restrictive ESG-oriented investment approach. Subject to applicable securities law, the methodology of the Indices may also change from time to time for any reason, including as a result of changes to ESG principles generally.

Notable also is that the criteria for Responsible Investing set out on pages 74 to 79 of this prospectus and in the Manager's Responsible Investment Policy articulate our highest expectations for corporate behaviour. However, these expectations may not always be met. When the Manager becomes aware that a Portfolio Manager or a Portfolio Sub-Advisor has invested in a company that may be engaged in an activity which is inconsistent with the Manager's responsible investment objectives, or may fail to enact policies/processes that are in accordance with the Manager's assessment of ESG risks, it may continue to hold such investment and first seek to use its influence, through shareholder activism and management dialogue, to change that activity even if it, the Portfolio Manager or the Portfolio Sub-Advisor, may determine to divest in such investment.

Emerging Markets Risk

In emerging market countries, securities markets may be smaller than in more developed countries, making it more difficult to sell securities in order to take profits or avoid losses. Companies in these markets may have limited product lines, markets or resources, making it difficult to measure the value of the company. Political instability and possible corruption, as well as lower standards of regulation for business practices increase the possibility of fraud and other legal problems. Emerging markets investments may increase a Fund's volatility.

Exchange Traded Funds Risk

A Fund may invest in exchange traded funds ("ETFs") that seek to provide returns similar to a particular benchmark, such as a stock market index. These ETFs may not achieve the same return as their benchmark due to differences in the actual weighting of securities held in the ETF versus the weightings in the actual benchmark, and due to the operating and administrative expenses of the ETF.

ETFs that are traded on an exchange are subject to the following risks, which can be increased in periods of market volatility: (i) an ETF's securities may trade on the exchange at a premium or discount to the net asset value of such securities; (ii) an active trading market for an ETF may not be maintained; and (iii) there is no assurance that the ETF will continue to meet the listing requirements of the exchange.

As well, certain Funds have obtained relief from the Canadian securities regulators so that they may invest in certain ETFs that utilize leverage in an attempt to magnify returns by either a multiple or an inverse multiple of that benchmark. Units of such ETFs are highly speculative, involve a high degree of risk and are subject to increased volatility as they seek to achieve a multiple or inverse multiple of a benchmark.

Foreign Portfolio Sub-Advisor Risk

Some of the Funds have Portfolio Sub-Advisors or Portfolio Managers which are located outside of Canada. There may be difficulty enforcing any legal rights against those Portfolio Sub-Advisors because they are resident outside Canada and all or a substantial portion of their assets are situated outside Canada.

Foreign Security Risk

The value of foreign securities will be affected by factors affecting other similar securities and could also be affected by additional factors such as the absence of timely information, less stringent auditing standards and less liquid markets. As well, different financial, political and social factors may involve risk not typically associated with investing in Canada.

Fund of Fund Risk

Certain Funds may invest in securities of underlying funds, including mutual funds managed by the Manager and other mutual funds and ETFs. The proportions and types of underlying funds held by a Fund will vary according to the risk and investment objective of the Fund. Pursuant to the requirements of applicable securities legislation, no Fund will vote any of the securities it holds in an underlying fund managed by us or any of our affiliates and associates. However, we may in our sole discretion, arrange for you to vote your share of those securities of the underlying fund. To the extent that the Fund invests in underlying funds, it has the same risks as the underlying funds.

Index Investing Strategy Risk

Investments in a Fund that tracks a securities index (an “Index”) as part of its fundamental investment objectives should be made with an understanding that the applicable Index may fluctuate in accordance with the financial condition of the securities that are represented in such Index, the value of the securities generally and other factors.

If the investment objectives of a Fund are to track the performance of an applicable Index, the Manager will generally not attempt to take defensive positions in declining markets, except in certain circumstances when the Index constituents are re-evaluated on a periodic basis and as applicable. Therefore, the adverse financial condition of an issuer represented in an Index will not necessarily result in the elimination of exposure to its securities, whether direct or indirect, unless the securities of that issuer are removed from the applicable Index. Even if an issuer’s securities are removed from the applicable Index, there is no guarantee that the Fund will be able to sell such securities at an attractive price or at all.

Additionally, an investment in such a Fund should be made with an understanding that the Fund will not replicate exactly the performance of the applicable Index. The total return generated by the securities held directly or indirectly by the Fund will be reduced by transaction costs (including transaction costs incurred in adjusting the actual balance of the securities held by the Fund) as well as taxes (including withholding taxes) and other expenses borne by the Fund, whereas such transaction costs, taxes and expenses are generally not included in the calculation of the returns of the applicable Index.

Furthermore, in basing investment decisions on an Index, a Fund may have more of its net asset value invested in one or more issuers than is usually permitted for mutual funds and this may impact the liquidity and diversification of the Fund, its ability to satisfy redemption requests and on the volatility of the Fund. See “Liquidity Risk”, “Concentration Risk”, “Repurchase and Reverse Repurchase Risk” and “Volatility Risk for Securities Markets”.

A deviation could also occur in the tracking of a Fund with its applicable Index due to various transaction costs, timing differences with respect to corporate actions (such as mergers and spin-offs), index adjustments, and other timing variances, which may also lead to differences between the performance of the Fund and the performance of the applicable Index.

Index Provider Risk

To meet an Index based investment objective, a Fund or the Manager may retain a third-party Index provider. Alternatively, if the Manager calculates or maintains an Index itself, it may retain one or more such providers as a calculation agent (a third-party acting in either capacity being an “Index Provider”). There is no assurance that an Index Provider will determine, compose or calculate an Index (or any aspect thereof) accurately. The Manager or an Index Provider may also apply eligibility screens to securities included in an Index. There is no assurance that such eligibility screens will be applied accurately or consistently. Errors in respect of the quality, accuracy and completeness of data may occur from time to time and may not be identified or corrected for a period of time. As a result, gains, losses or costs associated with Index Provider errors could be borne directly by a Fund and its Unitholders.

Where a Fund seeks to replicate an Index, if the Index Provider no longer calculates or maintains the Index or the Index license agreement is terminated, the Manager may terminate the applicable Fund with advance notice, change the investment objective or seek an alternate Index (subject to any unitholder approval) or other arrangement that is in the best interests of unitholders of the applicable fund that the Manager deems appropriate.

Infrastructure Industry Risk

Companies in the infrastructure industry, including utilities and companies involved in infrastructure projects, may be subject to a variety of risks that may adversely affect their business or operations, including: high interest costs in connection with capital construction programs; high degrees of leverage; economic slowdowns; uncertainties concerning energy costs; surplus capacity; difficulty in raising capital; costs associated with changes in environmental and government regulations or policies; adverse changes in tax laws; increased competition from other service providers; evolving technological developments; labour relations tensions; and corruption in publicly funded projects. An infrastructure issuer's assets may not be moveable. Should an event that somehow impairs the performance of an infrastructure issuer's assets occur in the geographic location where the issuer operates those assets, the performance of the issuer may be adversely affected.

Interest Rate Risk

Interest rate risk is the risk that fixed income securities and other instruments held directly or indirectly by any Fund will decline in value because of an increase in interest rates. As nominal interest rates rise, the value of certain fixed income securities and other instruments held by a Fund, directly or indirectly, is likely to decrease. A nominal interest rate can be described as the sum of a real interest rate and an expected inflation rate. Fixed income securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. The values of equity and other non-fixed income securities may also decline due to fluctuations in interest rates.

Investment Trust Risk

A mutual fund may invest in real estate, royalty, income and other investment trusts which are investment vehicles in the form of trusts rather than corporations. To the extent that claims, whether in contract, in tort, or as a result of tax or statutory liability, against an investment trust are not satisfied by the trust, investors in the investment trust, including a Fund that may have invested in such investment trust, could be held liable for such obligations. Investment trusts generally seek to make this risk remote in the case of contracts by including provisions in their agreements that the obligations of the investment trust will not be binding on investors personally. However, investment trusts could still have exposure to damage claims such as personal injury and environmental claims.

Certain jurisdictions have enacted legislation to protect investors in investment trusts from the possibility of such liability. Investors in most Canadian investment trusts have been placed on the same footing as shareholders of Canadian corporations which receive the protection of statutorily mandated limited liability in several provincial jurisdictions. However, the extent to which a Fund remains at risk for the obligations of investment trusts ultimately depends on the local laws of the jurisdictions where the Fund invests in investment trusts.

Large Transaction Risk

Where a significant portion of the units of a mutual fund are held by a unitholder, including another mutual fund, there is the risk that such unitholder may purchase or redeem a substantial number of units in a

short period of time which may make the execution of the mutual fund's investment strategy difficult and thereby negatively affect its investment performance. The mutual fund may need to purchase or sell significant investments for or from its portfolio at prices less advantageous than might be obtained in respect of purchases or sales of lesser amounts of portfolio investments, which could negatively affect the mutual fund.

Legislation Risk

Securities, tax, or other regulators may make changes to legislation, rules, and administrative practice. Those changes may have an adverse impact on the value of a Fund.

Liquidity Risk:

Liquidity risk is the possibility that a mutual fund will not be able to convert its investments to cash of an amount that at least approximates the amount at which the investments are valued in calculating the Fund's net asset value, when it needs to. The value of securities which are not regularly traded (less liquid) will generally be subject to greater fluctuations and potential delays in sale or settlement. As well, in volatile markets, securities that are generally liquid may suddenly become illiquid.

Multiple Series Risk

Each series of units of a Fund will be charged, as a separate series, any expenses and administrative fees which are specifically attributable to that series. However, those expenses do continue to be a liability of the Fund as a whole and therefore, if there are insufficient assets of a series to pay those expenses, the remaining assets of the Fund would be used to pay those excess expenses. In such circumstances, the unit price of the other series would decline.

Prepayment Risk

Certain fixed-income securities, including mortgage-backed or other asset-backed securities, can be prepaid before maturity. If a prepayment is unexpected or if it occurs faster than predicted, the fixed-income security may pay less income and its value may decrease. In addition, because issuers generally choose to prepay when interest rates are falling, the mutual fund may have to reinvest this money in securities that have lower rates.

Repurchase and Reverse Repurchase Risk

Certain Funds may enter into repurchase and reverse repurchase transactions. In a repurchase transaction, a Fund sells its securities for cash through an authorized agent while at the same time it assumes an obligation to repurchase the same securities for cash (usually at a lower price) at a later date. In a reverse repurchase transaction, a Fund buys securities for cash while at the same time it agrees to resell the same securities for cash (usually at a higher price) at a later date. We have set out below some of the risks associated with these transaction types.

The counterparty may default under the agreement or go bankrupt and the Fund would be forced to make a claim to recover its investment.

The Fund could incur a loss if the value of the securities sold (in a repurchase transaction) increases in value relative to the value of the collateral held by the Fund.

The Fund could incur a loss if the value of the securities it has purchased (in a reverse repurchase transaction) decreases below the value of cash paid by the Fund to the counterparty.

Securities Lending Risk

A Fund may enter into securities lending transactions to seek to generate additional income from securities held in the Fund's portfolio. If the other party to the transaction becomes insolvent or otherwise cannot fulfill its agreement, the Fund may suffer losses. Additionally, the process of lending and recalling securities in a Fund's portfolio could be disruptive to the ability of the Manager to successfully vote such securities. For additional information about Securities Lending, see page 33.

Short Selling Risk

Because a "short sale" involves a Fund borrowing securities from a lender and selling those securities in the open market, a Fund will generally see a profit if the securities decrease in value and will generally see a loss if the securities increase in value. Unlike a purchase of securities, where the maximum amount of the loss is limited to the amount invested, there is no such limit to a Fund's exposure on a short sale. In addition, the securities loaned for the short sale may be recalled by the lender, and limitations on availability of securities may limit a Fund's freedom of action in connection with short sales.

Smaller Company Risk

Investments in smaller, less established companies may involve greater risks than investments in larger, more established companies. Smaller companies may have more limited markets and financial resources and their securities may be more sensitive to market changes.

Specific Issuer Risk

The value of all securities will vary positively and negatively with developments within the specific companies or governments which issue the securities.

Stock Market Risk

The value of most securities, in particular equity securities, changes with stock market conditions. These conditions are affected by general economic and market conditions.

Tax Risk

Generally, the Funds other than the Pools are at all relevant times expected to qualify as or be deemed to be a "mutual fund trust" under the Tax Act. In the near term, the Pools will not qualify as "mutual fund trusts" under the Tax Act. At any time that a Fund is not a "mutual fund trust" the income tax considerations under the heading "*Income Tax Considerations*" could materially differ. For example, if a Fund is not a "mutual fund trust" in a particular taxation year it may be liable to pay alternative minimum tax and/or tax under Part XII.2 of the Tax Act, it would not be entitled to a capital gains refund and its units may not be qualified investment for registered plans.

If a Fund experiences a "loss restriction event" (i) the Fund will be deemed to have a year-end for tax purposes, and (ii) the Fund will become subject to the loss restriction rules generally applicable to corporations that experience an acquisition of control, including a deemed realization of any unrealized capital losses and restrictions on their ability to carry forward losses. Generally, a Fund will be subject to a loss restriction event when a person becomes a "majority-interest beneficiary" of the Fund, or a group of persons becomes a "majority-interest group of beneficiaries" of the Fund, as those terms are defined in the affiliated persons rules contained in the Tax Act, with appropriate modifications. Generally, a majority-interest beneficiary of a Fund will be a beneficiary who, together with the beneficial interests of persons

and partnerships with whom the beneficiary is affiliated, has a fair market value that is greater than 50% of the fair market value of all the interests in the income or capital, respectively, in the Fund. Generally, a person is deemed not to become a majority-interest beneficiary, and a group of persons is deemed not to become a majority-interest group of beneficiaries, of a Fund if the Fund meets certain investment requirements and qualifies as an “investment fund” under the rules.

Volatility Risk for Securities Markets

The performance of a Fund may depend to a great extent on the future course of price movements of securities and other investments. The securities markets have in recent years been characterized by great volatility and unpredictability. Fund performance may be influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programs and policies of governments and national and international political and economic events and policies. In addition, unexpected and unpredictable events such as war, a widespread health crisis or global pandemic, terrorism and related geopolitical risks may lead to increased short-term market volatility and may have adverse long-term effects on world economies and markets generally. For example, a global pandemic may cause volatility in the global financial markets, resulting in significant disruptions to global business activity and threatening one or more slowdowns in the global economy. The impact of a global pandemic may last for an extended period and could adversely affect a Fund. The effects of similar unexpected disruptive events could affect the economies and securities markets of countries in way that cannot necessarily be foreseen at the present. Such impacts and events could have an acute effect on individual issuers, certain investment strategies such as focussing on sustainability, geography or other like factors, or markets a whole. Each Fund is, in varying ways, exposed to some, and at times and/or for some Funds, a substantial degree of market risk.

Additional Risks

Any additional risks specifically related to a Fund are set out in the specific information on the Fund in this prospectus.

Investment Restrictions

Subject always to compliance with its fundamental investment objective, each Fund is subject to, and managed in accordance with, securities legislation, including the standard investment restrictions and practices set out in National Instrument 81-102 Investment Funds (“NI 81-102”) (being the rules established by the Canadian Securities Administrators to generally govern investment funds whose securities are offered by prospectus in Canada), which are designed in part to ensure that the Funds’ investments are diversified and relatively liquid and to ensure the proper administration of the Funds. The Funds are managed in accordance with these restrictions and requirements subject to any exemptive relief therefrom. The Manager received exemptive relief from applicable securities legislation to engage in certain transactions. See “*Exemptions and Approvals*” for further information.

The Funds are also subject to National Instrument 81-107 Independent Review Committee for Investment Funds. The Manager received standing instructions from the IRC in relation to specific activities associated with investing in securities of related issuers (Investing in related issuer securities and Related party underwriting) and engaging in inter-fund trades. To ensure alignment with the regulation, the manager follows conditions provided by the IRC in the standing instructions before engaging in any of the activities mentioned above. If conditions outlined in the standing instructions can't be met, the manager must receive approval from the IRC first.

Description of Securities Offered by Mutual Fund

Dividend & Distribution Rights

Each series unit entitles the holder thereof to participate equally in the distributions of the Fund made to that series. A series of units of a fund will be entitled to a distribution equal to that series pro-rata share of Net Income, Net Capital Gains or returns of capital, adjusted to series specific expenses. A series of a fund may pay distribution of net income, net capital gains, or return of capital at the discretion of the manager. All distributions paid by a series of a fund will be automatically reinvested in additional units of the same series of the fund. You may, by written request, elect to receive cash payment. Units acquired through reinvestment of distributions are not subject to any sales charges. The frequency of distributions of each fund or series of units of a fund is indicated in the Fund Facts document.

The Manager reserves the right to make additional distributions in any year if determined to be appropriate. In each case, distributions will be reinvested by purchasing additional units of the same series of the Fund unless you ask us at least 5 business days in advance to be paid in cash rather than receive units of the Fund.

The distribution policy is reviewed not less than once annually and may be changed at any time, depending upon market conditions.

Voting Rights

Each unit holder has the right to exercise one vote at unitholder meetings for each unit held of a fund. If a series of a fund is affected separately, the series is entitled to vote separately.

Matters Requiring Unitholder Approval

In accordance with securities legislation and each Declaration of Trust, the following material changes require unitholder approval by no less than a majority of votes of a Fund or particular series of a Fund:

- A change to the basis of calculation of fees or expenses that are charged to a Fund, a series of a Fund or directly to unitholders by the Fund or the Manager in connection with the holding of units that could result in an increase in charges to the Fund, the series of a Fund or the unitholders of a Fund or the introduction of such a fee or expense. Unitholder approval is not required if (i) (A) the Fund is at an arm's length with the person or company charging the fee or expense to the Fund and (B) the Fund's investors receive written notice of the change at least 60 days before its effective date; or (ii) (A) the change is in respect of a 'no load' series of the Fund; and (B) the Fund's investors receive written notice of the change at least 60 days before its effective date.
- A change of the manager of a Fund other than an affiliate of the manager.
- A change in the fundamental investment objectives of a Fund.
- A decrease in the frequency of calculating the NAV of a series of a Fund.
- A reorganization of a Fund or the transfer of the Fund's assets to another issuer which results in the Fund ceasing to continue after the reorganization or transfer and the transaction results in unitholders of the Fund becoming securityholders of the other issuer. Notwithstanding the foregoing, no unitholder approval will be required for such a change if that change is approved by the IRC of the Fund, the assets of the Fund are being transferred to another mutual fund to which NI 81-102 and NI 81-107 both apply and that is managed by the Manager or an affiliate of the Manager, the reorganization or transfer of assets complies with other relevant securities legislation, and written notice of the reorganization or transfer is sent to the Fund's unitholders at least 60 days' prior to the effective date of the reorganization or transfer.

- A reorganization of a Fund or the acquisition of assets from, another issuer, which results in the Fund continuing after such reorganization or acquisition, and the transaction results in the unitholders of the other issuer becoming unitholders of the Fund and the transaction would be a material change to the Fund.
- A restructuring into a non-redeemable investment fund or an issuer that is not an investment fund (of which the Fund will not bear any costs or expenses).
- A change to the auditor of the Funds unless the IRC of the Fund approves the change and unitholders of the Fund are sent a written notice at least 60 days before the effective date of the change.

Changes to the Declaration of Trust

Certain amendments to each Declaration of Trust governing the Funds may not be made without the approval of a majority of votes cast at a meeting of unitholders duly called for that purpose. Such amendments include any change to the rights, privileges or restrictions attaching to units of the Fund which would have the potential to adversely impact the financial interests or rights of unitholders or any other change for which approval of unitholders is required by securities legislation or pursuant to the Declaration of Trust. Notwithstanding the prior two sentences, under each Declaration of Trust, the Trustee is entitled to amend each Declaration of Trust where: (i) the securities legislation requires that written notice be given to unitholders before the change takes effect (e.g. see above under “*Matters Requiring Unitholder Approval*”); (ii) the Trustee reasonably believes that the proposed amendment has the potential to adversely impact the financial interests or rights of the unitholders, so that it is equitable to give unitholders advance notice of the proposed change; and (iii) in respect of Funds other than the Specified Funds, the change would not be prohibited by the securities legislation. All other amendments to the Declaration of Trust may be made by the Trustee without unitholder approval or prior notice to any unitholder.

In particular, the Trustee may amend each Declaration of Trust without the approval of or prior notice to any unitholders of the Funds, if the Trustee reasonably believes that the proposed amendment does not have the potential to adversely impact the financial interests or rights of unitholders, including:

- to ensure compliance with applicable laws, regulations or policies of any governmental authority having jurisdiction over the Fund or the distribution of its units;
- to remove any conflicts or other inconsistencies which may exist between any of the terms of the Declaration of Trust and any provisions of any applicable laws, regulations or policies affecting the Fund, the Trustee or its agents;
- to make any change or correction in the Declaration of Trust which is a typographical correction or is required to cure or correct any ambiguity or defective or inconsistent provision, clerical omission or error contained therein;
- to facilitate the administration of the Fund as a mutual fund trust or make amendments or adjustments in response to any existing or proposed amendments to the Tax Act or its administration which might otherwise adversely affect the tax status of the Fund or its unitholders;
- for the purposes of protecting the unitholders of the Fund;
- in respect of Funds other than the Specified Funds, to amend the provisions of the Declaration of Trust, if the Trustee is of the opinion that the amendment is not prejudicial to unitholders and is necessary or desirable; and
- in respect of Funds other than the Specified Funds, to divide the beneficial interest in a Fund into one or more series of units and to establish and designate rights, restrictions, conditions or limitations for a series of units which the trustee may determine to establish or to reorganize or restructure a Fund, provided that in each case the rights of any existing unitholders at such time are not changed in a manner which is adverse to the interests of such unitholder; and

- in respect of the Specified Funds, to make changes to the investment restrictions and policies.

Liquidation Rights

In the event a Fund or a particular series of units of a Fund is terminated, each unit owned will be entitled to a proportionate share in the net assets of the Fund or series of units of the Fund. Net assets upon termination of the Fund or series of units of the Fund is determined as the attributable assets after all of the Funds, or series of units of the fund liabilities have been paid or provided for.

Conversion & Redemption Rights

Units of most funds may be exchanged other units of that particular fund, or another fund listed in this prospectus, as described under the “Purchases, Switches, and Redemptions” section in part A of this prospectus.

Units of most funds may be redeemed as described under the “Purchases, Switches, & Redemptions” section in Part A of this prospectus.

Name, Formation, and History of the Funds

The Funds, other than the Specified Funds, were formed under the laws of Ontario and are governed by an amended and restated master declaration of trust dated June 26, 2014, as amended from time to time bearing the formation dates set out below. The NEI Select Maximum Growth RS Portfolio, NEI Select Growth & Income RS Portfolio, and NEI ESG Canadian Enhanced Index Fund (collectively, the “Specified Funds”) were formed under the laws of Ontario pursuant to an amended and restated master declaration of trust dated October 26, 2018, as amended from time to time. Each declaration of trust is referred to herein as a “Declaration of Trust”. Each Declaration of Trust permits the Funds to issue more than one series of units (the purpose of any multiple series of units being to provide various management fee structures, distribution payments, dealer compensation packages, or investment options to investors).

Units are offered for sale to the public only in those jurisdictions where they may be lawfully offered on a continuous basis and may only be offered by those persons registered with the appropriate securities authorities in the jurisdictions and which have been approved by the Manager.

The head office of the Funds is located at 151 Yonge Street, 12th Floor, Toronto, Ontario M5C 2W7.

Northwest & Ethical Investments L.P. is the manager of the Funds (the “Manager” or “Northwest and Ethical” or “NEI Investments”) and is the trustee of the Funds (the “Trustee”). The Manager is the portfolio manager for all of the Funds except where indicated in the section below, Portfolio Managers and Portfolio Sub-Advisors.

NEI Investments became the Manager and Trustee of the Funds, other than the Specified Funds, in existence on December 28, 2007 upon completion of a transaction which combined the fund management activities of Northwest Mutual Funds Inc., the previous manager of the Northwest Funds, with the fund management activities of Ethical Funds Inc., the previous manager of the Ethical Funds and the Credential Select Funds, which were renamed the Northwest Select Funds.

NEI Investments became the Manager and Trustee of the Specified Funds effective October 26, 2018, pursuant to the completion of a transaction which combined the fund management and fund activities of OceanRock Investments Inc., the previous manager of the Specified Funds, with NEI Investments. The Specified Funds were renamed and rebranded under the NEI fund line-up.

Investment Risk Classification Methodology

As required by securities legislation we determine the investment risk level of each fund in accordance with a standardized risk classification methodology that is based on the mutual fund's historical volatility as measured by the 10-year standard deviation of the returns of the mutual fund. The Manager identifies the investment risk level of a Fund by using the standard methodology in Appendix F Investment Risk Classification Methodology of National Instrument 81-102 Investment Funds ("NI 81-102"). This methodology is based on the historical volatility risk of a Fund based on its standard deviation of returns. Standard deviation is a common statistic used to measure the volatility and risk of an investment. A Fund's risk is measured using its standard deviation for the most recent ten years, calculated monthly and annualized from the inception of the Fund with the categories set out below, assuming the reinvestment of all income and capital gains distributions in additional units of the Fund. For those Funds that do not have at least ten years of performance history or that have changed their fundamental investment objective, the Manager will use a reference index that reasonably approximates, or for a newly established Fund, that is reasonably expected to approximate, the standard deviation of the Fund (or in certain cases a highly similar mutual fund managed by the Manager) as a proxy. Funds with higher standard deviations are generally considered to be higher risk investments. Where appropriate in the opinion of the Manager, the Manager may apply qualitative factors to classify a Fund in a higher risk rating than the volatility category indicated by NI 81-102. You should also be aware that other types of risk, both measurable and non-measurable, may exist. Each Fund has been assigned a risk rating in one of the following categories:

Low – for funds with a level of risk typically associated with investment in money market and fixed income funds.

Low to Medium – for funds with a level of risk that is typically associated with investment in balanced funds and asset allocation funds.

Medium – for funds with a level of risk that is typically associated with investment in equity funds that are diversified and contain large capitalization equities in developed markets.

Medium to High – for funds with a level of risk that is typically associated with equities concentrated in specific sectors, geographical regions, or smaller capitalization companies.

High – for funds with a level of risk that is typically associated with emerging markets or sectors of the economy where there is substantial risk of loss.

The following chart sets out the reference index used for each Fund that has less than 10 years of performance history or has changed its investment objectives in the past 10 years:

| NEI Fund | Reference Index |
|--------------------------------------|---|
| NEI Canadian Impact Bond Fund | FTSE Canada Universe Bond Index |

The following chart sets out a description of the reference index used for each Fund:

| Reference Index | Index Description |
|--|---|
| Bloomberg Barclays Global Aggregate Index (C\$ hedged) | The Bloomberg Barclays Global Aggregate Index is a measure of global investment grade debt from local currency markets. This multi-currency benchmark includes treasury, government-related, corporate, and securitized fixed-rate bonds from both developed and emerging markets issuers. This is a Canadian dollar hedged index. |
| Bloomberg Barclays U.S. Aggregate Index (C\$ hedged) | The Bloomberg Barclays U.S. Aggregate Index provides a measure of the performance of the U.S. dollar denominated investment grade bond market, which includes investment grade government bonds, investment grade corporate bonds, mortgage pass through securities, commercial mortgage backed securities and asset backed securities that are publicly for sale in the United States. This is a Canadian dollar hedged index. |
| FTSE Canada Universe Bond Index | The FTSE Canada Universe Bond Index is designed to be a broad measure of the Canadian investment grade fixed income market. Returns are calculated daily, and are weighted by market capitalization, so that the return on a bond influences the return on the |

| Reference Index | Index Description |
|---------------------------------------|--|
| | index in proportion to the bond's market value. There are four main credit or borrower categories: bonds issued by the Government of Canada (including Crown Corporations), provincial bonds (including provincially guaranteed securities), municipal bonds, and corporate bonds. |
| S&P/TSX Composite TR Index | The S&P/TSX Composite is the headline index for the Canadian equity market. It consists of the largest companies on the Toronto Stock Exchange (TSX). The Index is comprised of the S&P/TSX 60 Index and the S&P/TSX Completion Index. |
| MSCI ACWI NR Index (C\$) | The MSCI ACWI Index is designed to represent performance of the full opportunity set of large- and mid-cap stocks across developed and emerging markets. It is a free float-adjusted market capitalization weighted Index. |
| MSCI World NR Index (C\$) | The MSCI World Index is designed to represent the performance of large- and mid-cap stocks across numerous developed markets. It is a free float-adjusted market capitalization weighted Index. |
| S&P Global Infrastructure Index (C\$) | The S&P Global Infrastructure Index is designed to track companies from around the world chosen to represent the listed infrastructure industry while maintaining liquidity and tradability. |

Just as historical returns may not be indicative of future returns, historical volatility may not be indicative of future volatility as other types of risk exist in global economies.

The Funds are reviewed annually or if there has been a material change to a Fund's investment objectives or investment strategies. Details about the methodology that we use to determine the investment risk level of each Fund are available on request, at no cost to you, by contacting us at the address or email address shown on the back cover of this prospectus.

NEI Money Market Fund

| | |
|--|--|
| Fund type: | Canadian money market |
| Start Date: | Series A units: October 6, 2000 Series F units: June 9, 2017 Series I units: June 21, 2007 Series O units: June 29, 2018 Series P units: December 3, 2018 Series PF units: December 3, 2018 |
| Securities Offered: | Mutual Fund Units |
| Eligibility for Registered Plans: | Qualified Investment |
| Portfolio Manager: | Northwest & Ethical Investments L.P., Toronto, ON |
| Portfolio Sub-Advisor: | Desjardins Global Asset Management Inc., Montréal, QC |

What Does the Fund Invest in?

Investment Objectives

The objective of the Fund is to conserve capital while maintaining liquidity and achieving regular income. For that purpose, the Fund's assets are primarily invested in short-term money market instruments such as commercial paper and bankers' acceptances issued and guaranteed by major Canadian corporations and all financial institutions, including Canadian chartered banks, trust companies and savings and credit unions. The weighted average maturity of the Fund's portfolio does not exceed 90 days.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

When choosing the securities to invest in, the Fund's Portfolio Sub-Advisor selects money market instruments that it believes offer good relative value. The Portfolio Sub-Advisor invests in a number of different issuers to diversify credit risk, adjusts the Fund's term to maturity in anticipation of yield curve shifts and adjusts the distribution of securities across the investment horizon in anticipation of changes in the shape of the yield curve.

The Fund may also invest in treasury bills issued by the Government of Canada or a province of Canada, short-term debt securities, bankers' acceptances and other credit instruments issued by public administrations, or in guaranteed funds of Canadian financial institutions. The Fund may invest up to 30% of the cost of all of the Fund's property in foreign securities, provided that not less than 95% of the Fund's property be denominated in Canadian currency.

The price per series unit of each series is expected to be a constant \$10 because income of the Fund is allocated to investors daily. There is no guarantee that the Fund price will not change due to the risks identified below.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund will apply certain components of the Responsible Investing Program as described on pages 74 to 79 of this prospectus.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

The Fund's investments will be in fixed income securities. The Fund's investments in Canadian government issuers are generally considered low risk. Although we intend to maintain a constant price for these units, there is no guarantee that the price will not go up or down.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Credit risk
- Cybersecurity risk
- ESG investment strategies or objective risk
- Foreign security risk
- Interest rate risk
- Legislation risk
- Multiple series risk
- Tax risk
- Volatility risk for securities markets

The Fund's portfolio turnover rate may be high. The higher the Fund's portfolio turnover rate the greater the chance that you may receive a distribution from the Fund that must be included in determining your taxable income for tax purposes and the higher the Fund's trading costs, which are an expense of the Fund and are paid out of the Fund's assets, so that your returns may be reduced.

| Securities Offered: | Mutual Fund Units |
| Eligibility for Registered Plans: | Qualified Investment |
| Portfolio Manager: | Northwest & Ethical Investments L.P., Toronto, ON |
| Portfolio Sub-Advisor: | Guardian Capital LP, Toronto, ON |

What Does the Fund Invest in?

Investment Objectives

The Fund aims to provide high current income while protecting your original investment. It invests mostly in bonds, debentures and securities that are issued or guaranteed by the Government of Canada, a province or Canadian companies, and money market securities.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

All decisions and strategies are based on seeking the preservation of capital and an active approach to adding value. The analysis of a fixed income investment is based on both an objective analysis based on credit ratings (both internal and external) and subjective judgment based on the outlook for the company and industry. The Portfolio Sub-Advisor makes gradual changes in the portfolio and captures incremental capital gains. Along with forecasting trends in interest rates and comparative returns among fixed income sectors, the Portfolio Sub-Advisor also considers historical norms in its decision-making.

The mix of government and corporate fixed income is also altered with expected trends in the market.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use

- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance ("ESG") factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. The Portfolio Sub-Advisor ranks all bond issuers for consideration using a proprietary ESG ranking system as part of its bottom-up credit analysis, which includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may invest a portion of its assets in non-Canadian securities where such an investment is consistent with the investment objectives of the Fund. Although there is no specific limitation on the percentage of assets of the Fund that may be invested in non-Canadian securities, as of the date of this prospectus we do not expect that the Fund will invest more than 15% of its assets in non-Canadian securities.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators, including to:

- Hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies; and
- Gain exposure to individual securities and markets instead of buying the securities directly.

You will find more information about derivatives on page 32.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Capital erosion risk
- Credit risk

- Currency risk
- Cybersecurity risk
- Derivative risk
- ESG investment strategies or objectives risk
- Exchange traded funds risk
- Foreign security risk
- Interest rate risk
- Legislation risk
- Liquidity risk
- Multiple series risk
- Prepayment risk
- Repurchase and reverse repurchase risk
- Securities lending risk
- Specific issuer risk
- Tax risk
- Volatility risk for securities markets

As at June 7, 2023, the large unitholders of the Fund were as follows:

| Unitholder | % of Fund |
|---|------------------|
| NEI Select Balanced RS Portfolio | 28.27% |
| NEI Select Income & Growth RS Portfolio | 26.46% |

Please see “*Large Transaction Risk*” on page 85 for details of the risk associated with a possible redemption of securities of the Fund by these investors.

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer’s capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers’ ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors’ perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors’ heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing difficulties in valuing and selling securities.

| Portfolio Sub-Advisor: | Addenda Capital Inc., Toronto, ON |

What Does the Fund Invest in?

Investment Objectives

The investment objective of the Fund is to achieve income and long-term total returns by investing in a diversified portfolio consisting primarily of Canadian fixed income securities and related debt and debt like securities that are associated with measurable environmental and/or social impacts.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Securityholder approval (by a majority of votes cast at a meeting of security holders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Fund will seek to achieve its investment objectives by investing primarily in investment grade fixed income instruments. They will invest across a range of sectors that are addressing some of the world's major social and environmental challenges while meeting the Portfolio Sub-Advisor's proprietary impact criteria. The Fund's average credit quality is expected to be investment grade but the Fund may invest up to 20% in below investment grade rated securities in order to take advantage of market opportunities based on the Portfolio Sub-Advisor's research.

The Fund seeks to provide a positive and measurable environmental, social and governance ("ESG") impact, in addition to investment returns. For each of the investments deemed eligible for inclusion in the Fund, the Portfolio Sub-Advisor uses key performance indicators to understand the nature of the impact generated by the issuance, to ensure that the investments are making progress towards the desired impact, and to quantify and measure the impact, as applicable. This includes renewable energy generated and greenhouse gases reduced, or other metrics as may be amended from time to time. The

Portfolio Sub-Advisor's approach to impact investing involves a proprietary framework that identifies high level impact themes that may change over time, such as climate change and community development and underlying impact focus areas within each theme.

The Fund integrates ESG factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. This includes ESG factors that are relevant to a specific company, its industry and/or its sector, as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus. The Portfolio Sub-Advisor constructs the portfolio through a combination of top-down macro research and bottom-up fundamental credit research.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. Exceptions to the below may be made in the case of use-of-proceeds bonds such as green bonds, where proceeds are ringfenced and not being used for any of the below activities. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The extraction and production of fossil fuel or owning fossil fuel reserves
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund may temporarily hold a portion of its assets in cash or money markets securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators.

The Manager has obtained an exemption from the Canadian securities regulators that permits the Fund to invest more than 10% of the Fund's net asset value in fixed income securities issued or guaranteed by various governments or permitted international agencies that are traded on mature and liquid markets ("Foreign Government Securities") and provided that the acquisition of these securities is consistent with the Fund's investment objective. Specifically, the exemption permits the Fund to invest up to:

- 35% of the Fund's net asset value at the time of the transaction in evidences of indebtedness of any one issuer if those evidences of indebtedness are issued, or guaranteed fully as to principal and interest, by supranational agencies or governments other than the government of Canada, the government of a jurisdiction in Canada, or the government of the United States of America and are rated "AAA" by Standard & Poor's, or have an equivalent rating by one or more other designated rating organizations

- 20% of the Fund's net asset value at the time of the transaction in evidences of indebtedness of any one issuer if those evidences of indebtedness are issued, or guaranteed fully as to principal and interest, by supranational agencies or governments other than the government of Canada, the government of a jurisdiction in Canada or the government of the United States of America and are rated "AA" by Standard & Poor's, or have an equivalent rating by one or more other designated rating organizations

The Fund may invest up to 30% of its property in foreign securities.

The Fund may enter into repurchase and reverse repurchase transactions to seek to provide additional earnings to the Fund.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Please turn to page 79 for more information about these risks of investing in the Fund:

- Capital erosion risk
- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- ESG investment strategies or objective risk
- Foreign security risk
- Interest rate risk
- Legislation risk
- Liquidity risk
- Multiple series risk
- Repurchase and reverse purchase risk
- Prepayment risk
- Securities lending risk
- Specific issuer risk
- Tax risk
- Volatility risk for securities markets

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer's capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers' ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated

corporate fixed income securities is also affected by investors' perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors' heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing difficulties in valuing and selling securities.

What Does the Fund Invest in?

Investment Objectives

The investment objective of the Fund is to provide current income and long-term total returns by investing in debt instruments issued by companies, governments, and organizations located all over the globe whose products, services, or funding objectives help address some of the world's major social and environmental challenges.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Fund will seek to achieve its investment objectives by investing primarily in investment grade fixed income instruments throughout the globe (including developed and emerging markets), across a range of sectors that are addressing some of the world's major social and environmental challenges, and that meet the Portfolio Sub-Advisor's proprietary impact criteria. The Fund's average credit quality is expected to be investment grade but the Fund may invest up to 20% in below investment grade rated securities in order to take advantage of market opportunities based on the Portfolio Sub-Advisor's research.

The Fund seeks to provide a positive and measurable environmental, social and governance ("ESG") impact, in addition to investment returns. The Portfolio Sub-Advisor's approach to impact investing involves a proprietary framework that identifies and invests in the debt of companies and other organizations that are addressing major social and environmental challenges. This impact framework identifies candidates for its impact issuers universe along three broad thematic categories: Life

Essentials, Human Empowerment, and Environment. For each of the investments deemed eligible for inclusion in the portfolio, the Portfolio Sub-Advisor uses key performance indicators to understand the nature of the impact generated by the issuance, ensure that the investments are making progress towards the desired impact, and to quantify and measure the impact, as applicable. This includes weighted average carbon intensity, or other metrics as may be amended from time to time.

The Fund integrates ESG factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. Once the universe of impact issuers is determined, the Portfolio Sub-Advisor constructs the portfolio through a combination of top down sector allocation and bottom up fundamental research, leveraging the Portfolio Sub-Advisor's centralized team of fixed income credit research analysts and sector specialist portfolio managers. Risk management takes place throughout the portfolio construction process, leveraging the Portfolio Sub-Advisor's risk analytics tools and systems. ESG factors that are relevant to a specific company, its industry and/or its sector, as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus, are also considered as part of the impact analysis and portfolio construction process. The Portfolio Sub-Advisor's ESG research process is supported by direct engagement with select issuers.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. Exceptions to the below may be made in the case of use-of-proceeds bonds such as green bonds, where proceeds are ringfenced and not being used for any of the below activities. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The extraction and production of fossil fuel or owning fossil fuel reserves
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund may temporarily hold a portion of its assets in cash or money markets securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators.

The Manager has obtained an exemption from the Canadian securities regulators that permits the Fund to invest more than 10% of the Fund's net asset value in fixed income securities issued or guaranteed by various governments or permitted international agencies that are traded on mature and liquid markets ("Foreign Government Securities") and provided that the acquisition of these securities is consistent with the Fund's investment objective. Specifically, the exemption permits the Fund to invest up to:

- 35% of the Fund’s net asset value at the time of the transaction in evidences of indebtedness of any one issuer if those evidences of indebtedness are issued, or guaranteed fully as to principal and interest, by supranational agencies or governments other than the government of Canada, the government of a jurisdiction in Canada, or the government of the United States of America and are rated “AAA” by Standard & Poor’s, or have an equivalent rating by one or more other designated rating organizations
- 20% of the Fund’s net asset value at the time of the transaction in evidences of indebtedness of any one issuer if those evidences of indebtedness are issued, or guaranteed fully as to principal and interest, by supranational agencies or governments other than the government of Canada, the government of a jurisdiction in Canada or the government of the United States of America and are rated “AA” by Standard & Poor’s, or have an equivalent rating by one or more other designated rating organizations

The Fund may enter into repurchase and reverse repurchase transactions to seek to provide additional earnings to the Fund.

The Fund may invest more than 10% of its net assets in each of Fannie Mae and Freddie Mac.

The Fund may invest up to 100% of its property in foreign securities.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Please turn to page 79 for more information about these risks of investing in the Fund:

- Capital erosion risk
- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- Emerging markets risk
- ESG investment strategies or objectives risk
- Exchange traded funds risk
- Foreign security risk
- Interest rate risk
- Legislation risk
- Liquidity risk
- Multiple series risk
- Prepayment risk
- Repurchase and reverse repurchase risk
- Securities lending risk
- Specific issuer risk
- Tax risk
- Volatility risk for securities markets

As at June 7, 2023, the large unitholders of the Fund were as follows:

| Unitholder | % of Fund |
|---|------------------|
| NEI Select Income & Growth RS Portfolio | 21.07% |
| NEI Select Balanced RS Portfolio | 16.78% |
| NEI Balanced Private Portfolio | 12.34% |

Please see “*Large Transaction Risk*” on page 85 for details of the risk associated with a possible redemption of securities of the Fund by these investors.

Fannie Mae and Freddie Mac risk

The Manager, on behalf of the Funds, has been granted exemptive relief that permits the Funds to invest more than 10% of its net assets in each of Fannie Mae and Freddie Mac. NEI Global Impact Bond Fund may invest more than 10% of its net assets in Fannie Mae and Freddie Mac. Fannie Mae and Freddie Mac are U.S. government sponsored enterprises that provide liquidity to the U.S. residential mortgage market by issuing securities and using the proceeds primarily to purchase mortgages from financial institutions. Securities of Fannie Mae and Freddie Mac are not expressly guaranteed by the U.S. government, but are widely believed to be implicitly guaranteed by the U.S. government and have the same credit rating as the U.S. government. If Fannie Mae or Freddie Mac default on their obligations, there is a risk that the U.S. government will not guarantee payment of those obligations. Any Fund that holds securities of Fannie Mae and Freddie Mac has credit risk. This risk is greater for a Fund that invests more than 10% of its assets in the securities of Fannie Mae or Freddie Mac because of the concentration of the Fund’s assets in these securities. The exemption does not impose a limit on the amount that the Fund may invest in either Fannie Mae or Freddie Mac; accordingly, all or substantially all of the Fund’s net assets could be invested in securities of Fannie Mae and Freddie Mac at any time.

Amundi (UK) Limited is the Commodity Futures Portfolio Manager. |

What Does the Fund Invest in?

Investment Objectives

The investment objective of the Fund is to provide a high level of current income with the potential for capital gains. The Fund will invest its assets primarily in global fixed income instruments from both developed and emerging markets. The Fund can invest across all sectors and credit qualities but will be primarily invested in investment grade securities rated BBB- and above by Standard & Poor's (or its equivalent by qualified rating agencies).

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Sub-Advisor and Commodity Futures Portfolio Manager apply an investment process based on a rigorous global top-down approach consisting of allocating the active risk of the portfolio taking into consideration duration management, country and yield curve decisions, sovereign bonds, credit allocations and currency management. During normal periods, these factors are expected to have low correlation and improve the portfolio diversification.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance ("ESG") factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. The Portfolio Sub-Advisor and Commodity Futures Portfolio Manager uses various data sources to inform their proprietary quantitative ESG analysis and rating methodology, which include ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus. The resulting ESG rating is a key element in investment decisions. The worst-rated companies are excluded from the eligible universe.

The Fund follows a portfolio decarbonization approach intended to reduce the financed emissions of the corporate bond holdings of the Fund to net zero by 2050. (Financed emissions are defined as the proportion of emissions associated with the underlying holdings that are financed by the Fund's investment in those holdings.) To achieve this, some or all of the Fund's holdings will be linked to lower carbon emissions, and the Fund will strive to maintain a level of financed emissions that is lower than a projected pathway from the benchmark level at 2019 to net zero by 2050. Carbon emissions will be measured and reported in tons of CO₂ equivalent per US\$1 million in aggregate corporate revenue of Fund holdings.

The achievement of the Fund's net-zero target as described above is dependent on external factors outside the control of the Manager and Sub-Advisor. External factors include but are not limited to technology advancement, commercial developments, climate change, and the regulatory environment. There can be no guarantee the Fund will meet its target.

The investment process of the Portfolio Sub-Advisor and Commodity Futures Portfolio Manager consists of multiple steps. The Global Fixed Income and Currency team first prepares a macro-economic outlook for the markets. This is followed by construction of the strategic bond and currency scenario by the

Investment Policy Orientation Committee to determine the team's strategic views on the main global government, corporate and emerging bond, and currency markets. The Portfolio Sub-Advisor and Commodity Futures Portfolio Manager team, based on this analysis, will then implement the final portfolio positions through cash, bonds and/or derivatives.

The Fund has obtained an exemption from the Canadian securities regulators to permit the Fund to invest more than 10% of the Fund's net asset value in fixed income securities issued or guaranteed by various governments or permitted international agencies that are traded on mature and liquid markets ("Foreign Government Securities") and provided that the acquisition of these securities is consistent with the Fund's investment objective. Specifically, the exemption permits the Fund to invest up to:

- 35% of the Fund's net asset value at the time of the transaction in evidences of indebtedness of any one issuer if those evidences of indebtedness are issued, or guaranteed fully as to principal and interest, by supranational agencies or governments other than the government of Canada, the government of a jurisdiction in Canada, or the government of the United States of America and are rated "AAA" by Standard & Poor's, or have an equivalent rating by one or more other designated rating organizations
- 20% of the Fund's net asset value at the time of the transaction in evidences of indebtedness of any one issuer if those evidences of indebtedness are issued, or guaranteed fully as to principal and interest, by supranational agencies or governments other than the government of Canada, the government of a jurisdiction in Canada or the government of the United States of America and are rated "AA" by Standard & Poor's, or have an equivalent rating by one or more other designated rating organizations

The Fund may enter into repurchase and reverse repurchase transactions to seek to provide additional earnings to the Fund.

The Fund may temporarily hold a portion of its assets in cash or money markets securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators. The Fund has obtained an exemption from the Canadian securities regulators, subject to certain conditions, to permit it to use as cover a right or obligation to sell an equivalent quantity of the underlying interest of a standardized future, forward or swap when: (i) it opens or maintains a long position in a debt-like security that has a component that is a long position in a forward contract or in a standardized future or forward contract; or (ii) it enters into or maintains a swap position and during the periods when the fund is entitled to receive payments under the swap, when the Fund enters into such derivatives transactions for non-hedging purposes.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

The risks associated with the Fund's investments in Foreign Government Securities pursuant to the exemption include concentration risk (which may include the potential additional exposure to the risk of default of the issuer in which the Fund has so invested), emerging markets risk and foreign security risk. Please turn to page 79 for more information about these risks of investing in the Fund:

- Capital erosion risk
- Concentration risk
- Credit risk
- Currency risk

- Cybersecurity risk
- Derivative risk
- Emerging markets risk
- ESG investment strategies or objectives risk
- Foreign portfolio sub-advisor risk
- Foreign security risk
- Interest rate risk
- Legislation risk
- Liquidity risk
- Multiple series risk
- Prepayment risk
- Repurchase and reverse repurchase risk
- Securities lending risk
- Specific issuer risk
- Tax risk
- Volatility risk for securities markets

As at June 7, 2023, the large unitholders of the Fund were as follows:

| Unitholder | % of Fund |
|---|------------------|
| NEI Select Balanced RS Portfolio | 26.89% |
| NEI Select Income & Growth RS Portfolio | 19.41% |
| NEI Select Growth & Income RS Portfolio | 10.31% |

Please see "*Large Transaction Risk*" on page 85 for details of the risk associated with a possible redemption of securities of the Fund by these investors.

The Fund's portfolio turnover rate may be high. The higher the Fund's portfolio turnover rate the greater the chance that you may receive a distribution from the Fund that must be included in determining your taxable income for tax purposes and the higher the Fund's trading costs, which are an expense of the Fund and are paid out of the Fund's assets, so that your returns may be reduced.

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer's capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers' ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors' perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors' heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing difficulties in valuing and selling securities.

NEI Global High Yield Bond Fund

In certain circumstances, it may be difficult to enforce legal rights against this Portfolio Sub-Advisor because it is resident outside Canada and all or substantially all of its assets are located outside Canada |

What Does the Fund Invest in?

Investment Objectives

The investment objective of this Fund is to provide a high level of current income while maintaining security of capital. The Fund invests primarily in a diversified portfolio of high-yield, higher risk, global corporate bonds and notes and may also invest in other fixed income investments with similar characteristics. Most of the investments will be rated “BBB-” and below by Standard and Poor’s or Fitch, and “Baa3” or below by Moody’s or an equivalent rating by another recognized bond rating service. The Fund may also invest in investments that are not rated, investments that are in default at the time of purchase, and may invest in investments denominated in emerging market countries’ currencies.

It is expected that, except for temporary defensive purposes, the Fund will invest at least 80% of its net assets in high-yielding, income-producing corporate bonds.

The Fund follows a responsible approach to investing as set out at pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Sub-Advisor uses an investment strategy that focuses on providing added value through rigorous fundamental research, a global perspective, and dynamic risk management.

The Portfolio Sub-Advisor focuses on fundamental credit research and uses a factor/variable framework to determine buy candidates and sector weighting. Analysis of fundamentals, technicals and valuations (FTV) help the Portfolio Sub-Advisor identify directional indicators, short term influences, and ultimately whether a company is priced cheaply or expensively.

The Fund generally sells an investment if the Portfolio Sub-Advisor believes that the original investment thesis for investment in the security is no longer intact. Specifically, if the issuer displays deteriorating cash flows, an ineffective management team, or an unattractive relative valuation the Portfolio Sub-Advisor will look to sell the security.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates ESG factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. The Portfolio Sub-Advisor uses a proprietary investment approach to assign a specific ESG score for each issuer in the high yield universe. This approach includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus. The worst-rated companies are excluded from the Fund.

In ordinary circumstances, the Fund may invest up to 20% of its net assets in short-term money market instruments and other income producing cash items and may invest a greater percentage of its net assets in such money market investments and other cash items as a temporary defensive measure.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may invest up to 100% of its property in foreign securities.

The Fund may use derivatives for foreign currency hedging.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Capital erosion risk
- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- Emerging markets risk
- ESG investment strategies or objectives risk
- Exchange traded funds risk
- Foreign portfolio sub-advisor risk
- Foreign security risk
- Interest rate risk
- Legislation risk
- Liquidity risk
- Multiple series risk
- Prepayment risk
- Securities lending risk
- Specific issuer risk
- Tax risk
- Volatility risk for securities markets

As at June 7, 2023, the large unitholders of the Fund were as follows:

| Unitholder | % of Fund |
|---|------------------|
| NEI Select Balanced RS Portfolio | 29.11% |
| NEI Select Growth & Income RS Portfolio | 14.38% |
| NEI Select Growth RS Portfolio | 13.81% |
| NEI Select Income & Growth RS Portfolio | 12.13% |

Please see “*Large Transaction Risk*” on page 85 for details of the risk associated with a possible redemption of securities of the Fund by these investors.

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer's capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers' ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors' perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors' heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. What Does the Fund Invest in?

Investment Objectives

The investment objective of the Fund is to provide income and some long-term capital appreciation by investing primarily in income mutual funds and also in yield generating equity mutual funds that provide exposure to markets around the world.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager uses strategic asset allocation as the principal investment strategy. The Portfolio Manager has the flexibility to shift its asset allocation over the short-term in response to opportunities identified in the current market environment and in order to minimize risks.

The Fund invests primarily in a diversified mix of equity and income mutual funds. The Portfolio Manager selects the underlying funds in function of their expected return, volatility and correlation while accounting for investment styles and other qualitative factors.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use

- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

The Portfolio Manager may, in its sole discretion, modify the asset mix, change percentage holdings of any underlying fund, remove any underlying fund or add additional underlying funds.

The Fund may temporarily hold a portion of its assets in cash or fixed income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

To achieve its objective, the Fund invests in the following asset classes by primarily purchasing units of the underlying funds including funds managed by us. The current approximate target percentages, which are subject to adjustment from time to time under the discretion of the Portfolio Manager, of the asset class allocation for this Fund are set out below:

| | |
|-------------------------------|--------|
| Fixed Income and Money Market | 60-90% |
| Equity | 10-40% |

The percentages listed above are approximate due to continuous market fluctuations and administrative efficiencies. As a result, the actual percentages invested in the asset classes on any given day may not exactly conform to the percentages set forth above. Rebalancing will be done at the discretion of the Portfolio Manager.

The Fund may use derivatives for foreign currency hedging. You will find more information about derivatives on page 32.

The Fund may invest up to 100% of its property in foreign securities.

The Fund will apply certain components of the Responsible Investing Program as described on pages 74 to 79 of this prospectus.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Asset allocation risk
- Capital erosion risk
- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- ESG investment strategies or objectives risk
- Exchange traded funds risk
- Foreign security risk
- Interest rate risk
- Legislation risk

- Liquidity risk
- Multiple series risk
- Prepayment risk
- Securities lending risk
- Specific issuer risk
- Stock market risk
- Tax risk
- Volatility risk for securities markets

In the twelve-month period up to June 7, 2023, the Fund has held more than 10% of its net assets in the securities of certain other mutual funds. The maximum percentages of the net assets of the Fund invested in the securities of such other mutual funds in that period were approximately as follows:

| Name | % of Fund |
|---|------------------|
| NEI Global High Yield Bond Fund, Series I | 11.10% |
| NEI Global Total Return Bond Fund, Series I | 40.69% |
| NEI Canadian Bond Fund, Series I | 25.30% |
| NEI Global Impact Bond Fund, Series I | 15.21% |

The associated concentration risk is discussed under the heading “*Concentration Risk*” on page 80.

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer’s capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers’ ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors’ perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors’ heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing an underlying fund and therefore the Fund difficulties in valuing and selling their securities.

| Portfolio Manager: | Northwest & Ethical Investments L.P., Toronto, ON |

What Does the Fund Invest in?

Investment Objectives

The investment objective of the Fund is to provide income and long-term capital appreciation by investing primarily in a diversified mix of yield generating equity and income mutual funds that provide exposure to markets around the world.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager uses strategic asset allocation as the principal investment strategy. The Portfolio Manager has the flexibility to shift its asset allocation over the short-term in response to opportunities identified in the current market environment and in order to minimize risks.

The Fund invests primarily in a diversified mix of equity and income mutual funds. The Portfolio Manager selects the underlying funds in function of their expected return, volatility and correlation while accounting for investment styles and other qualitative factors.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use

- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

The Portfolio Manager may, in its sole discretion, modify the asset mix, change percentage holdings of any underlying fund, remove any underlying fund or add additional underlying funds.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

To achieve its objective, the Fund invests in the following asset classes by primarily purchasing units of the underlying funds including funds managed by us. The current approximate target percentages, which are subject to adjustment from time to time under the discretion of the Portfolio Manager, of the asset class allocation for this Fund are set out below:

| | |
|-------------------------------|--------|
| Fixed Income and Money Market | 25-55% |
| Equity | 45-75% |

The percentages listed above are approximate due to continuous market fluctuations and administrative efficiencies. As a result, the actual percentages invested in the asset classes on any given day may not exactly conform to the percentages set forth above. Rebalancing will be done at the discretion of the Portfolio Manager.

The Fund may use derivatives for foreign currency hedging. You will find more information about derivatives on page 32.

The Fund may invest up to 100% of its property in foreign securities.

The Fund will apply certain components of the Responsible Investing Program as described on pages 74 to 79 of this prospectus.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

This Fund may rely on exemptive relief as more fully described in the Annual Information Form of the Fund to invest in one or more exchange traded funds that seek to track or replicate the performance of “permitted precious metals” such as gold, silver, platinum or palladium, and the units or shares of which are listed for trading on a stock exchange in the United States of America.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Asset allocation risk
- Capital erosion risk
- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- ESG investment strategies or objectives risk

- Exchange traded funds risk
- Foreign security risk
- Foreign portfolio sub-advisor risk
- Interest rate risk
- Legislation risk
- Multiple series risk
- Securities lending risk
- Specific issuer risk
- Stock market risk
- Tax risk
- Volatility risk for securities markets

In the twelve-month period up to June 7, 2023, the Fund has held more than 10% of its net assets in the securities of certain other mutual funds. The maximum percentages of the net assets of the Fund invested in the securities of such other mutual funds in that period were approximately as follows:

| Name | % of Fund |
|---|------------------|
| NEI Global Total Return Bond Fund, Series I | 23.81% |
| NEI U.S. Dividend Fund, Series I | 11.41% |
| NEI Canadian Bond Fund, Series I | 17.54% |
| NEI Canadian Dividend Fund, Series I | 10.20% |
| NEI Global Dividend RS Fund, Series I | 14.23% |

The associated concentration risk is discussed under the heading “*Concentration Risk*” on page 80.

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer’s capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers’ ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors’ perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors’ heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing difficulties in valuing and selling securities.

What Does the Fund Invest in?

Investment Objectives

The Fund aims to generate a combination of income and capital appreciation over the long-term by investing in a globally diversified portfolio of equity and fixed income securities which fit within the Fund's definition of responsible investing.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

To achieve its investment objective, the Fund invests in a mix of global equity and fixed income securities, either directly or indirectly through the use of derivatives, as well as securities of mutual funds and/or ETFs, including funds managed by third-parties and/or those offered and managed by the Portfolio Manager. In furtherance of the Fund's responsible Investing Objectives, the Portfolio Sub-Advisor seeks

to make equity investments in companies providing environmental products and/or services and to invest in debt instruments in which the use of proceeds can be linked to making an impact with positive environmental and social outcomes in many instances. The Portfolio Sub-Advisor selects underlying investments for the Fund based on a number of criteria, including, but not limited to, compatibility with sustainability themes the Portfolio Manager and/or Portfolio Sub-Advisor have identified. The attractiveness of each holding is determined using a range of quantitative and/or qualitative investment metrics or any other criteria that the Portfolio Manager and/or Portfolio Sub-Advisor deems appropriate and applicable as part of its investment process.

The Portfolio Sub-Advisor of the Fund seeks to allocate capital towards equity investments in companies providing environmental products and/or services, and debt instruments in which the use of proceeds can be linked to making an impact with positive environmental and social outcomes in many instances. The Portfolio Sub-Advisor's fund level impact reporting provides post-investment evidence of this intentionality. The impact of the Fund's investments will be measured in accordance with the availability of the following metrics, as may be amended from time to time:

- Net CO2 impact, defined as CO2 emitted minus CO2 avoided
- Total water treated/saved/provided
- Renewable electricity generated
- Materials recovered/waste treated
- Number of educational and graduate loans financed
- Number of affordable housing units financed

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The extraction and production of fossil fuel or owning fossil fuel reserves
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates ESG factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. The Portfolio Sub-Advisor conducts a detailed, proprietary ESG analysis on each issuer under consideration for investment and reviews the analysis on a periodic basis. This analysis includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus.

The Portfolio Manager may, in its sole discretion, modify the asset mix. The Portfolio Manager and/or Portfolio Sub-Advisor may change percentage holdings of any underlying security, add or remove any underlying security, and/or add or remove additional underlying funds. The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities, or for defensive purposes during times of anticipated market volatility and/or based on the Portfolio Manager's outlook for the economy and global capital markets.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators, including to: hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies; and gain exposure to individual securities and markets instead of buying the securities directly. You will find more information about derivatives on page 32.

The Fund may invest up to 100% of its assets in non-Canadian securities.

This Fund, or any underlying securities that the fund may hold may engage in securities lending provided that such activity is in keeping with the securities regulations and disclosed in the applicable regulatory documents (see pages 29 and 33 of this prospectus for information on the Manager's securities lending program).

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Asset allocation risk
- Capital erosion risk
- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk

- Multiple series risk
- Prepayment risk
- Securities lending risk
- Smaller company risk
- Specific issuer risk
- Stock market risk

- Tax risk
- Volatility risk for securities markets

In the twelve-month period up to June 7, 2023, the Fund has held more than 10% of its net assets in the securities of certain other mutual funds. The maximum percentages of the net assets of the Fund invested in the securities of such other mutual funds in that period were approximately as follows:

| Name | % of Fund |
|--|------------------|
| NEI Environmental Leaders Fund, Series I | 60.45% |

The associated concentration risk is discussed under the heading “*Concentration Risk*” on page 80.

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer’s capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers’ ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors’ perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors’ heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing difficulties in valuing and selling securities.

What Does the Fund Invest in?

Investment Objectives

The objective of this Fund is to provide security of capital and to increase its value through capital appreciation and reinvestment of revenues by investing primarily in a mix of (i) equity securities of Canadian and foreign companies and (ii) bonds, debentures and other securities issued by governments, financial institutions and companies in Canada and in the United States and other foreign countries.

The Fund may gain exposure to Canadian fixed income securities and to United States and other foreign investments by investing in securities of mutual funds, including other Funds managed by NEI Investments.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager of the Fund uses strategic asset allocation as the principal investment strategy.

The allocation between the Canadian equity, global equity and fixed income asset classes is fairly stable and is managed by the Portfolio Manager.

The Portfolio Sub-Advisor for the Canadian equity portion of the Fund invests in companies that fit established investment criteria based on an economic value-added approach. This requires businesses to generate a high return on capital and have, in the opinion of the Portfolio Sub-Advisor, a competitive

advantage, superior management, strong financial prospects and a commitment to shareholders' interests. This Fund may also write covered calls to seek to enhance income.

The Fund intends to purchase units of other mutual funds, to gain exposure to bonds, debentures and other securities issued by governments, financial institutions and companies in Canada and to gain exposure to foreign investments of up to 100% of the portfolio.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

In selecting the underlying funds, the Portfolio Manager considers such factors as returns, consistent relative performance, risk-adjusted performance, portfolio construction, management style and organizational changes.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

The Portfolio Manager may, in its sole discretion, modify the asset mix, change percentage holdings of any underlying fund, remove any underlying fund or add additional underlying funds.

The Fund may hold cash or invest in short-term securities which are determined by the Portfolio Manager or Portfolio Sub-Advisor to be advisable as a defensive measure if determined to be appropriate for the purposes of enhancing liquidity or preserving capital in light of prevailing market or economic conditions. The Fund may also temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may invest up to 100% of its property in foreign securities.

The Fund will apply certain components of the Responsible Investing Program as described on pages 74 to 79 of this prospectus.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Asset allocation risk
- Capital erosion risk
- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk

- ESG investment strategies or objectives risk
- Exchange traded funds risk
- Foreign security risk
- Interest rate risk
- Legislation risk
- Liquidity risk
- Multiple series risk
- Prepayment risk
- Securities lending risk
- Smaller company risk
- Specific issuer risk
- Stock market risk
- Tax risk
- Volatility risk for securities markets

As at June 7, 2023, the large unitholders of the Fund were as follows:

| Unitholder | % of Fund |
|-----------------------------|------------------|
| DFS GIF – Growth and Income | 66.73% |

Please see “*Large Transaction Risk*” on page 85 for details of the risk associated with a possible redemption of securities of the Fund by this investor.

In the twelve-month period up to June 7, 2023, the Fund has held more than 10% of its net assets in the securities of certain other mutual funds. The maximum percentages of the net assets of the Fund invested in the securities of such other mutual funds in that period were approximately as follows:

| Name | % of Fund |
|---------------------------------------|------------------|
| NEI Global Dividend RS Fund, Series I | 13.46% |
| NEI Global Equity RS Fund, Series I | 11.99% |
| NEI Canadian Bond Fund, Series I | 34.85% |
| NEI Global Growth Fund, Series I | 11.92% |

The associated concentration risk is discussed under the heading “*Concentration Risk*” on page 80.

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer’s capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers' ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors' perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors' heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing difficulties in valuing and selling securities.

| Portfolio Sub-Advisor: | Lincluden Investment Management Limited, Mississauga, ON |

What Does the Fund Invest in?

Investment Objectives

This Fund's objective is to achieve a balance between high dividend income and capital growth by investing mainly in a diversified portfolio of blue-chip Canadian common stocks and, to a lesser extent, in high-yield preferred stocks and interest bearing securities.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Sub-Advisor focuses primarily on high quality, undervalued common stocks. The Portfolio Sub-Advisor's selections seek to give preference to capital preservation and capital growth, while providing a high, regular level of income over a full market cycle. The Portfolio Sub-Advisor chooses the investments by seeking out reputable businesses with sound financials that are trading below intrinsic value. The focus is on quality Canadian companies with above average yield; all else being equal, higher quality Canadian companies will have larger positions in the portfolio.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may invest up to 30% of the Fund's property at the time of investment in foreign securities.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators, including to:

- Hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies; and
- Gain exposure to individual securities and markets instead of buying the securities directly.

You will find more information about derivatives on page 32.

The Fund will apply certain components of the Responsible Investing Program as described on pages 74 to 79 of this prospectus.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Capital erosion risk
- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- ESG investment strategies or objectives risk
- Exchange traded funds risk
- Foreign security risk
- Interest rate risk
- Investment trust risk
- Legislation risk
- Liquidity risk

- Multiple series risk
- Securities lending risk
- Smaller company risk
- Specific issuer risk
- Stock market risk
- Tax risk
- Volatility risk for securities markets

As at June 7, 2023, the large unitholders of the Fund were as follows:

| Unitholder | % of Fund |
|-----------------------------|------------------|
| DFS GIF – Canadian Dividend | 16.64% |

Please see “*Large Transaction Risk*” on page 85 for details of the risk associated with a possible redemption of securities of the Fund by this investor.

What Does the Fund Invest in?

Investment Objectives

The investment objective of the Fund is to maximize returns primarily through a combination of dividends and capital growth from Canadian companies.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Sub-Advisor uses a fundamental research approach, employing a bottom-up stock selection process that includes company visits and management interviews. The Portfolio Sub-Advisor's selection process focuses on the acumen, commitment and depth of the management, the company's record of financial benefit to shareholders, the development of the company's business franchise, the strength of the company's financing, the valuation of the company's securities, and the culture of dividend payment. The Portfolio Sub-Advisor seeks to create a portfolio of enduring quality, value and growth, including dividend growth. Turnover is minimized to reduce costs. Additionally, the Portfolio Sub-Advisor manages the risks and the industry weightings in the portfolio to seek to reduce volatility, increase income, maintain diversification and assure consistency of return. The Portfolio Sub-Advisor also analyzes economic, financial, political and consumer trends to help determine the most attractive sectors and industries.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance ("ESG") factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. This includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may invest a portion of its assets in non-Canadian securities where such an investment is consistent with the investment objectives of the Fund. Although there is no specific limitation on the percentage of assets of the Fund that may be invested in non-Canadian securities, as of the date of this prospectus we do not expect that the Fund will invest more than 10% of its assets in non-Canadian securities.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

Except as noted above, the Fund may use derivatives for hedging purposes only. You will find more information about derivatives on page 32.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Cybersecurity risk

| Portfolio Sub-Advisor: | Kingwest & Company, Toronto, ON |

What Does the Fund Invest in?

Investment Objectives

The objective of this Fund is to achieve long-term capital appreciation by investing primarily in equity securities of Canadian companies. The Fund may invest in both large and small capitalization companies.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Fund invests primarily in equity securities (including securities convertible into equity securities) of Canadian companies, but may invest up to 35% of the Fund's property in similar securities of companies located outside of Canada. The Portfolio Sub-Advisor invests in companies that fit established investment criteria based on an economic value-added approach. This requires businesses to generate a high return on capital and have, in the opinion of the Portfolio Sub-Advisor, a competitive advantage, superior management, strong financial prospects and a commitment to shareholders' interests.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may hold cash or invest in short-term securities which are determined by the Portfolio Sub-Advisor to be advisable as a defensive measure if determined to be appropriate for the purposes of enhancing liquidity or preserving capital in light of prevailing market or economic conditions. The Fund may also temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund will apply certain components of the Responsible Investing Program as described on pages 74 to 79 of this prospectus.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Currency risk
- Cybersecurity risk
- Derivatives risk
- ESG investment strategies or objectives risk
- Exchange traded funds risk
- Foreign security risk
- Interest rate risk
- Investment trust risk
- Legislation risk
- Liquidity risk
- Multiple series risk
- Securities lending risk
- Smaller company risk
- Specific issuer risk
- Stock market risk
- Tax risk
- Volatility risk for securities markets

NEI ESG Canadian Enhanced Index Fund

| Securities Offered: | Mutual Fund Units |
| Eligibility for Registered Plans: | Qualified Investment |
| Portfolio Manager: | Northwest & Ethical Investments L.P., Toronto, ON |

What Does the Fund Invest in?

Investment Objectives

The investment objective of the Fund is to achieve long-term capital growth through tracking the performance of a Canadian equity index which is focused on companies with an enhanced environmental, social and governance profile.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Fund starts its equity analysis with the Solactive Canada Broad Market Index, (a Free Float Market Capitalization index that covers all Canadian securities listed on the Toronto Stock Exchange which fulfill basic liquidity criteria) and then applies an ESG evaluation framework developed and maintained on an ongoing basis by NEI as part of the investment strategies of the Fund. As a result of the investment process, the portfolio may adjust the weighting of securities both positively and negatively (including by way of full exclusion of particular securities in one or more sectors pursuant to the Manager's view of responsible investing, as adjusted from time to time).

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund may temporarily hold a portion of its assets in cash or money markets securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund integrates environmental, social and governance ("ESG") factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. This includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus

Although there is no specific limitation on the percentage of assets of the Fund that may be invested in non-Canadian securities, as of the date of this prospectus we do not expect that the Fund will invest more than 30% of its assets in non-Canadian securities.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

What Does the Fund Invest in?

Investment Objectives

The objective of this Fund is to provide investors with long-term capital growth. The Fund invests primarily in common shares of large-capitalization American corporations.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Sub-Advisor employs a value-driven, bottom-up approach to security selection that seeks to identify stocks with a high and growing dividend yield, financial strength, and attractive business models among other key characteristics.

The Fund is primarily invested in a diversified multi-cap portfolio of income producing equity securities which typically have a minimum market capitalization at the time of initial purchase and are trading below

the Portfolio Sub-Advisor's assessment of fair value. The Fund is primarily invested in U.S. dividend paying common stocks.

The Fund may also invest in a broad range of foreign stocks through the use of American Depositary Receipts (ADRs) and may also invest in foreign companies traded on U.S. exchanges, publicly traded partnerships, convertible preferred stocks, Real Estate Investment Trusts (REITs), investment companies, and royalty income trusts.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may hold cash or invest in short-term securities, which are determined by the Portfolio Sub-Advisor to be advisable as a defensive measure if determined to be appropriate for the purposes of enhancing liquidity or preserving capital in light of prevailing market or economic conditions.

The Fund may invest up to 100% of its property in foreign securities.

The Fund may use derivatives for foreign currency hedging. You will find more information about derivatives on page 32.

The Fund will apply certain components of the Responsible Investing Program as described on pages 74 to 79 of this prospectus.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Capital erosion risk

| Portfolio Sub-Advisor: | AllianceBernstein Canada, Inc., Toronto, ON |

What Does the Fund Invest in?

Investment Objectives

The Fund aims to increase the value of your investment over the long-term by investing mostly in the common shares of a wide variety of companies listed on North American stock exchanges.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Sub-Advisor aims to create an actively managed, high-conviction equity portfolio designed to outperform the market over a full cycle, while emphasizing downside protection and capturing most of the upside in rising markets. More specifically, the Portfolio Sub-Advisor seeks to identify equity securities that the Portfolio Sub-Advisor believes to have fundamentally lower volatility and less downside risks in the future while achieving a balanced exposure to quality, stability, and reasonable price factors.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance ("ESG") factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. The Portfolio Sub-Advisor uses proprietary ESG platforms as well as third-party data to identify and assess material ESG and climate risks and opportunities. This includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus. Having a full understanding of issues identified enables the Portfolio Sub-Advisor to exclude or underweight issuers whose ESG policies, in their opinion, present risks and instead add to issuers where they see existing opportunities. The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may invest up to 100% of its property in foreign securities. Except as noted above, the Fund may use derivatives for hedging purposes only. You will find more information about derivatives on page 32.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

| Securities Offered: | Mutual Fund Units |
| Eligibility for Registered Plans: | Qualified Investment |
| Portfolio Manager: | QV Investors Inc., Calgary, AB |

What Does the Fund Invest in?

Investment Objectives

The Fund aims to increase the value of your investment over the long-term by investing mostly in common shares of small capitalization or “small cap” Canadian companies listed on a stock exchange.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager invests mostly in small cap companies having a market capitalization at the time of investment between \$100 million and \$2.5 billion. The Portfolio Manager uses a fundamental research approach, employing a bottom-up stock selection process that includes company visits and management interviews. The Portfolio Manager’s selection process focuses on the acumen, commitment and depth of the management, the company’s record of financial benefit to shareholders, the development of the company’s business franchise, the strength of the company’s financing, the valuation of the company’s securities, and the culture of dividend payment. The Portfolio Manager seeks to create a portfolio of enduring quality, value and growth, including dividend growth. Turnover is minimized to reduce costs. Additionally, the Portfolio Manager manages the risks and the industry weightings in the portfolio to seek to reduce volatility, increase income, maintain diversification and assure consistency of return. The Portfolio Manager also analyzes economic, financial, political and consumer trends to help determine the most attractive sectors and industries.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons

- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance ("ESG") factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. This includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may invest a portion of its assets in non-Canadian securities where such an investment is consistent with the investment objectives of the Fund. Although there is no specific limitation on the percentage of assets of the Fund that may be invested in non-Canadian securities, as of the date of this prospectus we do not expect that the Fund will invest more than 10% of its assets in non-Canadian securities.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

Except as noted above, the Fund may use derivatives for hedging purposes only. You will find more information about derivatives on page 32.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

What Does the Fund Invest in?

Investment Objectives

The Fund aims to achieve capital appreciation over the longer term by seeking to invest primarily in the equity securities of faster growing, small-cap Canadian companies.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Sub-Advisor uses a quantitative multi-strategy ranking system to achieve long-term growth of capital through investment in Canadian corporations or Canadian listed corporations.

The Portfolio Sub-Advisor generally seeks to identify small or mid-capitalization companies which rank highly across all pillars of the multi-strategy ranking system, such as value, profit & growth and industry relative.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may hold cash or invest in short-term securities which are determined by the Portfolio Sub-Advisor to be advisable as a defensive measure if determined to be appropriate for the purposes of enhancing liquidity or preserving capital in light of prevailing market or economic conditions. The Fund may also temporarily hold a portion of its assets in cash or fixed income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may invest up to 10% of the Fund's property at the time of investment in foreign securities.

The Fund will apply certain components of the Responsible Investing Program as described on pages 74 to 79 of this prospectus.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

What Does the Fund Invest in?

Investment Objectives

The Fund seeks long-term capital appreciation and income by investing primarily in equity securities of companies anywhere in the world that pay, or may be expected to pay, dividends as well as in other types of securities that may be expected to distribute income.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Sub-Advisor seeks to invest primarily in liquid high quality stocks that pay a high and sustainable dividend. The Portfolio Sub-Advisor seeks to build a portfolio with a high level of diversification to manage volatility.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager

does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance (“ESG”) factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. The Portfolio Sub-Advisor develops internal ESG ratings, which includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus.

The Fund follows a portfolio decarbonization approach intended to reduce the financed emissions of the Fund to net zero by 2050. (Financed emissions are defined as the proportion of emissions associated with the underlying holdings that are financed by the Fund's investment in those holdings.) To achieve this, some or all of the Fund's holdings will be linked to lower carbon emissions, and the Fund will strive to maintain a level of financed emissions that is lower than a projected pathway from the benchmark level at 2019 to net zero by 2050. Carbon emissions will be measured and reported in tons of CO2 equivalent per US\$1 million in aggregate corporate revenue of Fund holdings.

The achievement of the Fund's net-zero target as described above is dependent on external factors outside the control of the Manager and Sub-Advisor. External factors include but are not limited to technology advancement, commercial developments, climate change, and the regulatory environment. There can be no guarantee the Fund will meet its target.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may invest up to 100% of its property in foreign securities.

Except as noted above, the Fund may use derivatives for hedging purposes only. You will find more information about derivatives on page 32.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

Please see “*Large Transaction Risk*” on page 85 for details of the risk associated with a possible redemption of securities of the Fund by these investors.

The Fund’s portfolio turnover rate may be high. The higher the Fund’s portfolio turnover rate the greater the chance that you may receive a distribution from the Fund that must be included in determining your taxable income for tax purposes and the higher the Fund’s trading costs, which are an expense of the Fund and are paid out of the Fund’s assets, so that your returns may be reduced.

What Does the Fund Invest in?

Investment Objectives

The investment objective of the Fund is to achieve long-term capital growth by investing primarily in equity and equity related securities of companies located globally.

The Fund follows a responsible approach to investing as set out at pages 74 to 79 of the prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Fund follows a value-oriented investment philosophy and the Portfolio Sub-Advisor evaluates each stock based on its relevant valuation metrics relative to the company's intrinsic value. Only stocks that meet the Portfolio Sub-Advisor's valuation threshold are considered for inclusion in the portfolio. The Portfolio Sub-Advisor believes that by following a rational and disciplined process, the Fund can exploit value opportunities in the market created by behavioural biases.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance ("ESG") factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. This includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in units of other funds, including ETFs and funds managed by us. The Investment Manager will only invest in units of other funds where such investment is compatible with the investment objectives and strategies of the Fund. These investments will be selected on the same basis as other investments of the Fund.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

Except as noted above, the Fund may use derivatives for hedging purposes only.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

The Fund may invest up to 100% of its property in foreign securities.

What Does the Fund Invest in?

Investment objectives

The Fund aims to increase the value of your investment over the long-term by investing in all types of securities issued by companies or governments of any nation.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment strategies

The Portfolio Manager uses an equity investment approach, based on a combination of qualitative company selection strategies and a strict pricing discipline. Implementation of this approach involves an interaction between top-down, macroeconomic analysis, bottom-up industry analysis, and security selection.

The Fund integrates environmental, social and governance (“ESG”) factors into its security selection and portfolio construction process. The Portfolio Manager uses various data sources to determine a proprietary Quantitative Environmental, Social and Governance (QESG) Score for each company in the stock selection universe. It includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this

prospectus. The Portfolio Manager will select shares in companies based on an analysis of a number of fundamental factors and ESG risk characteristics in order to generate returns. Companies that score well on a range of factors as well as on the change and current state of ESG risks will be favoured.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may invest up to 100% of its property in foreign securities.

Except as noted above, the Fund may use derivatives for hedging purposes only. You will find more information about derivatives on page 32.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Does the Fund Invest In?

Investment Objectives

The NEI Global Growth Fund seeks to achieve long-term growth by investing in a global portfolio of equities, which include common stock and other equity securities of issuers located in countries throughout developed and emerging markets. The NEI Global Growth Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

To achieve its objectives, the Fund invests primarily in equity securities either directly or indirectly, from issuers around the world, across a range of industries. The portfolio sub-advisor employs a bottom-up, benchmark unconstrained approach to security selection and selects companies that demonstrate sustainable growth prospects and good stewardship that it believes will deliver above average returns over the long-term. The portfolio sub-advisor defines good stewardship as running a business for the long-term in the interests of all stakeholders, including broader society. In assessing stewardship, the portfolio sub-advisor will look for growing companies that are driving change and considers indicators such as the long-term strategic direction and culture of a company, the capital allocation skill of management teams, and the level of alignment with customers, employees and outside stakeholders. The Fund is constructed using an individual stock picking approach by the portfolio construction group, drawing on their own research and that of other investment teams at the portfolio sub-advisor.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance ("ESG") factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. This includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund (formerly NEI Global Equity Fund) and as permitted by the Canadian Securities Administrators, including to:

- Hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies; and
- Gain exposure to individual securities and markets instead of buying the securities directly.

The Fund may invest up to 100% of its property in foreign securities.

You will find more information about derivatives on page 32.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Does the Fund Invest In?

Investment Objectives

The investment objective of the Fund is to achieve long-term capital growth by investing primarily in equity and equity-related securities of companies active in the growing resource optimization and environmental markets located globally. The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Fund seeks to achieve sustainable returns over the longer term by investing globally in companies active in the growing resource optimization and environmental markets.

These markets address a number of long-term macro-economic themes: growing populations, rising living standards, increasing urbanization, rising consumption, and depletion of limited natural resources. Investments will be made in companies whose businesses provide, utilize, implement or advise upon technology-based systems, products or services within the energy efficiency, alternative energy, resource recovery, water infrastructure and treatment, pollution control, waste management, environmental support services, and sustainable food, agriculture and forestry markets. In furtherance of its responsible

Investing Objectives, the Fund seeks to make an impact by investing in companies providing environmental products and/or services that assist companies, countries, and other groups have a more positive environmental impact.

The Portfolio Sub-Advisor of the Fund seeks to allocate capital towards companies that are active in the growing resource optimization and environmental markets. The Portfolio Sub-Advisor's fund level impact reporting provides post-investment evidence of this intentionality. The impact of the Fund's investments will be measured in accordance with the availability of the following metrics, as may be amended from time to time:

- Net CO2 impact, defined as CO2 emitted minus CO2 avoided
- Total water treated/saved/provided
- Renewable electricity generated
- Materials recovered/waste treated

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The extraction and production of fossil fuel or owning fossil fuel reserves
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates ESG factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. The Portfolio Sub-Advisor applies a primary screen to identify companies with at least 20% of capital invested or revenue derived from environmental products or services. A proprietary ESG analysis is performed on all new companies considered for the Fund, which includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus. This results in an ESG score which is used to determine eligibility for inclusion in the Fund.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators, including to:

- Hedge against losses from changes in the prices of the Fund’s investments and from exposure to foreign currencies; and
- Gain exposure to individual securities and markets instead of buying the securities directly. You will find more information about derivatives on page 32.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may invest a portion of its assets in certain ETFs. The Fund will only invest in ETFs that provide exposure to securities that are consistent with the investment objectives and strategies of the Fund. The Fund may invest up to 100% of its property in foreign securities. This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Does the Fund Invest in?

Investment Objectives

The investment objective of the Fund is to achieve long-term capital growth and income by investing primarily in equity and equity-related securities of companies which are developers, owners and operators, in full or in part, of renewable electricity technology plants and systems, and related infrastructure investments, with no geographic constraint.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Fund invests in companies responding to the rapidly increasing demand for clean energy. To achieve its investment objective, the Fund will principally invest in equity securities of companies who are developers, owners and operators, in full or in part, of renewable electricity technology plants and systems, and related infrastructure investments, with no geographic constraint.

The Fund seeks to provide a positive and measurable environmental, social and governance (“ESG”) impact, in addition to investment returns. This includes CO2 emissions avoided, or other metrics as may be amended from time to time. The Fund will strive to make a positive environmental impact by investing

a majority of its total assets in equity securities of renewable infrastructure companies, which consist of companies deriving revenues primarily from activities in power generation, transmission, distribution, storage and ancillary or related services. Such companies invest in renewable generation or other net-zero carbon and related services, and/or contribute to reducing emissions. These include, but are not limited to, those companies involved with owning solar, wind, hydro-electric, biomass, waste-to-energy and large-scale battery storage assets, as well as transmission and distribution assets related to delivering electricity, including renewable energy. The Fund will typically emphasize those companies achieving measurable improvements in overall emissions, as defined as those gases and particles that are exhausted into the air as a result of fuel combustion-related activities, relative to their market peers.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The extraction and production of fossil fuel or owning fossil fuel reserves
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates ESG factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. The Portfolio Sub-Advisor filters the global renewables infrastructure universe to screen out companies that have more than 30% of their power generation coming from coal. The final screen is to isolate companies that are at least 10% cleaner in terms of CO2 emissions than the grids in which they operate. The Portfolio Sub-Advisor will seek to utilize a proprietary investment approach that incorporates ESG risk factors into its security selection and portfolio construction. This includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus. Preference for purchase in the portfolio will be given to issuers with positive and improving trends of ESG factors – or companies amenable to dialogues on their ESG risks.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for hedging in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators, including to:

- Hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies; and
- Gain exposure to individual securities and markets instead of buying the securities directly. The Fund may invest up to 100% of its property in foreign securities.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

What Does the Fund Invest in?

Investment Objectives

The investment objective of the Fund is to achieve long-term capital growth by investing primarily in equity and equity-related securities of companies located mainly outside of Canada and the United States.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Sub-Advisor's investment approach seeks companies with sustainable and repeatable earnings growth with reasonable valuation. The strategy invests in secular growth industries through regional or global leaders that possess strong competitive advantages that can enable them to realize long-term sustainable growth in revenues and operating earnings. Through fundamental research, the Portfolio Sub-Advisor analyzes and selects companies based on four main investment criteria: industry analysis, barriers to entry, management and valuation. The selected securities are then weighted by attractiveness and conviction to create a well-diversified portfolio.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons

- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance ("ESG") factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. This includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may invest up to 100% of its property in foreign securities.

Except as noted above, the Fund may use derivatives for hedging purposes only. You will find more information about derivatives on page 32.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

| Portfolio Sub-Advisor: | Columbia Management Investment Advisers, LLC, Boston, MA, U.S.A.* *As a Portfolio Manager, we have responsibility for the investment advice given and portfolio management services provided to the Fund by Columbia Management Investment Advisers, LLC. In certain circumstances it may be difficult to enforce legal rights against this Portfolio Sub-Advisor because it is resident outside Canada and all or substantially all of its assets are located outside Canada. |

What Does the Fund Invest in?

Investment Objectives

The Fund aims to achieve long-term capital appreciation by investing its assets primarily in equity securities of emerging market companies. The Fund will be able to invest in any sector and in both large and small capitalization companies.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Sub-Advisor's investment philosophy is based on the core belief that evaluating stocks with a combination of fundamental, ESG and quantitative methods is superior to any single approach because it yields a more comprehensive understanding of factors that drive performance.

The Portfolio Sub-Advisor follows a disciplined investment process that combines top-down and bottom-up fundamental and ESG research, with quantitative tools. The bottom-up stock selection is as critical as the top-down macro analysis, given the extensive number of investable stocks in the Emerging Markets universe. The investment process seeks to identify "Stewards of Capital" companies that know how to

sustain and accelerate profitable growth, and hence are believed to be best positioned in realizing the potential created by the under-penetration of many emerging-market industries.

The Fund will exclude all companies with any direct revenue from the industries below, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the securities which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance ("ESG") factors into its security selection and portfolio construction process. These ESG factors are identified and assessed along with traditional financial analysis to inform investment decisions. Using both internal and external sources of ESG research, the Portfolio Sub-Advisor conducts research to determine a proprietary Responsible Investment (RI) rating. This includes ESG factors that are relevant to a specific company, its industry and/or its sector as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus. The RI rating is then used as an input in the overall investment process.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may temporarily hold a portion of its assets in cash or fixed income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators, including to:

- Hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies; and
- Gain exposure to individual securities and markets instead of buying the securities directly.

You will find more information about derivatives on page 32.

The Fund may invest up to 100% of its property in foreign securities.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Does the Fund Invest in?

Investment Objectives

The Fund aims to generate a high level of income while providing some potential for capital growth by investing mostly in a mix of income oriented mutual funds and to a lesser extent, equity mutual funds. The Fund invests in a variety of other mutual funds managed by different portfolio managers/portfolio sub-advisors.

To achieve its objective, the Fund will invest in underlying mutual funds, which may be managed by NEI Investments.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders), is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager uses strategic asset allocation as the principal investment strategy.

The Portfolio Manager selects the underlying funds based on of their expected return, volatility and correlation while accounting for investment styles and other qualitative factors.

The Fund will exclude all companies with any direct revenue from the industries below, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance ("ESG") factors by way of its selection of the underlying funds and portfolio construction process. Each of the underlying funds in the Fund must integrate ESG factors into their investment processes as a fundamental feature. These ESG factors of the underlying funds are identified and assessed along with traditional financial analysis to inform investment decisions.

The Portfolio Manager may, in its sole discretion, modify the asset mix, change the percentage holdings of any underlying fund, remove any underlying fund or add additional underlying funds.

Each of the Fund and the underlying funds may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

To achieve its objective, the Fund invests in the following asset classes by purchasing units of the underlying funds. The current approximate target percentages, which are subject to adjustment from time to time under the discretion of the Portfolio Manager, of the asset class allocation for this Fund are set out below:

| | |
|-------------------------------|---------|
| Fixed Income and Money Market | 60-90-% |
| Equity | 10-40% |

The percentages listed above are approximate due to continuous market fluctuations and administrative efficiencies. As a result, the actual percentages invested in the asset classes on any given day may not exactly conform to the percentages set forth above. Rebalancing will be done at the discretion of the Portfolio Manager.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund must invest at least 30% of its total assets at the time of investment in underlying funds which invest in a combination of equity securities domiciled in Canada and Canadian dollar denominated fixed income securities, including foreign fixed income securities hedged into Canadian dollar.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Asset allocation risk
- Capital erosion risk
- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- ESG investment strategies or objective risk
- Emerging markets risk
- Exchange traded funds risk
- Foreign security risk
- Infrastructure industry risk
- Interest rate risk
- Legislation risk
- Liquidity risk
- Multiple series risk
- Prepayment risk
- Securities lending risk
- Smaller company risk
- Specific issuer risk
- Stock market risk
- Tax risk
- Volatility risk for securities markets

In the twelve-month period up to June 7, 2023, the Fund has held more than 10% of its net assets in the securities of certain other mutual funds. The maximum percentages of the net assets of the Fund invested in the securities of such other mutual funds in that period were approximately as follows:

| Name | % of Fund |
|---|------------------|
| NEI Global Total Return Bond Fund, Series I | 40.29% |
| NEI Global Impact Bond Fund, Series I | 13.17% |
| NEI Canadian Bond Fund, Series I | 38.25% |

The associated concentration risk is discussed under the heading “*Concentration Risk*” on page 80.

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer's capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers' ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors' perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors' heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing an underlying fund and therefore the Fund difficulties in valuing and selling their securities.

NEI Select Income & Growth RS Portfolio

What Does the Fund Invest in?

Investment Objectives

The Fund's investment objective is to provide long-term capital growth, and generate some income by investing primarily through exposure to equity and fixed income securities.

To achieve its objective, the Fund will invest in underlying mutual funds, which may be managed by NEI Investments.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager uses strategic asset allocation as the principal investment strategy.

The Portfolio Manager selects the underlying funds based on their expected return, volatility and correlation while accounting for investment styles and other qualitative factors.

The Fund will exclude all companies with any direct revenue from the industries below, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio

Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance ("ESG") factors by way of its selection of the underlying funds and portfolio construction process. Each of the underlying funds in the Fund must integrate ESG factors into their investment processes as a fundamental feature. These ESG factors of the underlying funds are identified and assessed along with traditional financial analysis to inform investment decisions.

The Portfolio Manager may, in its sole discretion, modify the asset mix, change percentage holdings of any underlying fund, remove any underlying fund or add additional underlying funds.

Each of the Fund and the underlying funds may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

To achieve its objective, the Fund invests in the following asset classes by purchasing units of the underlying funds. The current approximate target percentages, which are subject to adjustment from time to time under the discretion of the Portfolio Manager, of the asset class allocation for this Fund are set out below:

| | |
|-------------------------------|--------|
| Fixed Income and Money Market | 15-45% |
| Equity | 55-85% |

The percentages listed above are approximate due to continuous market fluctuations and administrative efficiencies. As a result, the actual percentages invested in the asset classes on any given day may not exactly conform to the percentages set forth above. Rebalancing will be done at the discretion of the Portfolio Manager.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may invest up to 100% of its property in foreign securities.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

- Tax risk
- Volatility risk for securities markets

In the twelve-month period up to June 7, 2023, the Fund has held more than 10% of its net assets in the securities of certain other mutual funds. The maximum percentages of the net assets of the Fund invested in the securities of such other mutual funds in that period were approximately as follows:

| Name | % of Fund |
|---|------------------|
| NEI Canadian Bond Fund, Series I | 16.57% |
| NEI Global Total Return Bond Fund, Series I | 12.10% |
| NEI U.S. Equity RS Fund, Series I | 13.31% |

The associated concentration risk is discussed under the heading “*Concentration Risk*” on page 80.

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer’s capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers’ ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors’ perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors’ heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing an underlying fund and therefore the Fund difficulties in valuing and selling their securities.

What Does the Fund Invest in?

Investment Objectives

The Fund's investment objective is to provide long-term capital growth, and to a lesser extent preservation of capital, through exposure to foreign and Canadian equity securities and foreign and Canadian fixed income securities and money market securities.

To achieve its objective, the Fund will invest in underlying mutual funds, which may be managed by NEI Investments.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders), is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager uses strategic asset allocation as the principal investment strategy.

The Portfolio Manager selects the underlying funds based on their expected return, volatility and correlation while accounting for investment styles and other qualitative factors.

The Fund will exclude all companies with any direct revenue from the industries below, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance ("ESG") factors by way of its selection of the underlying funds and portfolio construction process. Each of the underlying funds in the Fund must integrate ESG factors into their investment processes as a fundamental feature. These ESG factors of the underlying funds are identified and assessed along with traditional financial analysis to inform investment decisions.

The Portfolio Manager may, in its sole discretion, modify the asset mix, change percentage holdings of any underlying fund, remove any underlying fund or add additional underlying funds.

Each of the Fund and the underlying funds may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

To achieve its objective, the Fund invests in the following asset classes by purchasing units of the underlying funds. The current approximate target percentages, which are subject to adjustment from time to time under the discretion of the Portfolio Manager, of the asset class allocation for this Fund are set out below:

| | |
|-------------------------------|---------|
| Fixed Income and Money Market | 0-30% |
| Equity | 70-100% |

The percentages listed above are approximate due to continuous market fluctuations and administrative efficiencies. As a result, the actual percentages invested in the asset classes on any given day may not exactly conform to the percentages set forth above. Rebalancing will be done at the discretion of the Portfolio Manager.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may invest up to 100% of its property in foreign securities.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Asset allocation risk
- Capital erosion risk

- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- Emerging markets risk
- ESG investment strategies or objectives risk
- Foreign security risk
- Infrastructure industry risk
- Interest rate risk
- Investment trust risk
- Legislation risk
- Liquidity risk
- Multiple series risk
- Prepayment risk
- Securities lending risk
- Smaller company risk
- Specific issuer risk
- Stock market risk
- Tax risk
- Volatility risk for securities markets

In the twelve-month period up to June 7, 2023, the Fund has held more than 10% of its net assets in the securities of certain other mutual funds. The maximum percentages of the net assets of the Fund invested in the securities of such other mutual funds in that period were approximately as follows:

| Name | % of Fund |
|--|------------------|
| NEI Global Equity RS Fund, Series I | 11.72% |
| NEI International Equity RS Fund, Series I | 12.30% |
| NEI U.S. Equity RS Fund, Series I | 21.19% |

The associated concentration risk is discussed under the heading “*Concentration Risk*” on page 80.

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer’s capacity to pay interest and repay principal.

An economic downturn could adversely impact issuers’ ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors’ perceptions. When economic conditions

appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors' heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing an underlying fund and therefore the Fund difficulties in valuing and selling their securities.

What Does the Fund Invest in?

Investment Objectives

The Fund's investment objective is to provide long-term capital growth by investing primarily through exposure to equity securities.

To achieve its objective, the Fund will invest in underlying mutual funds, which may be managed by NEI Investments.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager uses strategic asset allocation as the principal investment strategy.

The Portfolio Manager selects the underlying funds based on their expected return, volatility and correlation while accounting for investment styles and other qualitative factors.

The Fund will exclude all companies with any direct revenue from the industries below, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio

Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund integrates environmental, social and governance ("ESG") factors by way of its selection of the underlying funds and portfolio construction process. Each of the underlying funds in the Fund must integrate ESG factors into their investment processes as a fundamental feature. These ESG factors of the underlying funds are identified and assessed along with traditional financial analysis to inform investment decisions.

The Portfolio Manager may, in its sole discretion, modify the asset mix, change percentage holdings of any underlying fund, remove any underlying fund or add additional underlying funds.

Each of the Fund and the underlying funds may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

To achieve its objective, the Fund invests in the following asset classes by purchasing units of the underlying funds. The current approximate target percentages, which are subject to adjustment from time to time under the discretion of the Portfolio Manager, of the asset class allocation for this Fund are set out below:

| | |
|-------------------------------|---------|
| Fixed Income and Money Market | 0-20% |
| Equity | 80-100% |

The percentages listed above are approximate due to continuous market fluctuations and administrative efficiencies. As a result, the actual percentages invested in the asset classes on any given day may not exactly conform to the percentages set forth above. Rebalancing will be done at the discretion of the Portfolio Manager.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may invest up to 100% of its property in foreign securities.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Asset allocation risk
- Capital erosion risk
- Commodity risk

- Credit risk

What Does the Fund Invest in?

Investment Objectives

The Fund's investment objective is to generate income while providing some capital growth over the long-term through exposure to foreign and Canadian fixed income and money market instruments and exposure to foreign and Canadian equity securities while primarily focussing on positive environmental and/or social impact.

To achieve its objective, the Fund will invest in underlying funds, which may be managed by NEI Investments.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager uses strategic asset allocation as the principal investment strategy.

The Portfolio Manager fulfills the Fund's investment mandate primarily by selecting underlying funds that seek to provide positive and measurable environmental and/or social impact, in addition to investment returns. For each of the applicable underlying funds in the Fund, the Portfolio Manager uses metrics to understand the nature of the impact generated by the underlying fund to ensure that the underlying investments are making progress towards the desired impact, and to quantify and measure the impact, as applicable. The Portfolio Manager's impact selection criteria identifies underlying funds whose environmental and social impacts include, but are not limited to, climate change and human empowerment, as may be amended from time to time.

The Fund integrates environmental, social and governance ("ESG") factors, as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus, by way of its selection of the underlying funds and portfolio construction process. Each of the underlying funds in the Fund must integrate ESG factors into their investment processes as a fundamental feature.

In addition to ESG factors, the Portfolio Manager selects the underlying funds in consideration of other quantitative factors including expected return, volatility and correlation while also accounting for various qualitative factors.

The Fund will exclude all companies with any direct revenue from the industries below, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds or derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Portfolio Manager may, in its sole discretion, modify the asset mix, change percentage holdings of any underlying fund, remove any underlying fund or add additional underlying funds.

Each of the Fund and the underlying funds may temporarily hold a portion of its assets in cash or fixed income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The current target ranges, which are subject to adjustment from time to time under the discretion of the Portfolio Manager, of the asset class allocation for the Fund are set out below:

Fixed Income 45-75%

Equity 25-55%

The percentages listed above are approximate due to continuous market fluctuations and administrative efficiencies. As a result, the actual percentages invested in the asset classes on any given day may not exactly conform to the percentages set forth above. Rebalancing will be done at the discretion of the Portfolio Manager.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may enter into repurchase and reverse repurchase transactions to seek to provide additional earnings to the Fund.

The Fund may invest up to 100% of its property in foreign securities.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Asset allocation risk

- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- Emerging markets risk
- ESG investment strategies or objectives risk
- Exchange traded funds risk
- Foreign security risk
- Infrastructure industry risk
- Interest rate risk

What Does the Fund Invest in?

Investment Objectives

The Fund's investment objective is to provide a balance between generating income and long-term capital growth through exposure to foreign and Canadian equity securities and exposure to foreign and Canadian fixed income and money market instruments while primarily focussing on positive environmental and/or social impact.

To achieve its objective, the Fund will invest in underlying funds, which may be managed by NEI Investments.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager uses strategic asset allocation as the principal investment strategy.

The Portfolio Manager fulfills the Fund's investment mandate primarily by selecting underlying funds that seek to provide positive and measurable environmental and/or social impact, in addition to investment returns. For each of the applicable underlying funds in the Fund, the Portfolio Manager uses metrics to understand the nature of the impact generated by the underlying fund to ensure that the underlying investments are making progress towards the desired impact, and to quantify and measure the impact, as applicable. The Portfolio Manager's impact selection criteria identifies underlying funds whose environmental and social impacts include, but are not limited to, climate change and human empowerment, as may be amended from time to time.

The Fund integrates environmental, social and governance ("ESG") factors, as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus, by way of its selection of the underlying funds and portfolio construction process. Each of the underlying funds in the Fund must integrate ESG factors into their investment processes as a fundamental feature.

In addition to ESG factors, the Portfolio Manager selects the underlying funds in consideration of other quantitative factors including expected return, volatility and correlation while also accounting for various qualitative factors.

The Fund will exclude all companies with any direct revenue from the industries below, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds or derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Portfolio Manager may, in its sole discretion, modify the asset mix, change percentage holdings of any underlying fund, remove any underlying fund or add additional underlying funds.

Each of the Fund and the underlying funds may temporarily hold a portion of its assets in cash or fixed income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The current target ranges, which are subject to adjustment from time to time under the discretion of the Portfolio Manager, of the asset class allocation for the Fund are set out below:

Fixed Income 25-55%

Equity 45-75%

The percentages listed above are approximate due to continuous market fluctuations and administrative efficiencies. As a result, the actual percentages invested in the asset classes on any given day may not exactly conform to the percentages set forth above. Rebalancing will be done at the discretion of the Portfolio Manager.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may enter into repurchase and reverse repurchase transactions to seek to provide additional earnings to the Fund.

The Fund may invest up to 100% of its property in foreign securities.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Asset allocation risk

- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- Emerging markets risk
- ESG investment strategies or objectives risk
- Exchange traded funds risk
- Foreign security risk
- Infrastructure industry risk
- Interest rate risk
- Legislation risk
- Liquidity risk
- Multiple series risk
- Smaller company risk
- Stock market risk
- Prepayment risk
- Repurchase and reverse repurchase risk
- Securities lending risk
- Specific issuer risk
- Tax risk
- Volatility risk for securities markets

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer's capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers' ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors' perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors' heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing difficulties in valuing and selling securities.

Additional Information

The fund may invest in Invesco ETFs that are part of the Strategic Agreement described on page 66 of this simplified prospectus. The Manager receives sub-advisory fees, paid by Invesco Canada Ltd., associated with aggregated assets under management of certain Invesco ESG Index ETFs.

What Does the Fund Invest in?

Investment Objectives

The Fund's investment objective is to provide long-term capital appreciation and to generate some income through exposure to foreign and Canadian equity securities and exposure to foreign and Canadian fixed income and money market instruments while primarily focussing on positive environmental and/or social impact.

To achieve its objective, the Fund will invest in underlying funds, which may be managed by NEI Investments.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager uses strategic asset allocation as the principal investment strategy.

The Portfolio Manager fulfills the Fund's investment mandate primarily by selecting underlying funds that seek to provide positive and measurable environmental and/or social impact, in addition to investment returns. For each of the applicable underlying funds in the Fund, the Portfolio Manager uses metrics to understand the nature of the impact generated by the underlying fund to ensure that the underlying investments are making progress towards the desired impact, and to quantify and measure the impact, as applicable. The Portfolio Manager's impact selection criteria identifies underlying funds whose environmental and social impacts include, but are not limited to, climate change and human empowerment, as may be amended from time to time.

The Fund integrates environmental, social and governance ("ESG") factors, as outlined in the responsible approach to investing on pages 74 to 79 of this prospectus, by way of its selection of the underlying funds and portfolio construction process. Each of the underlying funds in the Fund must integrate ESG factors into their investment processes as a fundamental feature.

In addition to ESG factors, the Portfolio Manager selects the underlying funds in consideration of other quantitative factors including expected return, volatility and correlation while also accounting for various qualitative factors.

The Fund will exclude all companies with any direct revenue from the industries below, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds or derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- Nuclear power (with exception for certain companies that are transitioning towards renewable energy or non-nuclear low carbon solutions as explained in the NEI Responsible Investment Policy)
- Gambling
- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Portfolio Manager may, in its sole discretion, modify the asset mix, change percentage holdings of any underlying fund, remove any underlying fund or add additional underlying funds.

Each of the Fund and the underlying funds may temporarily hold a portion of its assets in cash or fixed income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The current target ranges, which are subject to adjustment from time to time under the discretion of the Portfolio Manager, of the asset class allocation for the Fund are set out below:

Fixed Income 0-30%

Equity 70-100%

The percentages listed above are approximate due to continuous market fluctuations and administrative efficiencies. As a result, the actual percentages invested in the asset classes on any given day may not exactly conform to the percentages set forth above. Rebalancing will be done at the discretion of the Portfolio Manager.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of other funds, including ETFs and funds managed by third-parties or by us, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may enter into repurchase and reverse repurchase transactions to seek to provide additional earnings to the Fund.

The Fund may invest up to 100% of its property in foreign securities.

This Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Asset allocation risk

- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- Emerging markets risk
- ESG investment strategies or objectives risk
- Exchange traded funds risk
- Foreign security risk
- Infrastructure industry risk
- Interest rate risk
- Legislation risk
- Liquidity risk
- Multiple series risk
- Smaller company risk
- Stock market risk
- Prepayment risk
- Repurchase and reverse repurchase risk
- Securities lending risk
- Specific issuer risk
- Tax risk
- Volatility risk for securities markets

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer's capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers' ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors' perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors' heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing difficulties in valuing and selling securities.

Additional Information

The fund may invest in Invesco ETFs that are part of the Strategic Agreement described on page 66 of this simplified prospectus. The Manager receives sub-advisory fees, paid by Invesco Canada Ltd., associated with aggregated assets under management of certain Invesco ESG Index ETFs.

What Does the Fund Invest in?

Investment Objectives

The Fund's investment objectives are to generate income while providing long-term capital growth primarily by investing directly or indirectly in fixed income securities and, to a lesser extent, in equities. To achieve its objectives, the Fund will invest in underlying mutual funds, which may be managed by NEI Investments.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager uses strategic asset allocation as the principal investment strategy.

The Portfolio Manager fulfills the Fund's investment mandate primarily by investing in underlying mutual funds. The Portfolio Manager selects the underlying mutual funds based on their expected return, asset class, volatility and correlation while accounting for investment styles and other qualitative factors.

The Portfolio Manager may modify its holdings to include securities other than mutual funds, modify the asset mix, change the percentage holdings of any underlying mutual fund, remove any underlying mutual fund or add additional underlying mutual funds.

The Fund will exclude all companies with any direct revenue from the industries below, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The current target percentages, which are subject to adjustment from time to time under the discretion of the Portfolio Manager, of the asset class allocation for the Fund are set out below:

| | |
|-------------------------------|--------|
| Fixed Income and Money Market | 60-90% |
| Equity | 10-40% |

The Portfolio Manager will adjust the percentage of the Fund invested in each asset class based on changes in market outlook for each asset class, market movements, administrative efficiencies and other factors. As a result, the actual percentages invested in the asset classes on any given day will vary.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in ETFs, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators, including to:

- Hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies; and
- Gain exposure to individual securities and markets instead of buying the securities directly.

The Fund may invest up to 100% of its property in foreign securities.

The Fund may enter into repurchase and reverse repurchase transactions to seek to provide additional earnings to the Fund.

The Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Asset allocation risk
- Capital erosion risk
- Concentration risk
- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- Emerging markets risk
- ESG investment strategies or objectives risk

- Exchange traded funds risk
- Foreign security risk
- Infrastructure industry risk
- Interest rate risk
- Legislation risk
- Liquidity risk
- Multiple series risk
- Prepayment risk
- Repurchase and reverse repurchase risk
- Securities lending risk
- Stock market risk
- Tax risk
- Volatility risk for securities markets

In the twelve-month period up to June 7, 2023, the Fund has held more than 10% of its net assets in the securities of certain other mutual funds. The maximum percentages of the net assets of the Fund invested in the securities of such other mutual funds in that period were approximately as follows:

| Name | % of Fund |
|---|------------------|
| NEI Fixed Income Pool, Series I | 65.46% |
| NEI Managed Asset Allocation Pool, Series I | 20.35% |
| NEI Global Impact Bond Fund, Series I | 20.34% |

The associated concentration risk is discussed under the heading “*Concentration Risk*” on page 80.

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer’s capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers’ ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors’ perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors’ heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing difficulties in valuing and selling securities.

What Does the Fund Invest in?

Investment Objectives

The Fund's investment objectives are to generate some income while providing capital growth over the long-term primarily by investing directly or indirectly in fixed income and equity securities. To achieve its objectives, the Fund will invest in underlying mutual funds, which may be managed by NEI Investments.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager uses strategic asset allocation as the principal investment strategy.

The Portfolio Manager fulfills the Fund's investment mandate primarily by investing in underlying mutual funds. The Portfolio Manager selects the underlying mutual funds based on their expected return, volatility, asset class and correlation while accounting for investment styles and other qualitative factors.

The Portfolio Manager may modify its holdings to include securities other than mutual funds, modify the asset mix, change the percentage holdings of any underlying mutual fund, remove any underlying mutual fund or add additional underlying mutual funds.

The Fund will exclude all companies with any direct revenue from the industries below, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

The distribution of automatic or semi-automatic weapons intended for civilian use

The distribution of tobacco and/or tobacco-related products

The current approximate target percentages, which are subject to adjustment from time to time under the discretion of the Portfolio Manager, of the asset class allocation for the Fund are set out below:

| | |
|-------------------------------|--------|
| Fixed Income and Money Market | 45-75% |
| Equity | 25-55% |

The Portfolio Manager will adjust the percentage of the Fund invested in each asset class based on changes in market outlook for each asset class, market movement, administrative efficiencies and other factors. As a result, the actual percentages invested in the asset classes on any given day will vary.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of ETFs, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators, including to:

- Hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies; and
- Gain exposure to individual securities and markets instead of buying the securities directly.

The Fund may invest up to 100% of its property in foreign securities.

The Fund may enter into repurchase and reverse repurchase transactions to seek to provide additional earnings to the Fund.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

What Does the Fund Invest in?

Investment Objectives

The Fund's investment objectives are to provide long-term capital growth and generate some income primarily by investing directly or indirectly in equity securities and, to a lesser extent, fixed income securities. To achieve its objectives, the Fund will invest in underlying mutual funds, which may be managed by NEI Investments.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager uses strategic asset allocation as the principal investment strategy.

The Portfolio Manager fulfills the Fund's investment mandate primarily by investing in underlying mutual funds. The Portfolio Manager selects the underlying mutual funds based on their expected return, volatility, asset class, and correlation while accounting for investment styles and other qualitative factors.

The Portfolio Manager may modify its holdings to include securities other than mutual funds, modify the asset mix, change the percentage holdings of any underlying mutual fund, remove any underlying mutual fund or add additional underlying mutual funds.

The Fund will exclude all companies with any direct revenue from the industries below, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The current approximate target percentages, which are subject to adjustment from time to time under the discretion of the Portfolio Manager, of the asset class allocation for the Fund are set out below:

| | |
|-------------------------------|---------|
| Fixed Income and Money Market | 0-30% |
| Equity | 70-100% |

The Portfolio Manager will adjust the percentage of the Fund invested in each asset class based on changes in market outlook for each asset class, administrative efficiencies and other factors. As a result, the actual percentages invested in the asset classes on any given day will vary.

The Fund may invest, directly or indirectly through the use of derivatives, a portion or even all of its assets in securities of ETFs, selected in accordance with its investment objectives and the restrictions set out by Canadian securities regulations.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators, including to:

- Hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies; and
- Gain exposure to individual securities and markets instead of buying the securities directly.

The Fund may invest up to 100% of its property in foreign securities.

The Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Asset allocation risk

What Does the Fund Invest in?

Investment Objectives

The Fund's investment objectives are to provide current income with the potential for capital gains. The Fund will invest primarily its assets in fixed income instruments from both developed and emerging markets.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Sub-Advisor evaluates each security based on the yield specific to various categories of issuers. Only securities that meet the Portfolio Sub-Advisor's evaluation criteria are considered for inclusion in the portfolio.

The Fund may invest in a diversified mix of fixed income securities, ETFs and mutual funds. The Fund's securities are selected based on their expected return, volatility and correlation while accounting for other qualitative factors.

Under normal market conditions the Fund will invest substantially all, but in no event less than 75%, of the value of its total assets directly or indirectly in fixed income securities.

The Portfolio Manager or Portfolio Sub-Advisor (as applicable) may change the percentage holdings of any security, underlying mutual fund or ETF, or remove any such security.

The Fund will exclude all companies with any direct revenue from the industries below, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund may temporarily hold a portion of its assets in cash or money markets securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators, including to:

- Hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies; and
- Gain exposure to individual securities and markets instead of buying the securities directly.

The Fund may enter into repurchase and reverse repurchase transactions to seek to provide additional earnings to the Fund.

The Fund may invest up to 100% of its property in foreign securities.

The Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- Emerging markets risk
- ESG investment strategies or objectives risk
- Exchange traded funds risk
- Foreign security risk
- Interest rate risk
- Large transaction risk
- Legislation risk
- Liquidity risk
- Repurchase and reverse repurchase risk
- Securities lending risk
- Specific issuer risk

- Tax risk
- Volatility risk for securities markets

As at June 7, 2023, the large unitholders of the Fund were as follows:

| Unitholder | % of Fund |
|---------------------------------------|------------------|
| NEI Balanced Private Portfolio | 39.74% |
| NEI Income & Growth Private Portfolio | 36.16% |
| NEI Income Private Portfolio | 21.29% |

Please see “*Large Transaction Risk*” on page 85 for details of the risk associated with a possible redemption of securities of the Fund by these investors.

The Fund’s portfolio turnover rate may be high. The higher the Fund’s portfolio turnover rate the greater the chance that you may receive a distribution from the Fund that must be included in determining your taxable income for tax purposes and the higher the Fund’s trading costs, which are an expense of the Fund and are paid out of the Fund’s assets, so that your returns may be reduced.

Higher Risk Fixed Income Securities

In many cases, higher-yielding fixed income securities carry higher risks and may have a lower rating. The securities in which this Fund may directly or indirectly invest may include such fixed income securities, which are generally subject to greater risk of loss of principal and income than higher-rated fixed income securities and are considered to be less certain with respect to the issuer’s capacity to pay interest and repay principal.

An economic downtrend could adversely impact issuers’ ability to pay interest and repay principal and could result in issuers defaulting on such payments. In addition, the value of lower rated or unrated corporate fixed income securities is also affected by investors’ perceptions. When economic conditions appear to be deteriorating, lower-rated or unrated fixed income securities may decline in market value due to investors’ heightened concerns and perceptions over credit quality.

Lower-rated and unrated corporate bonds and notes are traded principally by dealers in the over-the-counter market. The market for these securities may be less active and less liquid than for higher rated securities. Under adverse market or economic conditions, the secondary market for these bonds and notes could contract further, causing difficulties in valuing and selling securities.

NEI Canadian Equity Pool

| Portfolio Sub-Advisor | Jarislowsky, Fraser Limited, Montreal, QC |

What Does the Fund Invest in?

Investment Objectives

The Fund's investment objectives are to achieve long-term capital growth by investing its assets primarily in equity and equity related securities of Canadian companies.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Sub-Advisor evaluates each stock based on its relevant valuation metrics, growth potential and prospect of future earnings. Only stocks that meet the Portfolio Sub-Advisor's evaluation criteria are considered for inclusion in the Fund.

The Fund may invest in a diversified mix of equity securities, ETFs and mutual funds. The Fund's securities are selected based on their expected return, volatility and correlation while accounting for other qualitative factors.

The Portfolio Manager or Portfolio Sub-Advisor (as applicable) may change the percentage holdings of any security, underlying mutual fund or ETF, or remove any such security.

The Fund will exclude all companies with any direct revenue from the industries below, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators, including to:

- Hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies; and
- Gain exposure to individual securities and markets instead of buying the securities directly.

The Fund may enter into repurchase and reverse repurchase transactions to seek to provide additional earnings to the Fund.

The Fund may invest up to 30% of its property in foreign securities.

The Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Currency risk
- Cybersecurity risk
- Derivative risk
- ESG investment strategies or objectives risk
- Exchange traded funds risk
- Foreign security risk
- Large transaction risk
- Legislation risk
- Liquidity risk
- Repurchase and reverse repurchase risk
- Securities lending risk
- Smaller company risk
- Specific issuer risk
- Stock market risk
- Tax risk
- Volatility risk for securities markets

As at June 7, 2023, the large unitholders of the Fund were as follows:

| Unitholder | % of Fund |
|---------------------------------------|------------------|
| NEI Balanced Private Portfolio | 54.03% |
| NEI Growth Private Portfolio | 22.72% |
| NEI Income & Growth Private Portfolio | 18.29% |

Please see “*Large Transaction Risk*” on page 85 for details of the risk associated with a possible redemption of securities of the Fund by these investors.

What Does the Fund Invest in?

Investment Objectives

The Fund's investment objectives are to achieve long-term capital growth by investing primarily in equity and equity related securities in jurisdictions across the globe.

The Fund follows a responsible approach to investing, as described on pages 74 to 79 of this prospectus.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Fund may invest in a diversified mix of equities and equity related securities, ETFs and mutual funds. The Fund's securities are selected based on their expected return, volatility and correlation while accounting for other qualitative factors.

The Portfolio Manager or Portfolio Sub-Advisor (as applicable) may change the percentage holdings of any security, underlying mutual fund or ETF, or remove any such security.

The Fund will exclude all companies with any direct revenue from the industries below, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives:

- Automatic and/or semi-automatic weapons manufacturing for civilian use
- Controversial weapons: cluster munitions, anti-personnel landmines, biological and chemical weapons, nuclear weapons
- Tobacco production and manufacturing

In addition, the Fund will exclude all companies with sustained revenues over 10% associated with the below industries, for the underlying funds which the Portfolio Manager has full discretion. The Portfolio Manager does not have full discretion over third-party funds and derivatives. The industries below may be amended from time to time while continuing to align with the Fund's responsible investing approach:

- The distribution of automatic or semi-automatic weapons intended for civilian use
- The distribution of tobacco and/or tobacco-related products

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators, including to:

- Hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies; and
- Gain exposure to individual securities and markets instead of buying securities directly.

The Fund may enter into repurchase and reverse repurchase transactions to seek to provide additional earnings to the Fund.

The Fund may invest up to 100% of its property in foreign securities.

The Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

What Does the Fund Invest in?

Investment Objectives

This Fund's objectives are to provide long-term capital growth and some income by investing in a combination of securities, which may include ETFs. The Fund's asset mix may be changed over time to reflect the portfolio manager's outlook for each asset class.

Unitholder approval (by a majority of votes cast at a meeting of unitholders) is required prior to a fundamental change of investment objectives.

Investment Strategies

The Portfolio Manager uses tactical asset allocation as the principal investment strategy.

The Fund may invest in a diversified mix of equity securities, fixed income securities, ETFs and mutual funds. The Fund's securities are selected based on their expected return, volatility and correlation while accounting for other qualitative factors.

The Portfolio Manager may modify the asset mix, change the percentage holdings of any security, underlying fund or ETF, or remove any such security.

The Fund may temporarily hold a portion of its assets in cash or fixed-income securities while seeking investment opportunities or for defensive purposes during times of anticipated market volatility.

The Fund may use derivative instruments, such as options, futures, forward contracts and/or swaps, for both hedging and non-hedging strategies, in a manner which is consistent with the investment objectives of the Fund and as permitted by the Canadian Securities Administrators, including to:

- Hedge against losses from changes in the prices of the Fund's investments and from exposure to foreign currencies; and
- Gain exposure to individual securities and markets instead of buying the securities directly.

The Fund may enter into repurchase and reverse repurchase transactions to seek to provide additional earnings to the Fund.

The Fund may invest up to 100% of its property in foreign securities.

At the discretion of the Portfolio Manager, the Fund may apply certain components of the Responsible Investing Program as described on pages 74 to 79 of this prospectus.

The Fund may engage in securities lending, which is described on pages 29 and 33 of this prospectus.

This Fund may rely on exemptive relief to invest in one or more exchange traded funds that seek to track or replicate the performance of “permitted precious metals” such as gold, silver, platinum or palladium, and the units or shares of which are listed for trading on a stock exchange in the United States of America.

What Are the Risks of Investing in the Fund?

Investing in a mix of different mutual funds increases diversification and reduces volatility, but it also means the Fund is exposed to fund of fund risk as described on page 84 including that it will have the same risks as the underlying funds.

Please turn to page 79 for more information about these risks of investing in the Fund:

- Asset allocation risk
- Capital erosion risk
- Commodity risk
- Concentration risk
- Credit risk
- Currency risk
- Cybersecurity risk
- Derivative risk
- Emerging markets risk
- Exchange traded funds risk
- Foreign security risk
- Interest rate risk
- Large transaction risk
- Legislation risk
- Liquidity risk
- Repurchase and reverse repurchase risk
- Securities lending risk
- Specific issuer risk
- Stock market risk
- Tax risk
- Volatility risk for securities markets

As at June 7, 2023, the large unitholders of the Fund were as follows:

| Unitholder | % of Fund |
|---------------------------------------|------------------|
| NEI Balanced Private Portfolio | 48.90% |
| NEI Income & Growth Private Portfolio | 22.82% |

| | |
|------------------------------|--------|
| NEI Growth Private Portfolio | 17.88% |
| NEI Income Private Portfolio | 10.40% |

Please see “*Large Transaction Risk*” on page 85 for details of the risk associated with a possible redemption of securities of the Fund by these investors.

In the twelve-month period up to June 7, 2023, the Fund has held more than 10% of its net assets in the securities of certain exchange traded funds. The maximum percentages of the net assets of the Fund invested in the securities of such exchange traded funds in that period were approximately as follows:

| Name | % of Fund |
|--|------------------|
| SPDR S&P 500 ETF Trust | 20.83% |
| Vanguard Total International Bond ETF | 15.57% |
| BMO Aggregate Bond Index ETF | 29.83% |
| iShares Core MSCI EAFE ETF | 15.06% |
| WisdomTree U.S. Quality Dividend Growth Fund ETF | 12.42% |
| Invesco S&P 500 ESG Index ETF | 22.63% |

The associated concentration risk is discussed under the heading “*Concentration Risk*” on page 80.

The Fund’s portfolio turnover rate may be high. The higher the Fund’s portfolio turnover rate the greater the chance that you may receive a distribution from the Fund that must be included in determining your taxable income for tax purposes and the higher the Fund’s trading costs, which are an expense of the Fund and are paid out of the Fund’s assets, so that your returns may be reduced.

Additional Information

The fund may invest in Invesco ETFs that are part of the Strategic Agreement described on page 66 of this simplified prospectus. The Manager receives sub-advisory fees, paid by Invesco Canada Ltd., associated with aggregated assets under management of certain Invesco ESG Index ETFs.
